PRODUCT INFORMATION SHEET

MEGA CREAM CLEANSER

GM057R

6.75 fl. oz. | 200 mL

This ultra-gentle cleanser instantly dissolves makeup, oil, and debris on the skin. This product not only provides a deep clean, but it contains age-defying antioxidants to combat dryness and harmful irritants that lead to premature aging. Use as a first cleanse to remove makeup; safe for lash extensions.

RECOMMENDED FOR

All skin types. Great for post-procedure or sensitive skin.

MEGA CREAM CLEANSER Maga Creme Netroyett Maga Creme Limpadors 6.75 f1 oz | 200 st O1 **** O1 ***** \$ 12 17 as 1 500 ff

DIRECTIONS

Our #1 Makeup remover! Apply 1–2 pumps to dry palms onto dry skin. Gently massage onto the face, neck, and décolleté to remove makeup, dirt, oil, debris and to prepare skin for 2nd cleanse. Add water to provide slip. Can be used as an eye makeup remover. Rinse with tepid water.

INGREDIENTS

Aqua (Water), Angelica Archangelica (Angelica) Extract, Avena Sativa (Oat) Straw Extract, Olea Europaea (Olive) Fruit Extract, Yucca Aloifolia Extract, Helianthus Annuus (Sunflower) Seed Oil. Decvl Glucoside. Cetearvl Glucoside, Glyceryl Stearate, Butyrospermum Parkii (Shea) Butter, Glycerin, Cetearyl Alcohol, Cetearth 20, Xanthan Gum, Lavandula Angustifolia (Lavender) Oil. Lavandula Hybrida (Lavandin) Oil, Caprylic Acid, Glycine, Tocopherol (Vitamin E), Lecithin, Sorbitol, Calcium Ascorbate (Vitamin C), Diazolidinyl Urea, lodopropynyl Butylcarbamate

KEY INGREDIENTS

Calcium: Essential nutrient that plays a pivotal role in the body's collagen production and tissue repair.

Shea Butter: Natural cellular renewal ingredient that has excellent moisturizing and nourishing abilities.

Angelica: A botanical extract that has a soothing effect on the skin.

Lavender: Promotes healing and balance to the skin. It is also an antiseptic, analgesic, and antidepressant.

Sunflower: Strengthens the skin's natural barrier and moisturizes the skin.

Vitamin E: Antioxidant that protects the cells from the damaging effects of free radicals. Has anti-inflammatory properties and has been proven to protect skin, speed wound healing, provide hydration, and prevent water loss.

I am a big fan of the aroma therapeutic benefits of lavender and love this cleanser. Is it safe enough to use on my children?

Yes, Mega Cream Cleanser is gentle enough to use on any skin. It is even recommended for the vulnerable skin of cancer patients going through treatment. Mega Cream Cleanser can be used as an eye makeup remover as well.

Sometimes I am just too tired to wash off my makeup at night. Am I okay if I do it in the morning?

While you are laying there making the decision to omit this critical part of your skin care regimen, remember this, every day you do not remove your makeup, you age your skin seven days. Night time skin routines are based on the circadiam rhythms while we sleep which dictate to our skin cells to go into a reparative mode. Your skin care professional should provide you with a night time regimen to encourage this process.

Is it okay to alternate Mega Cream Cleanser with a more active cleanser between morning and night?

Yes it is not only appropriate but often recommended. Glymed Plus has a great selection of alternative morning cleansers depending on your skin care needs.

Is this product safe for pregnant or breastfeeding moms?

Yes this cleanser is safe to use during pregnancy.

PEPTIDE FIRMING CLEANSER

GM14ER

6.75 fl. oz. l $200 \, \text{mL}$

Peptide Firming Cleanser is an elegant blend of rich emollients, powerful peptides, and botanicals that promote health within our skin cells. This creamy cleanser is perfect for performing facial massage and will leave the skin feeling smooth, hydrated, and youthful.

RECOMMENDED FOR

All skin types. Great for post-procedure, dry, dehydrated, sensitive, and aging skin.

DIRECTIONS

Dispense to dry palms and apply to dry skin. Gently massage area to be cleansed. Rinse with water. Can be used morning and night.

INGREDIENTS

Aqua (Water), Echinacea Purpurea (Echinacea) Herb Extract, Equisetum Arvense (Horsetail) Extract, Olea Europaea (Olive) Leaf Extract, Spirulina Platensis (Algae) Extract, Helianthus Annuus (Sunflower) Oil, Decyl Glucoside, Cetearyl Glucoside, Glyceryl Stearate, Butyrospermum Parkii (Shea) Butter, Gly-cerin, Vegetable Cetearyl Alcohol, Cetearth 20, Hawaiian Algae (Seaweed) Extract, HG5 Complex, Sodium Hyaluronate, Copper Gluconate, Zinc Gluconate, Magnesium Aspartate, Magnesium Ascorbyl Phosphate (Vitamin C), PC10 Complex, Rosa Damascena (Rose) Oil, Malva Sylvestris (Mallow) Extract, Mentha Piperita (Peppermint) Leaf Extract, Primula Veris (Primrose) Extract, Alchemilla Vulgaris (Lady's Mantle) Extract, Veronica Of-ficinalis (Speedwell) Extract, Melissa Officinalis (Balm) Leaf Extract, Achillea Millefolium (Yarrow) Extract, Xanthan Gum, Tocopherol (Vitamin E), Caprylic Acid, Glycine, Arnica Montana Flower Extract, Rosmarinus Officinalis (Rosemary) Leaf Extract, Iodopropynyl Butylcarbamate

Peptides

KEY INGREDIENTS

PC10 Complex: GlyMed Plus' own PC10 Amino Acid Complex contains powerful amino acid complexes, natural antioxidants, and pharmaceutical grade botanicals to help correct the damage from free radical injury in addition to combating inflammation which is one of the major causes of skin aging.

Rose: Smooths, tones, calms, and relaxes the skin.

Primrose: Reduces inflammation and has natural skin lightening properties.

Shea Butter: Soothes damaged skin, promotes cell regeneration, and assists in circulation.

Sunflower: Strengthens the skin's natural barrier and moisturizes the skin.

Horsetail: Used to heal wounds and to firm and tighten the skin.

Why is this cleanser so much more expensive than other GlyMed Plus cleansers?

Due to expensive botanicals such as Rose, Speedwell and various other high-grade botanicals this is no ordinary cleanser that is built to feed, nourish, firm and hydrate the skin.

Can I use this cleanser to remove my eye makeup?

Yes, as are all other GlyMed Plus hydrophilic cleansers.

Should I use Peptide Firming Cleanser before or after other products in my regimen?

We recommend performing a 1st cleanse before using this cleanser (We love Mega Cream Cleanser) to clean dirt, oil and debris from the skin. This allows the incredible ingredients of the Peptide Firming Cleanser to penetrate the skin, rather than other impurities.

Is this product safe for pregnant or breastfeeding moms?

Yes, this product contains healing and hydrating ingredients safe for pregnancy.

VITAMIN C **CLEANSER**

glymed+

GM126R

8.0 fl. oz. I 236 mL

Vitamin C Cleanser is an antioxidant-packed cleanser that promotes hydration and aids in protecting the skin. This product helps to soften and remove dead skin cells and makeup, oils, dirt, and debris. A superior creamy healing cleanser for after treatments.

RECOMMENDED FOR

All skin types. Great post-procedure, acne, dry and dehydrated, photo-aging, wrinkles, and pigmented skin.

Vitamin C

DIRECTIONS

Dispense to dry palms and apply to dry skin. Gently massage area to be cleansed. Rinse with water. Can be used morning and night.

INGREDIENTS

Aqua (Water), Dipentaerythrityl Hexacaprylate/ Hexacaprate, Tridecyl Trimellitate, Tridecyl Stearate, Neopentyl Glycol Dicaprylate/Dicaprate, Glyceryl Stearate, PEG-100 Stearate, Ceteareth-20, Cetearyl Alcohol, Glycerin USP. Magnesium Aluminum Silicate, Dimethicone, Lanolin, Sodium Citrate, Xanthan Gum, Citrus Grandis (Grapefruit) Peel Oil, Vitis Vinifera (Grape) Seed Oil, Quillaja Saponaria (Soap Bark) Extract, Tocopheryl Acetate (Vitamin E Acetate), Calcium Chloride, Retinyl Palmitate (Vitamin A Ester), Magnesium Ascorbyl Phosphate (Vitamin C), Ribonucleic Acid (RNA), Yeast Extract, Super Oxide Dismutase, Annatto, Phenoxyethanol, Ethylhexylglycerin

KEY INGREDIENTS

Vitamin C: Water soluble, non-irritating, stable form of Vitamin C. Boosts skin collagen synthesis and is effective in significantly lowering concentrations to suppress melanin formation.

Vitamin E: Natural skin conditioner and powerful antioxidant. It maintains and strengthens other antioxidants and prevents oxidative stress.

Calcium: Essential nutrient that plays a pivotal role in the body's collagen production and tissue repair.

I love the smell of this cleanser but have sensitive skin and can't use artificial fragrances. Does GlyMed Plus use artificial fragrances?

GlyMed Plus only incorporates natural botanical blends of essential oils to create the unique, proprietary aromas in all of our products. Perfumes are different than botanical fragrances.

Why did my aesthetician recommend this cleanser after my clinical treatment?

Vitamin C Cleanser is a gentle way to remove daily debris and gently soften skin that is preparing to exfoliate after any type of treatment. In addition, Vitamin C Cleanser has antioxidant and anti-inflammatory properties to assist in healing. For skin that is peeling, gently massage Vitamin C Cleanser and allow to remain on skin for approximately five minutes before removing with tepid water.

During the winter, my skin feels dry and tight. Which cleanser is best for my skin?

Vitamin C Cleanser is a perfect addition to your home care regimen during the winter to ensure a healthier and more pliable stratum corneum. The winter wreaks havoc on the skin and can cause it to stiffen and become less pliable, inhibiting the penetration of treatment products. Vitamin C Cleanser will add hydration, allowing the skin to repair and function normally.

Is this product safe for pregnant or breastfeeding moms?

Yes, this product is safe to use during pregnancy and nursing.

GENTLE GEL CLEANSER

glymed+

with Amino Acids

GM116R

4.0 fl. oz. | 118 mL

A mild lathering, powerful facial cleanser, rich in age fighting botanicals. Naturally soften, calm, and prepare the skin for an enhanced shaving experience due to its fortified formula that includes antioxidant protection of vitamin E, Green Tea, and wheat proteins.

RECOMMENDED FOR

All skin types.

DIRECTIONS

Dispense and emulsify with water to create foam. Gently massage area to be cleansed, avoiding eye area. Rinse with water. Can be used morning and night.

INGREDIENTS

Aqua (Water), Aloe Barbadensis (Aloe Vera). Olefin Sulfonate. Cocamidopropyl Betaine, Glycerin, Wheat Protein, Tocopherol (Vitamin E), Camellia Sinensis (Green Tea) Leaf Extract, Sea Salt, Fragrance, lodopropynyl Butylcarbamate

Peptides

KEY INGREDIENTS

Aloe Vera: A potent healer. Provides a protective layer that inhibits infection and soothes the skin. It is both hydrating and gentle. Suitable for all skin types.

Wheat Proteins: Increases skin firmness, smooths and nourishes skin, improving skins softness and protects skin from drying out. It has the ability to decrease number and depth of wrinkles.

Green Tea: Powerful antioxidant. Protects cells from free radicals and their associated damage. Also an antibacterial, antiinflammatory, as well as having the capabilities to extend the effects of SPF.

Vitamin E: Antioxidant that protects the cells from the damaging effects of free radicals. Has anti-inflammatory properties and has been proven to protect skin, speed wound healing, provide hydration, and prevent water loss.

Is this product gluten free?

No. However, it is important to note skin care products containing wheat proteins will not affect someone who has a gluten intolerance. Gluten that is absorbed through the digestive tract is the concern for those with sensitivities or allergies to gluten. Many times those with severe allergies to gluten can experience skin sensitivities and reactions and those individuals may want to omit gluten containing products from their skin care routine. Most individuals can use it routinely and not experience any issues.

Can my teenage son use this product?

Yes. If your teenager also experiences teenage breakouts and acne symptoms, they may want to add a component from the Serious Action Acne line to augment their daily home care routine.

Is this product safe for pregnant or breastfeeding moms?

Yes! Men and women with oily skin types love this gentle, oil controlling cleanser. Safe to use for women who are pregnant/breastfeeding.

FOAMING CLEANSER

with Amino Acids

GM27ER

5.0 fl. oz. I 150 mL

This light and foamy wash is a refreshing blend of orange, mandarin, grapefruit, and bergamot that provide an aromatic splash of citrus. Combined with amino acids and natural antioxidants to provide nutrients vital for skin health.

RECOMMENDED FOR

All skin types and all skin conditions.

DTRECTTONS

Dispense and gently massage area to be cleansed, avoiding eye area. Rinse with water. Can be used morning and night.

INGREDIENTS

Aqua (Water). Aloe Barbadensis (Aloe Vera), Boswellia Serrata (Boswellin) Extract, Arnica Montana Flower Extract, Olefin Sulfonate, Cocamidopropyl Betaine, Glycerin, PC10 Complex, Lavandula Angustofolia (Lavender) Oil, Citrus Aurantium Dulcis (Orange) Peel Oil, Citrus Nobilis (Mandarin) Oil, Citrus Grandis (Grapefruit) Peel Oil, Citrus Bergamia (Bergamot) Oil, Caprylic Acid, Glycine, Olea Europaea (Olive) Polyphenols, Manganese Gluconate, Potassium Sorbate (Vitamin C), Tocopherol (Vitamin E), Sodium Chloride (Sea Salt)

gly*med+*

KEY INGREDIENTS

PC10 Complex: GlyMed Plus' own PC10 Amino Acid Complex contains powerful amino acid complexes, natural antioxidants, and pharmaceutical grade botanicals to help correct the damage from free radical injury in addition to combating inflammation which is one of the major causes of skin aging.

Aloe Vera: A potent healer. Provides a protective layer that inhibits infection and soothes the skin. It is both hydrating and gentle. Suitable for all skin types.

Arnica Montana: It is antiseptic, astringent, antimicrobial, anti-inflammatory, anticoagulant, and it stimulates circulation and promotes healing.

Lavender: Promotes healing and balance to the skin. It is also an antiseptic, analgesic, and antidepressant.

Should I use Foaming Cleanser with Amino Acids as a first or second cleanse?

We recommend performing a 1st and 2nd cleanse to clean dirt, oil, and debris from the skin. This allows the incredible ingredients of the 2nd cleanser to penetrate the skin, rather than other impurities.

This cleanser is already a foamy cleanser; do I need to add water to this cleanser still?

Yes. It is recommended as the addition of water will emulsify the cleanser and allow the activation of the cleansing and purifying botanicals for a perfect cleanse.

Is this product safe for pregnant or breastfeeding moms?

Yes, this product contains gentle, healing ingredients safe for pregnancy.

GLYCOLIC FACIAL CLEANSER

with 10% Glycolic Acid

GM001R

8.0 fl. oz. | 236 mL

Glycolic Facial Cleanser is a paraben-free, 10% glycolic acid cleanser that jump starts skin cells, promoting the desquamation process and enhancing the penetration of treatment products. Glycolic acid helps to combat aging, improve acne, lighten and brighten the skin. This cleanser provides anti-aging and exfoliation benefits and is gentle enough to use on even the most sensitive skin.

All skin types. Great for acne, aging, and pigmentation.

DIRECTIONS

Each morning and evening, apply a liberal amount of Glycolic Facial Cleanser to skin, gently massaging the area to be cleaned. Remove with tepid water splashes and a warm, damp cloth. Do not use as an eye makeup remover.

INGREDIENTS

Ammonium Lauryl Sulfate, Aqua (Water), Glycolic Acid, Cocamidopropyl Betaine, Glycerin, Glycol Stearate, Sodium Hydroxide, Diazolidinyl Urea, Citric Acid

KEY INGREDIENTS

Glycolic Acid 10%: Promotes light exfoliation, visibly reducing the appearance of pores and wrinkles, breaks up cellular cohesion, and removes surface dryness.

Ammonium Lauryl Sulfate: A gentle, effective cleansing agent derived from coconut.

Glycerin: A humectant with strong water- binding properties. Increases hydration and enhances the skin barrier function.

Should I use Glycolic Facial Cleanser with 10% Glycolic Acid before or after other products in my regimen?

Glycolic Facial Cleanser with 10% Glycolic Acid is our #1 recommended cleanser and typically is used 1st unless you need to remove makeup. Our Mega Cream Cleanser is a fabulous makeup remover.

My skin feels tight after I use this product, is it too much for my skin?

No. Glycolic Facial Cleanser is a very effective cleanser that removes all the "daily debris" including oils from the skin leaving it completely clean. It is crucial that you replenish the hydration to the skin after use by following with your additional GlyMed Plus regimen.

Is this product safe for pregnant or breastfeeding moms?

Yes, Glycolic Facial Cleanser can safely be used during pregnancy. However, your skin is more vulnerable to sun exposure during this time so make sure you are always wearing your GlyMed Plus sunscreen when outdoors.

How does the glycolic acid in Glycolic Facial Cleanser provide benefits if I am removing it?

Using glycolic acid in a cleanser alone will not provide the complete benefits of this anti-aging ingredient. However, it is effective as a preparatory for your other products including Beta Gel with 10% Glycolic Acid, Accelerator Gel with 20% Alpha Hydroxy Acids, or Resurfacing Night Cream with 15% Glycolic Acid that are left on.

IDYLLIC CLEANSER

with 3% Mandelic Acid

GM74ER

8.0 fl. oz. | 236 mL

Our preferred homecare cleanser. Idyllic Cleanser contains 3% Mandelic Acid, and is formulated to gently exfoliate, control acne-causing bacteria, and brighten the skin. This cleanser provides anti-aging and gentle exfoliation benefits. It is recommended for mild to moderate concerns. Suitable for all skin tones, acne grades, and skin types, this mild-active cleanser can be used every day.

RECOMMENDED FOR

All skin types and all skin conditions. Great for mild to moderate acne.

DTRECTTONS

Dispense and emulsify with water to create foam. Gently massage area to be cleansed, avoiding eye area. Rinse with water. Begin using once a day and increase if needed.

INGREDIENTS

Aqua (Water), Sodium Cl4-16 Olefin Sulfonate, Cocamidopropyl Betaine, Glycerin, Peg-18 Glyceryl Oleate/Cocoate, Mandelic Acid, Decyl Glucoside, Propanediol, Peg-120 Methyl Glucose Dioleate, Panthenol, Pentylene Glycol, Symphytum Officinale (Comfrey) Rhizome/Root Extract, Camellia Sinensis (Green Tea) Leaf Extract, Anthemis Nobilis (Chamomile) Flower Extract, Tocopherol, Caprylyl Glycol, Hexylene Glycol, Phenoxyethanol, Ethylhexylglycerin

$glymed^*+$

KEY INGREDIENTS

Mandelic Acid: Derived from almonds, this larger AHA gently helps to diminish surface cells to reduce build up.

Comfrey: An herb. The content of allantoin and mucilages provides soothing, antibacterial, and anti-inflammatory properties.

Chamomile: Anti-inflammatory and antibacterial.

Green Tea: High in antioxidants, effective antibacterial and anti-inflammatory agent.

Should I use Idyllic Cleanser first in my regimen?

The Idyllic cleanser is designed to be the first cleanser unless you are performing a double cleanse. In that case, we recommend using our Mega Purifying Cleanser because it is a fabulous makeup remover.

My skin feels tight after I use this product, is it too much for my skin?

In order to effectively cleanse the skin, Idyllic cleanser removes a moderate amount of debris, including oils. It is important to replenish hydration back into the skin after use by following with your additional GlyMed Plus 4 step regimen.

Is this product safe for expecting or nursing mothers?

It is safe to use Idyllic Cleanser during pregnancy. During this time, however, your skin is more susceptible to sun exposure, and you should always wear GlyMed Plus sunscreen when outdoors.

How does the Mandelic Acid in Idyllic Cleanser provide benefits if I am removing it?

While a cleanser alone won't provide all of the benefits of mandelic acid, it can prepare your skin for the other 4 steps that follow. The preparation of the skin for other ingredients is an important step of achieving results.

PURIFYING **CLEANSER**

with Salicylic Acid

GM49AR

8.0 fl. oz. I 236 mL

This gentle yet effective cleanser promotes balanced, clear skin. Salicylic Acid works to kill bacteria, reduce oil production, and slow the shedding of dead skin cells into the pores to prevent clogging. Combined with Aloe Vera and Green Tea to promote healing and hydration to effectively reduce breakouts and the appearance of pores.

RECOMMENDED FOR

All skin types. Great for oily, acne prone skin.

DIRECTIONS

Dispense and emulsify with water to create a foam. Gently massage onto the area to be cleansed, avoiding the eye area. Rinse with water. Can be used morning and night.

INGREDIENTS

Active Ingredients:

Salicylic Acid 2.0%

Inactive Ingredients: Acetamide MEA, Aloe Barbadensis (Aloe Vera) Leaf Juice. Ammonium Laureth Sulfate. Ammonium Laurvl Sulfate, Aqua (Water), Camellia Sinensis (Green Tea) Leaf Extract, Caprylyl Glycol, Chlorphenesin, Cocamide MIPA, Cocamidopropyl Betaine.Glycerin. Phenoxyethanol, Potassium Sorbate (Vitamin C)

glymed+

Combination

KEY INGREDIENTS

Salicylic Acid: Used as an exfoliant. Reduces oiliness, acne, and photo-aging. Helps slow down the shedding of the cells inside the follicles to prevent clogging. Also helps break down blackheads and whiteheads.

glymed

Green Tea: Powerful antioxidant. Protects cells from free radicals and their associated damage. Also an antibacterial, anti-inflammatory, as well as having the capabilities to extend the effects of SPF.

Aloe Vera: A potent healer. Provides a protective layer that inhibits infection and soothes the skin. It is both hydrating and gentle. Suitable for all skin types.

Can I use this cleanser on my back and chest?

Yes. In fact, you can use any of the GlyMed Plus cleansers on the body for superior cleansing without the harsh chemicals and fragrances added to over-the-counter soaps and body washes.

GlyMed Plus has four cleansers in the acne line. How do I decide which one is best for me?

Because acne strikes both sexes and all age groups in varying levels, there is not one product or ingredient that works for everyone. GlyMed Plus has four cleansers, two that contain the powerful ingredient Salicylic Acid known for its ability to break down the oil that is the fuel that drives the acne condition. The other two cleansers contain benzoyl peroxide, an ingredient known to create an active form of oxygen where the acne impaction occurs to control bacteria. Although all four acne cleansers are effective and can be used by any acne or oily prone individual, the following will help you determine where you may begin: for inflamed or infected acne with dry skin, we recommend Clear Skin Cleanser with Benzoyl Peroxide; for inflamed or infected acne with oily skin, we recommend Purifying Cleanser with Salicylic Acid; for non-inflammatory acne with dry skin, we recommend Clear Exfoliant Cleanser with Benzoyl Peroxide; for non-inflammatory acne with oily skin, we recommend Exfoliating Cleanser with Salicylic Acid. If your skin is currently irritated and experiencing infected acne breakouts, do not use an exfoliating cleanser as it may be too aggressive.

Is this product safe for pregnant or breastfeeding moms?

No, we do not recommend salicylic acid for use during pregnancy.

EXFOLIATING CLEANSER

with Salicylic Acid

GM50AR

8.0 fl. oz. I 236 mL

Treat acne at its source with the combined power of Salicylic Acid, Aloe Vera, and exfoliating beads. Exfoliating Cleanser with Salicylic Acid will slough away layers of dead skin, absorb excess oil, and purge impurities inside the pores. Skin will be left reenergized, restored, and radiant. This cleanser is also a favorite for men!

RECOMMENDED FOR

All skin types. Great for blackheads, oily, and acne prone skin. Do not use on open acne.

DIRECTIONS

Can be used every night. Dispense and emulsify with water to create a foam. Gently massage onto the area to be cleansed, avoiding the eye area. Rinse with water. **Do not** use on open lesions.

INGREDIENTS

Active Ingredients: Salicylic Acid 2.0%

Inactive Ingredients: Acrylates Copoylmer, Aloe Baradensis (Aloe Vera) Leaf Juice, Ammonium Lauryl Sulfate, Aqua (Water), Caprylyl Glycol, Chlorphenesin, Citrus Aurantium Dulcis (Orange) Peel Oil, Citrus Paradisi (Grapefruit) Peel Oil, Cocamide MEA, Cocamidopropyl Betaine, Glycerin, Glycol Stearate, Hydrogenated Castor Oil, Phenoxyethanol, Sodium Hydroxide, Tetrasodium **EDTA**

glymed+

KEY INGREDIENTS

Salicylic Acid: Used as an exfoliant. Reduces oiliness, acne, and photo-aging. Helps slow down the shedding of the cellsinside the follicles to prevent clogging. Also helps breakdown blackheads and whiteheads.

Aloe Vera: A potent healer. Provides a protective layer that inhibits infection and soothes the skin. It is both hydrating and gentle. Suitable for all skin types.

Orange Peel: Anti-inflammatory that helps detoxify congested skin and soothes dry, irritated skin. Increases collagen discouraging the formation of fine lines and wrinkles. Reduces puffiness.

I love this cleanser, but what should I use during an infected acne breakout?

It is best to avoid exfoliating products during this time. During the times when your skin is more irritated or infected, use the Purifying Cleanser with Salicylic Acid or the Clear Skin Cleanser with Benzoyl Peroxide.

GlyMed Plus has four cleansers in the acne line. How do I decide which one is best for me?

Because acne strikes both sexes and all age groups in varying levels, there is not one product or ingredient that works for everyone. GlyMed Plus has four cleansers, two that contain the powerful ingredient Salicylic Acid known for its ability to break down the oil that is the fuel that drives the acne condition. If your skin is currently irritated and experiencing infected acne breakouts, do not use an exfoliating cleanser as it may be too aggressive.

Is this product safe for pregnant or breastfeeding moms?

No, we do not recommend salicylic acid for use during pregnancy.

CLEAR SKIN CLEANSER

with Benzoyl Peroxide

GM19AR

8.0 fl. oz. | 236 mL

Clear Skin Cleanser is an extraordinarily effective acne wash formulated to achieve dramatic results with the ability to reduce and help to promote healing of both inflamed and non-inflamed acne breakouts. This cleanser oxygenates and detoxifies congested skin, while it soothes and promotes healing with Benzoyl Peroxide to specifically kill acne-causing bacteria.

RECOMMENDED FOR

All skin types. Great for oily, blackheads, and acne grades 1 & 2. Do not use on open acne.

CLEAR SKIN CLEANSER OF BROWN BROWN HERMAN PRACE CARE A Province of Brown Herman Prace Care A Province of Brown Herman Brown Herman Brown Herman Brown Herman Herman

DIRECTIONS

Dispense and emulsify with water to create foam. Gently massage area to be cleansed, avoid eye area. Rinse with water. Can be used morning and night. Remove with white towels, Benzoyl Peroxide can bleach towels and sheets.

INGREDIENTS

Active Ingredients: Benzoyl Peroxide 2.5%

Inactive Ingredients: Aloe Barbadensis (Aloe Vera) Leaf Juice, Aqua (Water), Caprylyl Glycol, Carbomer, Chlorphenesin, Citral, Citrus AurantiumDulcis (Orange) Peel Oil, Cocamide MEA, Cocamidopropyl Hydroxysultaine, Disodium EDTA, Sodium Lauroamphoacetate, Glycerin, Limonene, Linalool, PEG-150 Distearate, PEG-80 Sorbitan Laurate, Phenoxyethanol, Sodium Hydroxide, Sodium Laureth-13 Carboxylate, Sodium Trideceth Sulfate, Sorbitol

KEY INGREDIENTS

Benzoyl Peroxide: An antibacterial agent and oxygen releasing chemical that kills the bacteria responsible for acne breakouts.

Aloe Vera: A potent healer. Provides a protective layer that inhibits infection and soothes the skin. It is both hydrating and gentle. Suitable for all skin types.

Orange Peel: Anti-inflammatory that helps detoxify congested skin and soothes dry, irritated skin. Increases collagen discouraging the formation of fine lines and wrinkles. Reduces puffiness.

Will this product make me peel?

GlyMed Plus Clear Skin Cleanser is an active product with 2.5% Benzoyl Peroxide. It is not uncommon to experience some flaking or peeling when starting the use of this product. If it does occur, try using Ultra Hydro Gel daily with your regimen.

GlyMed Plus has four cleansers in the acne line. How do I decide which one is best for me?

Because acne strikes both sexes and all age groups in varying levels, there is not one product or ingredient that works for everyone. GlyMed Plus has four cleansers, two that contain the powerful ingredient Salicylic Acid known for its ability to break down the oil that is the fuel that drives the acne condition. If your skin is currently irritated and experiencing infected acne breakouts, do not use an exfoliating cleanser as it may be too aggressive.

Is this product safe for pregnant or breastfeeding moms?

While Benzoyl Peroxide can be used while pregnant, we always recommend consulting with your physician regarding recommendations.

CLEAR EXFOLIANT CLEANSER

with Benzoyl Peroxide

GM18AR

8.0 fl. oz. I 236 mL

Clear Exfoliant Cleanser gives a thorough cleanse with Benzoyl Peroxide and polishing beads that remove dead cells, excess oil, and impurities that clog pores. Combined with Aloe Vera and nourishing botanicals to assist in hydrating and healing the skin for improved tone and texture.

RECOMMENDED FOR

All skin types. Great for oily, blackheads, and acne grades 1 and 2. Do not use on open acne.

Benzoyl Peroxide

DIRECTIONS

Dispense and emulsify with water to create a foam. Gently massage onto the area to be cleansed, avoiding the eye area. Rinse with water. Do not use on open lesions. Can be used 2–4 times a week at night. **Remove with white towels, Benzoyl Peroxide can bleach towels and sheets.**

INGREDIENTS

Active Ingredients: Benzoyl Peroxide 2.5%

Inactive Ingredients: Aloe Barbadensis (Aloe Vera) Leaf Juice, Ammonium Lauryl Sulfate, Aqua (Water), Caprylyl Glycol, Carbomer, Chlorphenesin, Cocamidopropyl Betaine, Disodium Cocoamphodiacetate, Disodium EDTA, Glycerin, Lavandula Angustifolia (Lavender) Oil, Phenoxyethanol, Polylactic Acid, Propylene Glycol, Sorbitol, Triethanolamine

KEY INGREDIENTS

Benzoyl Peroxide: An antibacterial agent and oxygen releasing chemical that kills the bacteria responsible for acne breakouts.

Aloe Vera: A potent healer. Provides a protective layer tha tinhibits infection and soothes the skin. It is both hydrating and gentle. Suitable for all skin types.

Lavender: Promotes healing and balance to the skin. It is also an antiseptic, analgesic, and antidepressant.

I have read that benzoyl peroxide causes sun sensitivities, is it okay for me to use it in the morning?

Clear Exfoliant Cleanser contains only 2.5% benzoyl peroxide and is removed. It is safe to use morning and night but GlyMed Plus strongly advises the use of a sunscreen daily if cleanser is used in the morning. Our recommendation for acne prone skin is Hydrating Protection Gel with SPF 15.

My skin becomes extremely irritated when I use this cleanser. What can I do?

It is important not to over exfoliate. Use a gentle massage for one to two minutes and then remove. Alternate between every other day if daily exfoliation is too much.

GlyMed Plus has four cleansers in the acne line. How do I decide which one is best for me?

Because acne strikes both sexes and all age groups in varying levels, there is not one product or ingredient that works for everyone. GlyMed Plus has four cleansers, two that contain the powerful ingredient Salicylic Acid known for its ability to break down the oil that is the fuel that drives the acne condition. Peptides

DIRECTIONS

After cleansing, apply to the face, neck and décolleté and leave on for 5-10 minutes. Rinse with water. Can be used 2-3 times a week.

INGREDIENTS

Water, Glycerin, Polyacrylamide, C13-14 Isoparaffin, Laureth-7, Acetyl Hexapeptide-8, Dipalmitoyl Hydroxyproline, Capryloyl Glycine, Rosa Damascena (Rose) Flower Oil, Tocopherol, Tetrahexyldecyl Ascorbate, Red Wine Polyphenols, Magnesium Aspartate & Zinc Gluconate & Copper Gluconate, Diazolidinyl Urea, Iodopropynyl Butylcarbamate

KEY INGREDIENTS

PC10 Complex: GlyMed Plus' own PC10 Amino Acid Complex contains powerful amino acid complexes, natural antioxidants, and pharmaceutical grade botanicals to help correct the damage from free radical injury in addition to combating inflammation which is one of the major causes of skin aging.

Vitamin C: Protects skin cells and skin structure from UV-related damage, improves the appearance of sun damaged skin. strengthens the skin's barrier response, reduces inflammation, promotes collagen production, and reduces pigmentation.

Vitamin E Acetate: Protects skin from damaging effects of free radicals. Protects skin, speeds wound healing, provides hydration, and prevents water loss.

Red Wine: Incredible antioxidant. Improves fine lines and wrinkles and the overall tone and texture of the skin.

Sometimes when I use this masque, I get very red, am I allergic or should I use a different masque?

This masque contains tomato extract and certain peptides that can stimulate circulation which can show up as redness. This is a good sign as aging skin can become asphyxiated and sallow, by increasing circulation it also increases oxygen to the skin cells providing for healthier skin.

Is this product safe for pregnant or breastfeeding moms?

Yes, this product contains hydrating and healing ingredients safe for pregnancy.

CBD HYDROTHERAPY MASQUE

with Micro-Silver

GM407R

1.0 fl. oz. | 30 mL

This luxurious, deep-hydration masque is fortified with CBD and Micro Silver and has a multitude of benefits. Micro Silver helps to support the skin's natural flora to reduce bacteria and aid in healing, while moisturizing Collagen instantly plumps and balances dehydrated skin.

RECOMMENDED FOR

Inflamed and compromised skin concerns along with aging, acne and rosacea.

DIRECTIONS

After cleansing, apply to the face, neck and décolleté and leave on for 5-10 minutes. Rinse with water. Can be used 2-3 times a week.

INGREDIENTS

Water, Glycerin, Propanediol, Ammonium Acryloyldimethyltaurnate/vp Copolymer, Dimethicone, Sodium Hyaluronate, Cannabis Sativa Stem (CBD) Oil, Palmitoyl Tripeptide-5, Palmitoyl Dipeptide-5 Diaminobutyroyl Hydroxythreonine, Tetradecyl Aminobutyroylvalylaminobutyric Urea Trifluoroacetate, Saccharide Isomerate, Panthenol, Niacinamide, Caprylic/capric Triglyceride, Squalane, Soluble Collagen, Sodium Citrate, Sucrose Palmitate, Glyceryl Linoleate, Polyglutamic Acid, Silver, Aloe Barbadensis Leaf Juice, Cucumis Sativus (Cucumber) Fruit Extract, Camellia Sinensis (Green Tea) Leaf Extract, Symphytum Officinale (Comfrey) Rhizome/root Extract, Vanilla Planifolia Fruit Extract, Limnanthes Alba (Meadowfoam) Seed Oil, Brassica Campestris Seed Oil, Linum Usitatissimum Seed Oil, Simmondsia Chinensis (Jojoba) Seed Oil, Tocopheryl Acetate, Tocopherol, Tetrahexyldecyl Ascorbate, Phenoxyethanol, Ethylhexylglycerin, Citric Acid

Micro-Silver

KEY INGREDIENTS

CBD (Hemp): Grown in the USA, derived from HEMP and is considered one of the strongest antioxidants, even stronger than Vitamin C & E, and recognized for its incredible anti-aging effects in the skin.

Micro Silver: Medical grade ingredient used to supporthealing and aid in reducing bacteria on the surface of the skin to maintain a healthy flora and boosts the skin's natural barrier system.

Peptide Cocktail: Anti-aging peptide cocktail that stimulates the proteins of the Dermal-epidermal junction (DEJ) including laminin, collagen, integrin and provides strength.

What is Micro Silver?

Our Micro Silver is medical grade and aids in reducing bacteria on the surface of the skin to help maintain a healthy flora and boosts the skin's natural barrier system. Micro-Silver has long-lasting antimicrobial properties, making it especially good for clients with acne or rosacea.

Will CBD get you high?

No, CBD is a hemp-based ingredient that differs from strains of marijuana cultivated for their psychoactive drug use. Our CBD is derived from non-drug strains of cannabis and has NO psychoactive compounds. THC is the chemical compound that is responsible for psychoactive effects. Our CBD products are lab-certified to have less than 0.3% THC and in fact our products have been tested and have zero THC.

What is the difference between HEMP and Marijuana products?

In December of 2018, the Farm Act of 2018 was signed into law and this law included a revised definition of "marijuana products." Under the revised definition, products with low to no THC content (less than 0.3%) were excluded from the definition of marijuana products. There have been many studies and there are many more studies underway that are measuring the benefits of CBD and other hemp-related ingredients. Our CBD products have all been independently certified to be hemp-based products and NOT marijuana products.

Is this safe for pregnant and nursing mothers?

We always recommend your expecting\nursing clients consult with their physician regarding using CBD or other active ingredients.

MATTIFYING SULFUR glymed+ MASQUE

GM51AR

4.0 fl. oz. | 118 mL

Sulfur has been proven to be beneficial when treating acne or rosacea. This therapeutic clay-based masque kills bacteria, removes dead skin cells, and absorbs excess oil. Once removed, the skin feels smooth and revitalized.

RECOMMENDED FOR

All skin types. Great for acne prone skin and as a spot treatment.

DIRECTIONS

After cleansing, apply to the face, neck and décolleté and leave on for 5–10 minutes. Rinse with water. Can be used 2–3 times a week or nightly as a spot treatment.

0ily Skir

Rosacea

Sulfur

INGREDIENTS

Active Ingredients: Sulfur 10.0%

Inactive Ingredients: Aqua (Water), Bentonite, Caprylyl Glycol, Chlorphenesin, Citrus Paradisi (Grapefruit) Peel Oil, Glycerin, Imidazolidinyl Urea, Kaolin, Phenoxyethanol, Propylene Glycol, Talc, Tetrasodium EDTA

KEY INGREDIENTS

Sulfur: Reduces inflammation, kills bacteria, reduces dead skin build up, and reduces excess oil.

Grapefruit: Skin conditioning agent that reduces existing comedones and prevents new ones from occurring.

Kaolin: Oil absorbing. Helps stimulate the microcirculation of the skin.

I was instructed to put Mattifying Sulfur Masque on the deeper pimples and leave it on overnight, to break them up. I was amazed at the difference in the morning. What is it that creates this change?

Sulfur is a conditioning agent that breaks up the components in the follicle that combine to form an acne lesion. Ten percent sulfur makes this product extremely effective on deeper, more painful papules.

I am allergic to sulfa. Is it safe for me to use the Mattifying Sulfur Masque?

There is a lot of confusion on this issue. Sulfa drugs contain a molecule called sulfonamide which is a combination of sulfur, oxygen, nitrogen, and hydrogen. These drugs were considered the first antibiotics and work by inhibiting the ability of bacteria to reproduce. Allergies to sulfa drugs are common but it is the reaction to the molecule, not the sulfur. Sulfur is a chemical element in sulfa drugs, sulfites and sulfates and an essential element of life. Sulfur is found in amino acids as well as other important molecules in the body. It is not possible to be allergic to sulfur as it is critical to survival. If someone is allergic it will be either to sulfites, sulfonamides... not sulfur or sulfates.

I am in my first trimester of pregnancy and am breaking out like crazy. I have been warned not to use benzoyl peroxide or salicylic acid during my pregnancy. Is there anything in the GlyMed Plus Acne line that would be safe and effective for me?

Sulfur is safe to use during pregnancy and will help to keep the acne under control. Using the Mattifying Sulfur Masque two to three times a week will be helpful in keeping the oil under control and reduce inflammation.

Is this product safe for pregnant or breastfeeding moms?

Yes, this product is safe to use during pregnancy and is a great alternative to anyone sensitive to benzoyl peroxide.

PROFESSIONAL TIGHTENING PROTEIN BOOSTER

1.0 fl. oz. | 30 mL

See rapid tightening, lifting and firming results in the skin with the Professional Tightening Protein Booster. Protein, Hyaluronic Acid, and a Vitamin C complex revitalizes wrinkled, sagging and sun damaged skin.

RECOMMENDED FOR

For normal, oily, and combination skin. Rapidly lifts and tightens skin that is wrinkled or sagging.

Peptides

Face, Neck, + Décolleté

DIRECTIONS

Dispense 1/2–1 tsp of powder in a dish. Add choice of serum(s) to create a creamy consistency. Apply with a brush to skin beginning from the neck with upward strokes continuing to face ending at the forehead. Allow to dry completely until cracks begin to appear. Mist to release tightness and remove thoroughly with a damp facial cloth. Followed by additional serums and moisturizer.

INGREDIENTS

Zea Mays (corn) starch, Albmen, Acacia Senegal Gum, Allantoin, Hyaluronic Acid, Ascorbic Acid

KEY INGREDIENTS

Albumen: Albumen protein, rich in vitamins, amino acids, and minerals. Supports tissue repair, aids in lifting and firming and improving circulation.

Hyaluronic Acid: Superb at retaining water, capable of holding 1,000x its weight in water. Helps to plump the skin and reduce Trans Epidermal Water Loss (TEWL).

Ascorbic Acid: Water-soluble form of Vitamin C, incredible antioxidant and has the ability to stimulate collagen synthesis and prevent the deterioration of collagen in the skin.

What are the benefits of Albumen?

Albumen promotes elasticity of the skin, giving it a youthful look. It protects the skin from harmful free radical damage. It has excellent moisturizing properties.

Is this masque safe to use on the body?

Yes! It is a fantastic masque for the body. It promotes elasticity of the skin, protects from harmful free radicals and moisturizes dry/dehydrated skin.

Is this safe for pregnant and nursing mothers?

Yes. As always, we recommend your expecting clients consult with their physician regarding using active ingredients.

HYDRATING MASQUE

glymed+

with Enzymes

GM061R

2.0 fl. oz. | 59 mL

Hydrating Masque with Enzymes exfoliates and detoxifies skin as it boosts cellular renewal. Packed with hydrating botanicals and antioxidants, this energizing masque instantly moisturizes, and firms dry and dehydrated skin.

RECOMMENDED FOR

All skin types. Great for oily and acne prone skin.

DIRECTIONS

After cleansing, apply to the face, neck and décolleté and leave on for 5-10 minutes. Rinse with water. Can be used 2-3 times a week.

INGREDIENTS

Water, Coco-caprylate/caprate, Glyceryl Stearate Se, Glycerin, Oryza Sativa (Rice) Starch, Cetearyl Alcohol, Ceteareth-20, Aloe Barbadensis Leaf Extract, Sodium Hyaluronate, Allantoin, Selenium, Papain, Squalane, Thioctic Acid, Hydrophilic Polyether Polyurethane, Calendula Officinalis Flower Extract, Cymbopogon Schoenanthus (Lemongrass) Extract, Hordeum Distichon (Barley) Extract, Olea Europaea (Olive) Leaf Extract, Taraxacum Officinale (Dandelion) Extract, Lavandula Angustifolia (Lavender) Extract, Rubus Idaeus (Raspberry) Fruit Extract, Triticum Aestivum (Wheat) Leaf Extract, Ascophyllum Nodosum (Algae) Extract, Bromelain Extract, Lecithin, Tocopheryl Acetate, Retinyl Palmitate, Ascorbyl Palmitate, Sodium Chloride, Potassium Sorbate, Phenoxyethanol, Ethylhexylglycerin, Fragrance, Chromium Oxide Green

Natural

KEY INGREDIENTS

Papain: From the papaya fruit, this enzyme hydrolyzes and digests proteins.

Bromelain: An enzyme in pineapple that promotes protein metabolism, eliminates dead cells, and improves skin texture.

Calendula: Soothing, anti-inflammatory, and healing.

Coco-Caprylate/Caprate: A conditioner, and emollient lubricant, skin derived from coconut.

Hyaluronic Acid: Increases water content and helps assist against transepidermal water loss. It can hold up to 1000 times its weight in water.

Lavender: Promotes healing and balance to the skin. It is also an antiseptic, analgesic, and antidepressant

Lemongrass: Cleansing and purifying to the skin. Helps normalize oil production and reduce breakouts.

My face gets red when I use Hydrating Masque with Enzymes. Should I be concerned?

Ultra-Hydrating Enzyme Masque incorporates several enzymes that gently but actively digest dead skin cells. The redness you are seeing is a result of this activity.

How often can I use Hydrating Masque with Enzymes?

We recommend the use of any GlyMed Plus masques two to three times weekly unless otherwise instructed by your skin care professional.

I have noticed that my hands are also revealing their age. Can I use Hydrating Masque with Enzymes on my hands?

Yes, the hands are the true revelation of aging since most individuals do not address these concerns early. Follow the same instructions for use on the back of hands and anywhere there is excessive dry skin including elbows and knees.

Is this product safe for pregnant or breastfeeding moms?

Yes this product contains ingredients safe for pregnant/breastfeeding mothers.

SKIN CLARIFYING **MASQUE**

GM060R

2.0 fl. oz. | 59 mL

This age-defying masque lifts away dull layers of skin caused by daily lifestyle and UV exposure. Fortified with a potent blend of phytonutrients, to clear away impurities and detoxify the skin.

RECOMMENDED FOR

All skin types. Great for oily and acne prone skin.

DIRECTIONS

After cleansing, apply to the face, neck and décolleté and leave on for 5-10 minutes. Rinse with water. Can be used 2-3 times a week.

TNGREDTENTS

Aqua (Water), Calendula Officinalis Flower Extract, Cymbopogon Schoenanthus (Lemongrass) Extract, Hordeum Distichon (Barley) Extract, Olea Europaea (Olive) Leaf Extract, Taraxacum Officinale (Dandelion) Root, Lavandula Angustifolia (Lavender) Extract, Rubus Idaeus (Raspberry) Extract, Triticum Vulgare (Wheat) Seed Extract, Aloe Barbadensis (Aloe Vera) Leaf Extract, Bentonite, Glycerin, Macadamia Ternifolia Nut Oil, Borago Officinalis (Borage) Oil, Glyceryl Stearate, Cetearyl Alcohol, Ceteareth-20, Papain, Alpha Lipoic Acid, Hyaluronic Acid, Caprylic/Capric Triglyceride, Ascophyllum Nodosum (Algae) Extract, Bromelain, Tocopheryl Acetate (Vitamin E Acetate), Retinyl Palmitate (Vitamin A Ester), Ascorbyl Palmitate (Vitamin C Ester), Calcium Ascorbate (Vitamin C), Lecithin, Selenium (Goji Berry), Allantoin, Glycine, Squalane, Sea Salts (Dead Sea Salts), Sorbitol, Lavandula Angustifolia (Lavender) Oil, Potassium Sorbate (Vitamin C), Phenoxyethanol, Ethylhexylglycerin

Large Pores

Inflamed

Enzymes

KEY INGREDIENTS

Papain: From the papaya fruit, this enzyme hydrolyzes and digests proteins.

Bromelain: An enzyme in pineapple that promotes protein metabolism, eliminates dead cells, and improves skin texture.

Lemongrass: Cleansing and purifying to the skin. Helps normalize oil production and reduce breakouts.

Bentonite: Oil absorbing.

Lavender: Promotes healing and balance to the skin. It is also an antiseptic, analgesic, and antidepressant.

Calendula: A soothing, anti-inflammatory, and healing ingredient.

Hyaluronic Acid: Increases water content and helps assist against transepidermal water loss. It can hold up to 1000 times its weight in water.

How do I decide between the Skin Clarifying Masque and the Hydrating Masque with Enzymes?

Although either is safe for all skin types, select Skin Clarifying Masque if you have oily prone skin and Hydrating Masque with Enzymes if your skin is on the dry side.

Are enzymes safe to use if I am pregnant?

Yes, enzymes can be used safely throughout the pregnancy, however, skin sensitivities naturally increase during pregnancy so always use your products in conjunction with a daily GlyMed Plus sunscreen.

My skin feels warm and gets red when I use Skin Clarifying Masque. Does this mean I should discontinue?

No, the redness is an indication of the work of the active enzymes contained in this product. Redness alone does not indicate an allergic reaction but usually just an increase in blood flow.

ANTI-AGING EXFOLIANT MASQUE

GM008R

4.0 fl. oz. | 118 mL

Anti-Aging Exfoliant Masque improves skin firmness, tone, and texture with a blend of glycolic, lactic, and salicylic acids and jojoba beads. It rebuilds and recharges worn-out skin instantly with its gentle, yet effective ingredients to restore even the most resistive skin back to a healthy state.

RECOMMENDED FOR

All skin types. Great for dull, pigmented, and environmentally damaged skin.

DIRECTIONS

After cleansing, apply to the face, neck and décolleté and leave on for 5-10 minutes. Rinse with water. Can be used 2-3 times a week.

INGREDIENTS

Aqua (Water), Lavandula Angustifolia (Lavender) Extract, Panax Ginseng Root, Anthemis Nobilis (Chamomile) Flower Extract, Rosmarinus Officinalis (Rosemary) Leaf Extract, Helianthus Annuus (Sunflower) Seed Oil, Cetearyl Glucoside, Glyceryl Stearate, Simmondsia Chinensis (Jojoba) Seed Oil, Glycerin, Vitis Vinifera (Grape) Seed Oil, Glycolic Acid, Fennel Oil, Zinc Oxide, Caprylic Acid, Glycine, Cetearyl Alcohol, Ceteareth-20, Lactic Acid, Allantoin, Xanthan Gum, Salicylic Acid, Papain, Tocopheryl (Vitamin E), Lecithin, Potassium Sorbate (Vitamin C), Phenoxyethanol, Methylisothiazolinone, Imidazolidinyl Urea

glymed+

Dull Skin

KEY INGREDIENTS

Glycolic Acid 7%: It visibly reduces the appearance of pores and wrinkles as it removes surface dryness and breaks up cellular cohesion.

Lactic Acid 7%: Diminishes the cohesion of the surface skin cells.

Salicylic Acid 7%: Softens keratin to help remove upper layer of the skin.

Vitamin E: Powerful antioxidant and soothing agent that protects skin from the effects of pollutants and free radicals.

Ginseng Root: Anti-inflammatory and antioxidant.

Lavender: Promotes healing and balance to the skin. It is also an antiseptic, analgesic, and antidepressant.

Can I use this if I am pregnant or breastfeeding?

Yes, pregnant women may use Anti-Aging Exfoliant Masque safely as an exfoliating cleanse.

How often should I use this product?

Anti-Aging Exfoliant Masque can be used 2-3 times per week.

What are the granules in this product and are they harmful to my skin?

The granules in Anti-Aging Exfoliant Masque are jojoba beads, which provide a very mild and gentle exfoliating action to the skin. We use only environmentally-conscious exfoliators in our products.

CHOCOLATE **MASQUE**

glymed+

with Enzymes

GM089R

2.0 fl. oz. | 59 mL

This chocolate masque is as good as it sounds! Rich in antioxidants like cocoa extract, this masque delivers superior anti-aging and restorative benefits to boost circulation, improve elasticity and brighten the skin's complexion.

RECOMMENDED FOR

skin. This masque can be stimulating.

All skin types. Be cautious with sensitive

glymed+ 02 testes

Enzymes

DIRECTIONS

After cleansing, apply to the face, neck and décolleté and leave on for 5-10 minutes. Rinse with water. Can be used 2-3 times a week.

INGREDIENTS

Aqua (Water), Stearic Acid, Glyceryl Stearate, Papain, Euterpe Oleracea (Acai) Extract, Pichia/Resveratrol Ferment Extract, Lactobacillus/Wasabia (Wasabi) Japonica Root Ferment Extract, Theobroma Cacao (Cocoa) Seed Powder, Lactobacillus/Milk Solids/Soybean Oil Ferment, Theobroma Cacao (Cocoa) Seed Butter, Prunus Amygdalus Dulcis (Sweet Almond) Oil, PEG-40 Hydrogenated Castor Oil, Cyclodextrin, Jojoba Esters, Glycerin, Propylene Glycol, Cyclomethicone, Trideceth-9, Polysorbate 20, Butylene Glycol, Dimethicone, Acrylates/C10-30 Alkyl Acrylate Crosspolymer, Disodium EDTA, Phenoxyethanol, Ethylhexylglycerin, Sodium Hydroxide, Fragrance, Caramel, Yellow 5, Yellow 6

KEY INGREDIENTS

Cocoa: Abundant in Vitamins E and B. It contains glycerides that deliver moisturizing lipids and fats which plump and firm, help sooth sensitivities, and protect skin from environmental damage.

Acai: Detoxifies, improves cellular regeneration and immnity, balances healthy lipids, and contains more than ten times the free radical fighting antioxidants found in red grapes or green tea.

Resveratrol: An anti-inflammatory ingredient. It also promotes the synthesis of collagen and strengthens the dermal-epidermal junction.

Jojoba: A moisturizer and emollient that helps to heal the skin. It reduces TEWL without completely blocking the transportation of water vapor and gases, providing the skin with the intercellular lipids to further reduce water loss.

Papain: This enzyme hydrolyzes and digests proteins.

I noticed my skin getting warm when I use this masque. Could I be too sensitive?

No, Chocolate Masque with Enzymes has thermal benefits that initially increase vascular response and then quickly cools down. Vascular response is increased blood flow that is indicated as red on the skin. This should not be mistaken as an allergic reaction.

Why is it recommended that I only use this masque three times a week?

Chocolate Masque with Enzymes contains active enzymes that gently digest the cells on the skin surface that are becoming detached. This process is not required on a daily basis.

Is there a time of day that is best for using this masque?

The masque can be used at night after cleansing and prior to applying your evening products. Remember, if using in the morning, due to the cell removal there may be increased sun sensitivities so, as always, remember to use your favorite GlyMed Plus sunscreen. Chocolate Masque with Enzymes will give your tired skin a quick "kick start" and new vitality if you are going out for the evening.

Is this product safe for pregnant or breastfeeding moms?

Yes, this product is safe to use during pregnancy/nursing

SERIOUS ACTION MASQUE

$glymed^*+$

GM45AR

4.0 fl. oz. I 118 mL

For acne prone and oily skin. This masque combines the proven benefits of salicylic acid with two alpha hydroxy acids and healing tea tree oil to fight acne deep inside the pores. Along with healing clay, this masque purges impurities from the skin and dramatically reduces oil and blemishes.

RECOMMENDED FOR

All skin types. Great for acne prone skin.

DIRECTIONS

After cleansing, apply to the face, neck and décolleté and leave on for 5–10 minutes. Rinse with water. Can be used 2–3 times a week.

INGREDIENTS

Agua (Water), Kaolin, SD Alcohol 40-B, Glycine Soja (Soybean) Oil, Zea Mays (Corn) Starch, Glyceryl Stearate, Glycol Stearate, PEG-100 Stearate, Polyethylene (Granules), Squalane, Cetyl Alcohol, Glycerin, Bentonite, Glycolic Ac- id, Lactic Acid, Sorbic Acid, Camphor, Eucalyptus Globulus Leaf Oil, Melaleuca Alternifolia (Tea Tree) Leaf Oil, Cyanocobalamin, Benzalkonium Chloride, Arnica Montana Flower Extract, Carica Papaya Fruit Extract, Salicylic Acid, Anthemis Nobilis (Chamomile) Flower Extract, Aloe Barbadensis (Aloe Vera) Leaf Juice, Sodium Hyaluronate, Yeast Extract, Titanium Dioxide, Dimethicone, Allantoin, Ammonium Lauryl Sul-fate, Juglans Regia (Walnut) Shell Powder, Annatto, Potassium Sorbate (Vitamin C), Phenoxyethanol, Caprylyl Glycol, Disodium EDTA, Ethylhexylglycerin, Sodium Hydroxide

All

KEY INGREDIENTS

Salicylic Acid: Softens keratin to help remove upper layer of the skin.

Tea Tree: Known for its antiseptic and healing properties.

Lactic Acid: Diminishes the cohesion of surface skin cells.

Glycolic Acid: It visibly reduces the appearance of pores and wrinkles as it removes surface dryness and breaks up cellular cohesion.

Granules: Exfoliates to remove dead skin cells.

Kaolin and Bentonite Clay: Purges impurities from the skin and reduces oil and blemishes.

Arnica Montana: Antiseptic, astringent, antimicrobial, anti-inflammatory, anticoagulant, and it stimulates circulation and promotes healing.

Chamomile: Anti-inflammatory and antibacterial.

How often can I safely exfoliate my skin?

GlyMed Plus recommends that you use Serious Action Masque two to three times per week. Over exfoliation can compromise the protective layer of the skin creating dehydration and leaving it vulnerable to bacteria.

At what age is it safe to use this product?

Treatment of acne should begin as soon as it becomes visible. Waiting only gives it the fuel necessary to worsen.

Is this product safe for pregnant or breastfeeding moms?

No, we do not recommend salicylic acid to be used during pregnancy.

AGE DEFYING MASQUE

$glymed^*+$

GM12ER

1.0 fl. oz. | 30 mL

A gentle yet effective exfoliating masque that harnesses an exclusive enzyme designed to mimic the skin's own naturally exfoliating process. Age Defying Masque delivers remarkable facial rejuvenation by reducing dark spots, fine lines and wrinkles for a more youthful looking skin.

RECOMMENDED FOR

All skin types. Great for a first-time peel, summertime peel, red-carpet events, and sensitive skin.

DIRECTIONS

After cleansing, apply to the face, neck and décolleté and leave on for 5–10 minutes. Rinse with water. Can be used 2–3 times a month.

Enzymes

Anti Aging

Skin Tone

INGREDIENTS

Aqua (Water), Mucor Miehei (Mushroom) Extract (Protease Enzyme), Glycerin, Hy- droxyethyl Acrylate/Sodium Acryloyldimethyl Taurate Copolymer, Citric Acid, Hy- aluronic Acid, Olea Europaea (Olive) Leaf Extract, Ascorbyl Glucoside, Zinc PCA, Xanthan Gum, Methyl Gluceth-20, Butylene Glycol, Sodium Benzoate, Potassium Sorbate (Vitamin C), Dimethicone Copolyol Eicosanoate, Phenoxyethanol, Ethylhexylglycerin, Fragrance

KEY INGREDIENTS

Protease Enzyme: This is a proprietary ingredient exclusive to GlyMed Plus. Derived from mushroom, it mimics the Cathepsin-D Enzyme found naturally in our skin, which assists in normal shedding of dead skin cells. It will detach desmosomes one at a time to increase exfoliation.

Citric Acid: Acts like an antioxidant and assists in regeneration of skin tissue, as well as slowing down the aging process.

Hyaluronic Acid: Increases water content and helps assist against transepidermal water loss. It can hold up to 1000 times its weight in water.

Ascorbyl Glucoside: Acts as a co-enzyme for enzymes involved in collagen synthesis and inhibiting the synthesis of melanin. Contains high antioxidant activity.

Why is this called a peel?

Although you will not see a visible flaking or peeling from this superior enzyme, you will benefit from the amazing results. It possesses the mechanical action of a peel without the wounding action of an AHA. It penetrates the stratum spinosum releasing the desmosomes one at a time allowing for greater desquamation without the injury.

Is this peel safe during the summer?

This is a perfect summertime peel. It is safe and effective with no downtime or preparation required. In clinical studies it has proven to cause less than 5% photosensitivity. This makes it a perfect peel for the summer to maintain the skin until fall/winter when you can perform traditional peels. In addition, it can be used during wintertime to maintain the integrity of clinical treatments.

Why is Glycolic Facial Cleanser with 10% Glycolic Acid recommended as the first cleanse?

The Protease enzyme works best in an acidic environment. By first utilizing AHA cleansers it lowers the pH of the skin, thus creating greater efficacy.

Is this product safe for pregnant or breastfeeding moms?

Yes, this product is safe for pregnant or breastfeeding moms.

OXYGEN DEEP PORE MASQUE

glymed+

GM016R

1.69 fl. oz. | 50 mL

Breathe life back into dull tired cells with this deep oxygenating masque. This product works like a deep cleansing masque to thoroughly cleanse and purify congested pores, stimulate healthy cell turnover, and reveal smoother, more radiant skin.

RECOMMENDED FOR

All skin types. Great for oily skin, acne, blackheads, and large pores.

DTRECTTONS

After cleansing, apply to the face, neck and décolleté and leave on for 5-10 minutes. Rinse with water. Can be used 2-3 times a week.

INGREDIENTS

Aqua (Water), Sodium Lauroyl Methyl Isethionate, Cocamidopropyl Betaine, Glycerin, Acrylates/Palmeth-25 Acrylate Copolymer, Sodium Cocoyl Isethionate, Polyhydroxystearic Acid, Perfluoroisohexane, Sodium Lactate, Ganoderma Lu-cidum (Mushroom) Extract, Mucor Miehei (Mushroom) Extract (Protease Enzyme), Lactobacillus/Wasabia Japonica Root Fer- ment Extract, Sake Extract, Citrullus Lanatus (Watermelon) Fruit Extract, Lens Esculenta (Lentil) Fruit Extract, Pyrus Malus (Ap-ple) Fruit Extract, Chondrus Crispus (Carrageenan), Citrus Grandis (Grapefruit) Peel Oil, Sodium PCA, Panthenol (Vitamin B), Isono- nyl Isononanoate, Ethylhexyl Isononanoate, Mica, Titanium Dioxide, Butylene Glycol, Sorbitol, Potassium Sorbate (Vitamin C), So-dium Cocamidopropy PG-Dimonium Chloride Phosphate, Phenoxyethanol, Ethylhexylglycerin

KEY INGREDIENTS

Sodium Lactate: It is a component of the stratum corneum's moisturizing factor. This is necessary for maintenance of natural hydration.

Mushroom: Excellent hydrating agent provides a protective skin barrier.

Grapefruit Peel: Skin conditioning agent that reduces existing comedones and prevents new ones from occurring.

Apple: Natural AHA offering soothing and antiinflammatory properties while also gently exfoliating.

Can I use steam with this product?

This product does not require steam. The active oxygen within this product will desincrust and purge the pores without the addition of steam. If you choose to incorporate steam wait till the last 1–2 minutes of the treatment.

Can I do extractions after?

Yes, in fact this product allows for much easier and painless extractions to be performed.

Can I use this product on my teenager or anyone with oily, congested skin?

Absolutely! This is a great masque to reduce the appearance of blackheads and prevent future breakouts.

Is this product safe for pregnant or nursing moms?

Yes, but use with caution as skin is typically sensitive during this time.

PEPTIDE MICRO SCRUB

$glymed^*+$

GM28ER

2.0 fl. oz. I 59 mL

Peptide Micro Scrub is the perfect alternative to microdermabrasion and is safer for the skin too. This phenomenal scrub contains exfoliating action of corundum crystals that break away dead skin buildup leaving the skin incredibly smooth and polished.

RECOMMENDED FOR

All skin types. Do not use on open wounds or grades 3 and 4 acne.

DIRECTIONS

After cleansing, apply to the face, neck and décolleté and massage onto skin to evenly exfoliate. Rinse with water. Can be used 1–2 times a week.

INGREDIENTS

Aqua (Water), Chamomilla Recutita (Chamomile), Cymbopogon Citratus (Lemongrass), Rubus Idaeus (Raspberry), Olea Europaea (Olive) Leaf, Corundum Crystals, PC10 Complex, Boswellia Serrata (Boswellin) Extract, Helianthus Annuus (Sunflower) Oil, Cetearyl Glucoside, Glyceryl Stearate, Glycerin, Vitis Vinifera (Grape) Seed Oil, Caprylic Acid, Glycine, Tocopherol Acetate (Vitamin E Acetate), Xanthan Gum, Potassium Sorbate (Vitamin C), Tetrahexyldecyl Ascorbate (Vitamin C), HG5 Complex, Sodium Hyaluronate, Copper Gluconate, Zinc Gluconate, Magnesium Aspartate, Magnesium Ascorbyl Phosphate (Vitamin C), Simmondsia Chinensis (Jojoba) Oil, Lecithin, Red Wine Polyphenols, Lavandula Angustofolia (Lavender) Oil, Lavandula Hybrida (Lavandin) Oil, Rosmarinus Officinalis (Rosemary) Oil, Salvia Sclarea (Clary Sage) Oil, Iodopropynyl Butylcarbamate

Peptides

KEY INGREDIENTS

Corundum Crystals: Same crystals used in microdermabrasion without the irritation to give an even, mechanical exfoliantion to the skin.

Vitamin E: Powerful antioxidant and soothing agent that protects skin from the effects of pollutants and free radicals.

PC10 Complex: GlyMed Plus' own PC10 Amino Acid Complex contains powerful amino acid complexes, natural antioxidants, and pharmaceutical grade botanicals to help correct the damage from free radical injury in addition to combating inflammation which is one of the major causes of skin aging.

Grape Seed: A natural plant oil that cools, invigorates, and stimulates the skin.

Sunflower: Softens the skin and helps retain moisture; it is one of the least comedogenic oils.

My aesthetician said this is safer than microdermabrasion, but it uses the same crystals. What makes it safer?

Your Aesthetician is correct. Microdermabrasion uses powerful suction to spin the crystals across the skin and suck the dead skin debris up. It is the suction that can be traumatizing to the skin and can damage delicate capillaries.

I like to exfoliate, however, sometimes I am pressed for time and wish there was a way to consolidate the steps and still get the same great results.

Peptide Micro Scrub can be mixed with any of the GlyMed Plus cleansers or masques to combine and save time.

Is this product safe for pregnant or breastfeeding moms?

Yes, this product is safe to use during pregnancy. However, skin is sensitive during this time so use with caution. Too much exfoliation can leave skin feeling sensitive.

ESSENTIAL SHAVE CREAM

GM118R

4.0 fl. oz. | 118 mL

Essential Shave Cream lifts and softens hair for a closer shave without razor irritation. Its rich and creamy formula contains ingredients that moisturize, nourish, and hydrate the skin, preventing dead skin buildup that can lead to painful and unsightly ingrown hairs. Not just for men, women love this product too!

RECOMMENDED FOR

All skin types.

DIRECTIONS

After cleansing, apply a nickel sized amount to the area to be shaved. Rinse and follow with your GlyMed Plus moisturizer and SPF.

TNGREDTENTS

Aqua (Water), Potassium Myristate, Sodium Myristate, Propylene Glycol, Tea Stearate, Cocos Nucifera (Coconut) Oil, Helianthus Annuus (Sunflower) Seed Oil, Aloe Barbadensis (Aloe Vera), Retinyl Palmitate (Vitamin A Ester), Tocopherol (Vitamin E), Al-Iontoin, Lecithin, Hydroxyethylcellulose, lodopropynyl Butylcarbamate

KFY TNGRFDTFNTS

Aloe Vera: A potent healer. Provides a protective layer that inhibits infection and soothes the skin. It is both hydrating and gentle. Suitable for all skin types.

Coconuts: Coconut oil is an excellent skin moisturizer. It nourishes and protects the skin's barrier function, providing healthier skin.

Sunflower: Softens the skin and helps retain moisture. Easily penetrates the skin without leaving an oily film. Forms a natural barrier over skin, protecting it from bacteria. Very hydrating and one of the least comedogenic oils.

Vitamin A: Free radical scavenger. Increases epidermal thickness.

Vitamin E: Powerful antioxidant and soothing agent that protects skin from the effects of pollutants and free radicals.

I notice this product contains Sunflower Oil; will it make me breakout?

No. Sunflower Oil is one of the least comedogenic vegetable oils and it is non sensitizing. The natural fatty acids will nourish and regenerate dry, acne damaged and sensitive skin.

I love the way my husband's face feels after using the Shave Cream. Can I use it on my legs too?

Yes. In fact, this is a number one seller for women as well as men. It creates a closer shave, and the nourishing botanicals infuse the skin with hydration and softens dry, rough skin for a superior shaving experience for both men and women alike.

Is this product safe for pregnant or breastfeeding moms?

Yes! This product isn't just for men, woman love this creamy shave lotion. This product is safe to use while pregnant/breastfeeding.

CBD SKIN MIST

glymed+

GM403R

4.0 fl. oz. | 118 mL

Infused with CBD and Vitamin B3, this mist is used to assist in balancing freshly cleansed skin for a radiant complexion. Vitamin B3 has been known to soothe irritation, reduce the appearance of redness, and improve overall skin tone. It is ideal for setting makeup or as a quick refresher throughout the day.

RECOMMENDED FOR

All skin types. Great for photo-damage, fine lines and wrinkles, and acne.

DIRECTIONS

After cleansing, mist onto face followed by additional serums and moisturizers. Can be used throughout the day.

INGREDIENTS

Organic Aloe Barbadensis Leaf Juice, Glycerin, PPG-26-Buteth-26, PEG-40 Hydrogenated Castor Oil, Pentylene Glycol, Sodium Hyaluronate, Panthenol, Glycosaminoglycans, Niacinamide, Propanediol, Symphytum Officinale (Comfrey) RhizomeRoot Extract, Cucumis Sativus (Cucumber) Fruit Extract, Epilobium Angustifolium Flower/Leaf/Stem Extract, Saccharum Officinarum (Sugarcane) Extract, Citrus Aurantium Dulcis (Orange) Fruit Extract, Citrus Limon (Lemon) Fruit Extract, Pyrus Malus (Apple) Fruit Extract, Camellia Sinensis (Green Tea) Leaf Extract, Lycium Barbarum Fruit Extract, Coffea Arabica (Coffee) Seed Extract, Euterpe Oleracea Fruit Extract, Morinda Citrifolia Extract, Punica Granatum Fruit Extract, Garcinia Mangostana Fruit Extract, Cannabis Sativa Stem (CBD) Oil, Citrus Aurantium Dulcis (Orange) Peel Oil, Citrus Tangerina (Tangerine) Peel Oil, Citrus Grandis (Grapefruit) Peel Oil, Caprylyl Glycol, Hexylene Glycol, Phenoxyethanol, Ethylhexylglycerin

KEY INGREDIENTS

CBD (Hemp): Grown in the USA, derived from HEMP and is considered one of the strongest antioxidants, even stronger than Vitamin C & E, and recognized for its incredible antiaging effects in the skin.

Niacinamide: A form of Vitamin B3, stimulates microcirculation, encourages cellular functions, stimulates collagen synthesis, increases the production of ceramides, lipids and supports the integrity of the skin's barrier.

Hyaluronic Acid: Superb at retaining water, capable of holding 1,000x its weight in water. Helps to plump the skin and reduce Trans Epidermal Water Loss (TEWL).

How is this mist different from the Skin Recovery Mist?

CBD Skin Mist is an anti-aging treatment in the form of a mist, where Skin Recovery Mist is more of a traditional mist, great for refreshing the skin. CBD Skin Mist does contain Niacinamide and Coffee extract, both are very beneficial for increasing circulation to bring oxygen and nutrients to cells. Because it can be more stimulating, we don't recommend anyone with rosacea or sensitivities to Niacinamide or Coffee use this product. Instead, Skin Recovery Mist would be a better option for sensitive skin.

Will CBD get you high?

No, CBD is a hemp-based ingredient that differs from strains of marijuana cultivated for their psychoactive drug use. Our CBD is derived from non-drug strains of cannabis and has NO psychoactive compounds. THC is the chemical compound that is responsible for psychoactive effects. Our CBD products are lab-certified to have less than 0.3% THC and in fact our products have been tested and have zero THC.

What is the difference between HEMP and Marijuana products?

In December of 2018, the Farm Act of 2018 was signed into law and this law included a revised definition of "marijuana products." Under the revised definition, products with low to no THC content (less than 0.3%) were excluded from the definition of marijuana products. There have been many studies and there are many more studies underway that are measuring the benefits of CBD and other hemp-related ingredients. Our CBD products have all been independently certified to be hemp-based products and NOT marijuana products.

Is this safe for pregnant and breastfeeding mothers?

Please consult with your physician regarding using CBD for expecting or breastfeeding mothers.

SKIN RECOVERY MIST

GM121R

4.0 fl. oz. | 118 mL

Skin Recovery Mist forces life back into dehydrated, irritated, and lackluster skin with a dose of hydrating and healing algae, hyaluronic acid, and vitamin B. This lightweight mist leaves skin refreshed, revitalized, and luminous! A must have for anyone who travels or for outdoor enthusiasts.

RECOMMENDED FOR

All skin types. Great for post-procedure or an extra hydration boos throughout the day.

DIRECTIONS

After Cleansing. Mist onto face followed by serums and moisturizer. Use throughout the day to boost the skin's moisture level without disturbing makeup.

Dehydrated

INGREDIENTS

Aqua (Water), Algae Extract, Aloe Barbadensis (Aloe Vera), Glycerin, Hyaluronic Acid, Panthenol (Vitamin B), Potassium Sorbate (Vitamin C), Allantoin, Diazolidinyl Urea, Iodopropynyl Butylcarbamate

KEY INGREDIENTS

Aloe Vera: A potent healer. Provides a protective layer that inhibits infection and soothes the skin. It is both hydrating and gentle. Suitable for all skin types.

Algae: An emollient that restores moisture content and contains antioxidant properties.

Hyaluronic Acid: Retains water in the skin and it is able to maintain moisture levels throughout the day.

Vitamin B: This anti-inflammatory promotes wound healing and is a skin moisturizer.

I have noticed many spray products on the market to use over powder foundations. Will this product do the same?

Yes, Skin Recovery Mist is an excellent spray for setting powder foundations. In addition, it will provide extra hydration to the skin.

I noticed that GlyMed Plus does not have an official "toner" in the line. What can someone who is accustomed to using one do instead?

In the past, toners were recommended for a variety of reasons, most of which do not hold true in today's result driven products. However, for those who are looking for a toner to add to their daily skin care regimen, the Skin Recovery Mist is a great choice.

Is this product safe for pregnant or breastfeeding moms?

Yes this product is wonderful during pregnancy or any other hormonal changes such as menopause.

ASTRINGENT NO. 2

glymed+

with Salicylic Acid

GM78AR

8.0 fl. oz. | 236 mL

Astringent No. 2 contains salicylic acid, essential oils, and healing extracts to fight oily acne prone skin. Feel refreshed while drying up acne, killing bacteria, reducing redness, and controlling excess oil production on the skin.

RECOMMENDED FOR

Oily, Acne Prone Skin, All Skin Types. Great for use after extractions and mild acne.

DIRECTIONS

After cleansing, apply to area to be treated followed by additional serums and moisturizers. Can be used as needed.

itzpatricks

INGREDIENTS

Active Ingredients: Salicylic Acid 2.0%

Inactive Ingredients: Aesculus Hippocastanum (Horse Chestnut) Seed Extract, Aloe Barbadensis (Aloe Vera) Leaf Juice, Aqua (Water), Arnica Montana Flower Extract, Glycerin, Hamamelis Virginiana (Witch Hazel) Extract, Hedera Helix (Ivy) Leaf/ Stem Extract, Hypericum Perfor-

Leaf/Stem Extract, Isopropyl Alcohol, Melaleuca Alternifolia (Tea Tree) Leaf Oil, Menthol, Polysorbate 80, Propylene Glycol, Vitis Vinifera (Grape) Fruit Extract

atum (St. John's Wort)Flower/-

KEY INGREDIENTS

Salicylic Acid: Dissolves oil by softening keratin. Slows down shedding of the cells inside the follicles to prevent clogging.

Tea Tree: Known for its antiseptic and skin healing properties. It promotes strong healing for the relief of symptoms such as acne and other skin infections. The oil is a powerful germicide, fungicide, and antiseptic.

Witch Hazel: Removes excess surface skin oils.

Menthol: A natural cooling agent, anti-inflammatory and antiitching to the skin.

Arnica Montana: It is antiseptic, astringent, antimicrobial, antiinflammatory, anticoagulant, and it stimulates circulation and promotes healing.

Aloe Vera: Natural astringent, aids in healing and is very soothing and protective to the skin.

I noticed that GlyMed Plus Astringent is available in three strengths, how do I decide which is best for me?

GlyMed Plus Acne line is a very effective line for treating acne. Therefore, even the 2% can be very strong for some individuals. We recommend you start with 2% and if necessary, progress to 5%. The 10% can be used on areas with thicker skin like the back.

Is it always necessary to use an astringent daily?

The Acne Astringents are incorporated in a daily regimen for oily and acneic skin. Salicylic acid is an effective ingredient in controlling oil. Since it is the oil that feeds the bacteria present in acne, controlling oil will have an effect on controlling acne.

I love using Astringent No. 2 on my skin as it controls the oil. However, my skin gets very red afterwards. What can I do?

Follow the application of an Astringent with Daily Skin Clarifier to reduce redness and calm irritation. Because of the anti-inflammatory benefits of Bearberry Extract, Mulberry Extract and Licorice Extract, Daily Skin Clarifier is the fastest way to calm the skin after any active product.

Is this product safe for pregnant or breastfeeding moms?

No, salicylic acid is not recommended for pregnant or breastfeeding mothers unless prescribed by a physician.

ASTRINGENT NO. 5

glymed+

with Salicylic Acid

GM20AR

8.0 fl. oz. | 236 mL

Astringent No. 5 contains salicylic acid, essential oils, and healing botanicals for advanced acne. Help to clear up acne, kill bacteria, reduce redness, and control excess oil production on the skin.

RECOMMENDED FOR

All skin types. Great for mild to moderate acne.

DIRECTIONS

After cleansing, apply to area to be treated followed by additional serums and moisturizers. Can be used as needed.

Oily

BHAs

INGREDIENTS

Active Ingredients: Salicylic Acid 5.0%

Ingredients: Aqua (Water), Iso-propyl Alcohol, Salicylic Acid, Glycerin, Aloe Barbadensis (Aloe Vera) Leaf Juice, Hamamelis Virginiana (Witch Hazel) Extract, Polysorbate 80, Melaleuca Alternifolia (Tea Tree) Leaf Oil, Propylene Glycol, Vitis Vinifera (Grape) Fruit Extract, Hypericum Perforatum (St. John's Wort) Extract, Arnica Montana Flower Extract, Aesculus Hippocastanum (Horse Chestnut) Seed Extract, Hedera Helix (Ivy) Leaf/Stem Extract, Menthol

KEY INGREDIENTS

Salicylic Acid: Used as an exfoliant. Reduces oiliness, acne, and photoaging. Helps slow down the shedding of the cells inside the follicles to prevent clogging. Also helps break down blackheads and whiteheads.

Aloe Vera: A potent healer. Provides a protective layer that inhibits infection and soothes the skin. It is both hydrating and gentle. Suitable for all skin types.

Arnica Montana: It is antiseptic, astringent, antimicrobial, antiinflammatory, anticoagulant, and it stimulates circulation and promotes healing.

Tea Tree: Known for its antiseptic and skin healing properties. It promotes strong healing for the relief of symptoms such as acne and other skin infections. The oil is a powerful germicide, fungicide, and antiseptic.

Horse Chestnut: Promotes blood circulation by strengthening the capillary walls. Also has anti-inflammatory effects helpful in treating edema caused by excess fluid.

I noticed that GlyMed Plus Astringent is available in three strengths, how do I decide which is best for me?

GlyMed Plus Acne line is a very effective line for treating acne. Therefore, even the 2% can be very strong for some individuals. We recommend you start with 2% and if necessary, progress to 5%. The 10% can be used on areas with thicker skin like the back.

Is it always necessary to use an astringent daily?

The Acne Astringents are incorporated in a daily regimen for oily and acneic skin. Salicylic acid is an effective ingredient in controlling oil. Since it is the oil that feeds the bacteria present in acne, controlling oil will have an effect on controlling acne.

Is this product safe for pregnant or breastfeeding moms?

No, salicylic acid is not recommended for pregnant or breastfeeding mothers unless prescribed by a physician.

ASTRINGENT NO. 10

with Salicylic Acid

GM21AR

8.0 fl. oz. I 236 mL

Astringent No. 10 contains salicylic acid, essential oils and healing botanicals for moderate acne. Help to clear up acne, kill bacteria, reducing redness, and controlling excess oil production on the skin.

RECOMMENDED FOR

All skin types. Great for moderate to severe acne.

DIRECTIONS

After cleansing, apply to area to be treated followed by additional serums and moisturizers. Can be used as needed.

Is it always necessary to use an astringent daily?

Astringents are incorporated in a daily regimen for oily skin. Salicylic acid is an effective ingredient in controlling oil. Since it is the oil that feeds the bacteria present in acne, controlling oil will have an effect on controlling acne.

Is this product safe for pregnant or breastfeeding moms?

No, salicylic acid is not recommended for pregnant or breastfeeding mothers unless prescribed by a Physician.

BLEMISH CONTROL NO. 5

glymed+

with Benzoyl Peroxide

GM22AR

4.0 fl. oz. | 118 mL

Blemish Control No. 5 is one of the most effective topical treatments for inflamed and non-inflamed acne. Once on the skin, benzoyl peroxide reduces bacteria by oxygenating pores, causing peeling, and loosening of impactions to clear and prevent acne breakouts.

RECOMMENDED FOR

All skin types. Great for mild to moderate acne.

DIRECTIONS

After cleansing, apply to area to be treated followed by additional serums and moisturizers. Can be used as needed.

INGREDIENTS

Active Ingredients:

Benzoyl Peroxide 5.0%

Inactive Ingredients: Aloe Barbadensis (Aloe Vera) Leaf Juice, Aqua (Water), Caprylyl Glycol, Carbomer, Chlorphenesin, Disodium EDTA, Glycerin, Lavandula Angustifolia (Lavender) Oil, Mealeuca Alternifolia (Tea Tree) Leaf Oil, Phenoxyethanol, Polysorbate 20, Propylene Glycol, Sorbitol, Triethanolamine

Benzoyl

Evening

KEY INGREDIENTS

Benzoyl Peroxide: An antibacterial agent and oxygen releasing chemical that kills the bacteria responsible for acne breakouts.

Tea Tree: Antiseptic and healing to the skin.

Aloe Vera: A potent healer. Provides a protective laver that inhibits infection and soothes the skin. It is both hydrating and gentle. Suitable for all skin types.

Lavender: Promotes healing and balance to the skin. It is also an antiseptic, analgesic, and antidepressant.

How do I determine which blemish control is best for my skin?

We recommend that you begin with the blemish control 5%, only progressing to the 10% if necessary. It is not recommended to exceed 5% for skin of color.

I was told not to use Blemish Control during my pregnancy. Is there an alternative product that I can use to control my breakouts?

Try incorporating the Mattifying Sulfur Masque 2 to 3 times weekly. This will help to breakup lesions and reduce inflammation.

Benzoyl peroxide creates oxygen in the skin but is it possible to have too much oxygen in the skin. Am I creating future skin problems by using benzoyl peroxide?

You are correct in the fact that benzoyl peroxide creates oxygen in the skin. It is the oxygen that controls the bacteria. GlyMed Plus Skin Blemish Control also includes many antioxidants to help combat damage created by free radicals to help heal and soothe the skin for a complete balance.

Is this product safe for pregnant or breastfeeding moms?

While Benzoyl Peroxide can be used while pregnant, we always recommend consulting with your physician regarding recommendations.

BLEMISH CONTROL NO. 10

with Benzoyl Peroxide

GM23AR

8.0 fl. oz. | 236 mL

Blemish Control No. 10 spot treatment is one of the most effective topical treatments for inflamed and non-inflamed acne. Once on the skin, benzoyl peroxide reduces bacteria by oxygenating pores, causing peeling, and loosening of impactions to clear and prevent acne breakouts.

RECOMMENDED FOR

All skin types. Great for moderate to severe acne.

DIRECTIONS

After cleansing, apply to area to be treated followed by additional serums and moisturizers. Can be used as needed.

Benzoyl Peroxide

INGREDIENTS

Active Ingredients:

Benzoyl Peroxide 10.0%

Inactive Ingredients: Aloe Barbadensis (Aloe Vera) Leaf Juice, Aqua (Water), Caprylyl Glycol, Carbomer, Chlorphenesin, Disodium EDTA, Glycerin, Lavandula Angustifolia (Lavender) Oil, Melaleuca Alternifolia (Tea Tree) Leaf Oil, Phenoxyethanol, Polysorbate 20, Propylene Glycol, Sorbitol, Triethanolamine

KEY INGREDIENTS

Benzoyl Peroxide: An antibacterial agent and oxygen releasing chemical that kills the bacteria responsible for acne breakouts.

Tea Tree: Antiseptic and healing to the skin.

Aloe Vera: A potent healer. Provides a protective layer that inhibits infection and soothes the skin. It is both hydrating and gentle. Suitable for all skin types.

Lavender: Promotes healing and balance to the skin. It is also an antiseptic, analgesic, and antidepressant.

How do I determine which medication is best for my skin?

We recommend that you begin with the Blemish Control No. 5, only progressing to the 10% if necessary. It is not recommended to exceed 5 for skin of color.

I was told not to use Blemish Control during my pregnancy. Is there an alternative product that I can use to control my breakouts?

SKIN RESURFACING LOTION

with Resorcinol

GM24AR

4.0 fl. oz. | 118 mL

For the more resistive and severe acne skin types. Skin Resurfacing Lotion stimulates healing and acts as a mild antiseptic to reduce oil production, kill acne causing bacteria, and to promote a mild peeling to help prevent dead skin buildup.

RECOMMENDED FOR

All skin types. Great for acne grades 3, 4 and cystic acne.

DIRECTIONS

After cleansing, apply to area to be treated followed by additional serums and moisturizers. Use only for 1-3 days in a row.

Evenina

INGREDIENTS

Active Ingredients:

Sulfur 4.0% Resorcinol 2.0%

Inactive Ingredients: Aqua (Water), Behentrimonium Methosulfate, BHT, C13-14 Isoparaffin, Ceteareth-20, Cetearyl Alcohol, Cetyl Alcohol, Cyclopentasiloxane, Dimethicone, DisodiumED-TA, Glycerin, Hydroxyethylcellulose, Imidazolidinyl Urea, Lactic Acid, Laureth-7, LavandulaAngustifolia (Lavender) Oil, Polyacrylamide, Salicylic Acid, SD Alcohol 40-B. Sorbitan Laurate

KEY INGREDIENTS

Sulfur: Reduces inflammation, kills bacteria, reduces dead skin build up, and reduces excess oil.

Resorcinol: Antiseptic, astringent, and anti-bacterial components. Potentiates desquamation to promote faster healing of acne skin. Inhibits oil production.

Lactic Acid: Diminishes intercellular cement to detach dead skin cells and exfoliate the skin.

Salicylic Acid: Softens keratin to help remove upper layer of the skin.

Lavender: Promotes healing and balance to the skin. It is also an antiseptic, analgesic, and antidepressant.

I always have trouble using benzoyl peroxide. Is there another product in the GlyMed Plus Acne line that I can use for my breakouts?

Skin Resurfacing Lotion with Resorcinol contains three powerful acne fighting ingredients: salicylic acid, lactic acid, and Resorcinol. This can be used as an alternative to benzoyl peroxide.

My Aesthetician prescribed Skin Resurfacing Lotion with Resorcinol for my severe acne. It is making a difference, but my skin is always red. Is there anything I can do?

The most effective recommendation would be to add Ultra Hydro Gel to your home care. Ultra Hydro Gel attracts water into the skin which is important for individuals using acne ingredients. Acne is a disease of the skin and requires water to heal. Ultra Hydro Gel is a choice for acne sufferers as it is a light, fast penetrating product that leaves no residue.

Is there a time of day that is better to use Skin Resurfacing Lotion with Resorcinol?

Skin Resurfacing Lotion with Resorcinol contains ingredients that can be photo sensitizers. Therefore, it should be used at night. Always incorporate Hydrating Protection Gel with SPF 15 into your daily skin care to protect against the damaging UV rays.

Is this product safe for pregnant or breastfeeding moms?

We do not recommend this product for women who are pregnant or breastfeeding.

RADIANT SERUM

glymed+

with 1% Mandelic Acid

GM73ER

1.69 fl. oz. | 50 mL

Lightweight, hydrating, and anti-aging, Radiant Serum exfoliates the skin gently and brightens the overall tone of your skin. Radiant Serum leaves the skin silky smooth, while it reduces the appearance of fine lines, protects against free radical damage, and prevents acne by decreasing dead skin buildup.

RECOMMENDED FOR

All skin types. Great for mild to moderate acne.

DIRECTIONS

After cleansing, apply to face, neck, and décolleté, followed by additional serums and moisturizers. Can be used once a day preferably at night. Start using 2–3 times a week, slowly increasing until it is part of your daily regimen.

RADIANT SERUM with 14 Mandelia A Dig or 74 Acids Mandelia A Dig of 74 Acids Mandelia A Dig of 74 Acids Mandelia A Dig of 74 Acids Mandelia A Color Mandelia A C

INGREDIENTS

Aqua (Water), Glycerin, Polysorbate 20, Pentylene Glycol Propanediol Sodium Hyaluronate, Palmitoyl Tripeptide-38, Palmitoyl Tripeptide-5, Palmitoyl Dipeptide-5 Diaminobutyroyl Hydroxythreonine, Panthenol, Hydroxypropyl Cyclodextrin, Tetradecyl Aminobutyroylvalylaminobutyric Urea, Trifluoro- acetate, Mandelic Acid, Camellia Sinensis (Green Tea) Leaf Extract, Symphytum Officinale (Comfrey) Rhizome/root Extract, Anthemis Nobilis (Chamomile) Flower Extract, Citrus Aurantium Dulcis (Orange) Peel Oil, Citrus Grandis (Grapefruit) Peel Oil, To-copherol, Xanthan Gum, Carbomer, Phenoxyethanol, Ethylhexylglycerin, Sodium Hydroxide

KEY INGREDIENTS

Mandelic Acid: Derived from almonds, this larger AHA gently helps to diminish surface cells to reduce build up.

Palmitoyl Tripeptide-38: Often referred to as a "wrinkle-filling" peptide. Peptides such as this are found in collagen VI and laminins, and they help to smooth wrinkles from the inside by stimulating macromolecule production in the DEJ.

Palmitoyl Tripeptide-5: Peptide that stimulates collagen synthesis and helps reduce the apperance of wrinkles.

Palmitoyl Dipeptide-5 Diaminobutyroyl Hydroxythreonine:

Anti-aging peptide cocktail that stimulates the proteins of the Dermal-epidermal junction (DEJ) including laminin, collagen, integrin and provides strength.

Comfrey: An herb. The content of allantoin and mucilages provides soothing, antibacterial, and anti-inflammatory properties.

Chamomile: Anti-inflammatory and antibacterial.

I noticed that my skin has some texture after starting this product, is that normal?

Yes, Radiant Serum contains an alpha hydroxy acid named Mandelic Acid, which stimulates cellular turnover. When you first begin using this acid, it may take 2-4 weeks for your skin to adjust, but it usually resolves itself within two weeks with texture and skin tone improving.

My esthetician recommended Radiant Serum for my acne but I noticed it is not in the Acne line, was she incorrect?

No, there are several GlyMed products that are multifunctional and can be categorized under several subcategories, but to maintain consistency, we choose one. Radiant Serum contains Mandelic Acid, which can be beneficial for acne because it sloughs off dead skin cells that may be lying over and blocking pores, thus resulting in a buildup within the pores, making it a great option for acne.

My skin became red and irritated when I applied this product. Am I allergic?

These reactions can be common to individuals when they first start using professional products, especially if they're sensitive. The skin is adjusting to the activity of the product. If it is excessive you may want to limit use to once every other day or every third day for the first two weeks to allow your skin to adjust. Remember to always wear your GlyMed Plus sunscreen when using any alpha hydroxy acids.

Is this product safe for expecting or nursing mothers?

It is safe to use Radiant Serum during pregnancy. During this time, however, your skin is more susceptible to sun exposure, and you should always wear GlyMed Plus sunscreen when outdoors.

BETA GEL

with 10% Glycolic Acid

GM002R

4.0 fl. oz. | 118 mL

Beta Gel is a lightweight, hydrating, and anti-aging serum that exfoliates the skin and helps accelerate cell renewal. Smooths the appearance of fine lines and wrinkles, protects the skin from free-radical damage, reduces inflammation, and promotes healing.

RECOMMENDED FOR

All skin types. Great for mild acne, aging, Rosacea, and pigmentation.

DIRECTIONS

After cleansing, apply to face, neck, and décolleté, followed by additional serums and moisturizers. Can be used once a day preferably at night. Start using 2-3 times a week, slowly increasing until it is part of your daily regimen.

INGREDIENTS

Water, Sd Alcohol 40-b, Glycolic Acid, Pterocarpus Santalinis Wood Extract, Polysorbate 20, Sodium Hyaluronate, Squalane, Yeast Beta Glucan, Hydroxyethylcellulose, Aloe Barbadensis Leaf Extract, Cucumis Sativus (Cucumber) Fruit Extract, Arnica Montana Flower Extract, Althaea Officinalis (Marshmallow) Root Extract, Hedera Helix (Ivy) Extract, Camellia Sinensis (Green Tea) Leaf Extract, Calendula Officinalis Flower Extract, Rosmarinus Officinalis (Rosemary) Leaf Extract, Tocopheryl Acetate, Retinyl Palmitate, Tetrasodium Edta, Phenoxyethanol, Ethylhexylglycerin, Fragrance, Sodium Hydroxide, Yellow 5, Yellow 6, Red 40

glymed+

Skin

KEY INGREDIENTS

Glycolic Acid 10%: Promotes light exfoliation, visibly reducing the appearance of pores and wrinkles, breaks up the appearance of pores and wrinkles, breaks up cellular cohesion, and removes surface dryness.

Red Sandalwood: Used to reduce puffiness, soothing, and healing.

Arnica Montana: It is antiseptic, astringent, antimicrobial, antiinflammatory, anticoagulant, and it stimulates circulation and promotes healing.

Yeast Beta Glucan: Supports the health of new skin cells and protects them from destructive free radicals and inflammation.

Hyaluronic Acid: It plays a critical role in controlling the physical and biochemical characteristics of epidermal cells. It regulates skin activity, including water content, elasticity, and the distribution of nutrients to the cells. It can hold 1000x its weight in water and similarly locks water in the skin.

I noticed that my skin seems to peel immediately after applying Beta Gel, is that exfoliation?

No, Beta Gel contains many hydrating ingredients and requires a very small amount (approximately the size of a pea). Many individuals have a tendency to over use these products but the skin can only utilize a certain amount. The remainder will roll off. Try downsizing the portion that you are using.

My esthetician recommended Beta Gel for my acne but I noticed it is not in the Serious Acne line, was she incorrect?

Glycolic Acid can be beneficial in treating acne because it helps to slough off dead skin cells that may be lying over and blocking pores creating a buildup inside. In addition, when acne skin is dry, it becomes irritated and does not heal. Facial Hydrator has ingredients that act as humectants to hydrate your skin. It is a fallacy that acne skin needs to be dry.

My skin became red and irritated when I applied this product. Am I allergic?

These reactions alone are common to individuals when they first start using a professional product. The skin is simply adjusting to the activity of the product. If it is excessive you may want to limit use to once every other day or every third day for the first two weeks to allow your skin to adjust. Remember to always wear your GlyMed Plus sunscreen when using an alpha hydroxy acid.

Is this product safe for pregnant or breastfeeding moms?

Yes, however, your skin is more vulnerable to sun exposure during this time so make sure you are always wearing your GlyMed Plus sunscreen when outdoors.

ACCELERATOR GEL

with 20% Alpha Hydroxy Acids

GM006R

4.0 fl. oz. |118 mL

This advanced, lightweight anti-aging serum contains ingredients that are great for treating moderate acne, photo-aging, and hyperpigmentation. Accelerator Gel is also great for preparing the skin for chemical and surgical procedures while helping to extend and maintain lasting results.

RECOMMENDED FOR

All skin types. Great for aging, acne, Rosacea, and pigmentation.

DIRECTIONS

After cleansing, apply to face, neck, and décolleté, followed by additional serums and moisturizers. Use only once a day, preferably at night. Start using 2–3 times a week, slowly increasing until it is part of your daily regimen.

INGREDIENTS

Aqua (Water), Butylene Glycol, Glycolic Acid, Lactic Acid, Aloe Barbadensis (Aloe Vera) Leaf Extract, Polysorbate 20, Salvia Officinalis (Sage) Extract, Anthemis Nobilis (Chamomile) Flower Extract, Camellia Sinensis (Green Tea) Leaf Extract, Tocopheryl Acetate (Vitamin E Acetate), Hydroxyethylcellulose, Tetrasodium EDTA, Phenoxyethanol, Ethylhexylglycerin, Sodium Hydroxide

Anti-Aging

Evenina

KEY INGREDIENTS

Glycolic Acid 10%: It visibly reduces the appearance of pores and wrinkles as it removes surface dryness and breaks up cellular cohesion.

Lactic Acid 10%: Diminishes the cohesion of the surface skin cells and prevents the thickening of the stratum corneum. Also assists as a tyrosinase inhibitor when over 5%, to brighten pigmentation.

Aloe Vera: Natural astringent, aids in healing and is very soothing and protective to the skin.

Sage Extract: Antiseptic, astringent, and antioxidant qualities.

Green Tea Extract: High in antioxidants, effective antibacterial and anti-inflammatory agent.

Chamomile: Anti-inflammatory and antibacterial.

Why is this product called Accelerator?

Accelerator Gel has two ingredients in the alpha hydroxy acid (AHA) family: glycolic and lactic. AHAs are known to stimulate the epidermal cell turnover that occurs daily in young, healthy skin. With age, this process decreases leaving skin with a coarse texture and loss of vitality. The glycolic acid works more quickly but the lactic results in less irritation leaving Accelerator Gel a great choice for all levels of aging skin.

Accelerator Gel left my skin red and tingly. Am I allergic or sensitive to this product?

Typically redness and tingling is a normal reaction of alpha hydroxy acids and an indication that your skin is feeling it work. Usually, as the skin adjusts, these conditions subside. However, if you are concerned, it is a good idea to begin application gradually beginning with once every second or third day for two weeks working up to daily as tolerated.

I heard the alpha hydroxy acids make my skin more sensitive to the sun. Are they safe?

It is true that like retinols, salicylic acid, and a myriad of ingredients and medications, AHAs do create sun sensitivities. That is why your GlyMed Plus skin care professional will always require that you use a minimum SPF 15 with necessary re-application throughout the day. GlyMed Plus Purely Professional Skin Care has a variety of sunscreens to suit any skin type and consumer preference.

Is this product safe for pregnant or breastfeeding moms?

Yes, however, your skin is more vulnerable to sun exposure during this time so make sure you are always wearing your GlyMed Plus sunscreen when outdoors.

TRI-ACID 15% SKIN GEL

gly*med+*

GM15AR

4.0 fl. oz. | 118 mL

This weightless, oil-free serum refines acne prone skin and helps prevent breakouts. Salicylic, glycolic, and lactic acids penetrate pores to attack acne causing elements at their source.

RECOMMENDED FOR

All skin types. Great for acne prone, oily, and aging skin.

DTRECTTONS

After cleansing, apply to area to be treated followed by additional serums and moisturizers. Can be used as needed. Do not use on open lesions and abrasions.

INGREDIENTS

Aqua (Water), SD Alcohol 40-B, Glycolic Acid, Lactic Acid, Salicylic Acid, Polysorbate 20, Hamamelis Virginiana (Witch Hazel) Water, Hydroxyethylcellulose, Aloe Barbadensis (Aloe Vera) Leaf Juice, Arnica Montana Flower Extract, Cinnamomum Camphora (Camphor) Leaf Oil, Eucalyptus Globulus Leaf Oil, Melaleuca Alternifolia (Tea Tree) Leaf Oil, Cananga Odorata (Ylang Ylang) Flower Oil, Yeast Extract, Sodium Hyaluronate, Glycerin, Benzalkonium Chloride, Phenoxyethanol, Chlorphenesin, Caprylyl Glycol, Tetrasodium EDTA, Sodium Hydroxide

KEY INGREDIENTS

Glycolic Acid 10%: An AHA used to treat acne, and aging skin. Resolves dry skin conditions and visibly reduces the appearance of pores and wrinkles. Reduces pigment and surface dryness.

Lactic Acid 10%: An AHA that diminishes the cohesion of the surface skin cells and subsequently, prevents the thickening of the stratum corneum for smooth and flexible skin.

Salicylic Acid 5%: Exfoliant. Reduces oiliness, acne, and photoaging. Slows down the shedding of the cells inside the follicles to prevent clogging and helps break down blackheads and whiteheads.

Tea Tree: It promotes strong healing for the relief of symptoms such as acne and other skin infections. The oil is a powerful germicide, fungicide, and antiseptic.

Arnica Montana: Antiseptic, astringent, antimicrobial, antiinflammatory, and it stimulates circulation and promotes healing.

I love the Tri-Acid 15% Skin Gel but sometimes it is a little too active for my skin. How can I keep getting the benefits but not the redness?

You can mix equal amounts of Tri-Acid 15% Skin Gel and Ultra Hydro Gel. The Ultra Hydro Gel will reduce the irritation and with 10% Hyaluronic Acid, it is a very effective carrier.

My breakouts are located along my jawline. Should I only use Skin Gel in that area?

Yes, with the inclusion of both AHAs and a BHA this fantastic gel can be used anywhere breakouts occur.

My husband is complaining about oily skin and the wrinkles he is getting on his forehead. Is Tri-Acid 15% Skin Gel something he could use?

Yes. Tri-Acid 15% Skin Gel is a great product for men and effective for controlling ingrown hair after shaving. Remember, with the inclusion of two powerful alpha hydroxy acids: Lactic and Glycolic, Tri-Acid 15% Skin Gel is also a very effective age management product. Aging occurs everywhere.

Is this product safe for pregnant or breastfeeding moms?

No, Salicylic Acid is not recommended for pregnancy.

RETINOL REJUVENATION SERUM

glymed+

1.0 fl. oz. | 30 mL

Retinol Rejuvenation Serum delivers the maximum concentration of retinol available in a serum to build collagen and speed skin renewal to diminish the appearance of fine lines, acne, wrinkles, and hyperpigmentation.

RECOMMENDED FOR

All skin types. Great for acne, aging, pigmentation, and environmentally damaged skin.

DIRECTIONS

After cleansing, apply to face, neck, and décolleté, followed by additional serums and moisturizers. Can be used once a day, preferably at night.

INGREDIENTS

Agua (Water), Cetearyl Ethylhexanoate, Caprylic/Capric Triglyceride, Hyaluronic Acid, Retinol (Vitamin A), Palmitoyl Dipeptide-5 Diaminobutyroyl Hydroxythreonine, Palmitoyl Dipeptide-5 Diaminohydroxybutyrate, Olea Europaea (Olive) Oil, Limnanthes Alba (Meadowfoam) Seed Oil, Tocopheryl Acetate (Vitamin E Acetate), Retinyl Palmitate (Vitamin A Ester), Glycerin, Sucrose Tristearate, Bis-Diglyceryl Polyacyladipate -2, Polysorbate 60, PEG-20, Acrylates/C10-30 Alkyl Acrylate Crosspolymer, Butylene Glycol, Rosmarinus Officinalis (Rosemary) Leaf Oil, Pelargonium Graveolens (Geranium) Oil, Phenoxyethanol, Ethylhexylglycerin, Triethanolamine

KFY TNGREDIENTS

Vitamin A: Protects the skin and Langerhans cells and controls the activation of MMPs. Protects the skin from sun-induced aging and stimulates skin cell renewal. Acts as a natural humectant.

Palmitoyl Dipeptide-5: Improves collagen production and strengthens the epidermal-dermal junction to improve structural strength and increases cellular communication.

Hyaluronic Acid: Retains water in the skin and it is able to maintain moisture levels throughout the day.

Vitamin A Ester: Free radical scavenger. Increases epidermal thickness.

I have tried retinols before and they dry my skin out and cause sensitivity and redness. I am afraid the 5% will be too much.

This unique formula is micro-encapsulated, allowing it to penetrate quickly and allows for the slower release of the retinol over the course of several hours, thereby allowing the skin to fully utilizes and benefit from all the retinol without any irritation to the surface of the skin.

Where does Retinol Rejuvenation Serum fit into my daily regimen?

Retinol Rejuvenation Serum should be applied after cleansing and before any other GlyMed Plus treatment products and before sun protection.

Why is it so important to apply a sunscreen when using a product that contains retinol?

Retinol increases the skin's photo-sensitivity and therefore vulnerability to sunburn which is why it's important to apply a sunscreen after application of Retinol Rejuvenation Serum.

Is this product safe for pregnant or breastfeeding moms?

Consult with your doctor before using this product.

DAILY SKIN CLARIFIER

$glymed^*+$

GM037R

2.0 fl. oz. | 59 mL

The most powerful antioxidant cocktail your skin will ever need! Packed with deeply hydrating and pure botanicals, Daily Skin Clarifier protects living skin against free radical damage and inflammation. Battle age and sunspots naturally without irritating chemicals or prescription drugs. A must for everyone for daily maintenance!

RECOMMENDED FOR

All skin types. Great for mild pigmentation or daily maintenance.

DIRECTIONS

After cleansing. Apply serum to face, neck and décolleté morning and night. Follow with GlyMed Plus Moisturizer and SPF.

INGREDIENTS

Agua (Water), Glycyrrhiza Glabra (Licorice) Root Extract, Phytic Acid, Arctostaphylos Uva-Ursi (Bearberry) Leaf Extract, Morus Alba (Mulberry) Bark Extract, Laminaria Japonica (Seaweed) Extract, Yeast Extract, Saccharum Officinarum (Sugarcane) Extract. Citrus Medica Limonum (Lemon) Fruit Extract, Citrus Aurantium Dulcis (Orange) Fruit Extract, Pyrus Malus (Apple) Fruit Extract, Camellia Sinensis (Green Tea) Leaf Extract, Tocopheryl Acetate (Vitamin E Acetate), Retinyl Palmitate (Vitamin A Ester), L-Ascorbic Acid (Vitamin C), Magnesium Ascorbyl Phosphate (Vitamin C), Glycerin, Sorbitol, Xanthan Gum, Butylene Glycol, Phenoxyethanol, Caprylyl Glycol, Sorbic Acid

Skin

KEY INGREDIENTS

Bearberry: Natural tyrosinase inhibitor.

Licorice: Lightener, antioxidant, anti-inflammatory, and hydrator.

Mulberry: Slows down the skin's aging process and aids in the reduction of fine lines and wrinkles, as well as assisting in the lightening of pigmentation.

Phytic Acid: Excellent antioxidant adn free radical scavenger.

Green Tea: Powerful antioxidant. Protects cells from free radicals and their associated damage. Also an antibacterial, anti-inflammatory, as well as having the capabilities to extend the effects of SPF.

Apple: Natural AHA offerign soothing and anti-inflammatory properties while also gently exfoliating.

Even if I am already treating pigmentation with the Brightener or Bleaching Fluid should I still use Daily Skin Clarifier?

Yes! Daily Skin Clarifier helps to PREVENT further pigmentation, so it is very important to any regimen that is treating or preventing pigmentation.

Why does every GlyMed Plus professional treatment include Daily Skin Clarifier?

Daily Skin Clarifier aids in the control of the production of PIH (Post Inflammatory Hyperpigmentation) often brought on by chemical peels by calming melanocyte activity. In addition, it has powerful antioxidant and anti-inflammatory benefits to aid the skin in healing. Daily Skin Clarifier also has been shown to calm down the redness brought on by more aggressive peels including TCA, Salicylic Acid, and Jessners Solution.

How can Daily Skin Clarifier help acne?

Erythema or redness of the skin often occurs in acne. In some cases, it is the redness more than the lesions that cause the individual to feel self consience. Daily Skin Clarifier instantly calms the skin and reduces the redness. Furthermore, because hyperpigmentation is an additional concern when treating ethnic skin, using Daily Skin Clarifier in conjunction with an acne home care regimen is an important step.

Is Daily Skin Clarifier safe for my clients who are pregnant or nursing?

Yes, Daily Skin Clarifier is safe for all skin types. Bearberry extract is a tyrosinase inhibitor that has been shown to be effective in treating melasma, a pigmentation disorder brought on by hormones released during pregnancy.

Can individuals suffering from Rosacea benefit form this product?

Yes. Due to the high levels of antioxidants and anti-inflammatories, Daily Skin Clarifier should be used morning and night to reduce irritation brought on by Rosacea.

PIGMENT BRIGHTENING **SERUM**

glymed+

GM026R

2.0 fl. oz. | 59 mL

Thirty days to brighter, clearer skin. Pigment Brightening Serum is a revolutionary serum formulated to fade sunspots, pigmentation, and age spots, for the gradual fading of pigmentary disorders without the use of hydroquinone.

RECOMMENDED FOR

All skin types. Great for mild to moderate pigmentation.

pigmentation

Evenina

DIRECTIONS

After cleansing, apply to face, neck, and décolleté, followed by additional serums and moisturizers. Can be used morning and night.

INGREDIENTS

Aqua (Water), Glycolic Acid, Glycerin, Phytic Acid, Aloe Barbadensis (Aloe Vera) Leaf Extract, Camellia Sinensis (Green Tea) Leaf Extract, Bisabolol, Tocopheryl Acetate (Vitamin E Acetate), Ascorbic Acid (Vitamin C), Panthenol (Vitamin B), Polysorbate 20, 1-Methylhydantoin-2-Imide, Hydroxyethylcellulose, Tetrasodium EDTA, Phenoxyethanol, Ethylhexylglycerin, Sodium Hydroxide

KEY INGREDIENTS

Glycolic Acid: It visibly reduces the appearance of pores and wrinkles as it removes surface dryness and breaks up cellular cohesion.

1-Methylhydantoin-2-Imide: A natural amino acid derivative known to generate cellular growth and inhibit tyrosinase activity in melanocytes.

Phytic Acid: Excellent antioxidant and free radical scavenger.

Aloe Vera: A potent healer. Provides a protective layer that inhibits infection and soothes the skin. It is both hydrating and gentle.

Green Tea: High in antioxidants, effective antibacterial and anti-inflammatory agent.

I was using Pigment Brightening Serum at night. When I got pregnant, my skin care professional switched me to Pigment Brightening Serum. Is it safe to use during the day and in my condition?

Yes, Pigment Brightening Serum does not contain Hydroquinone which is a known photo-sensitizer. Pigment Brightening Serum can be used safely by pregnant women or nursing moms, even applying twice daily. Keep in mind that during pregnancy you are more vulnerable to hyperpigmentation often referred to as melasma or the "pregnancy mask". Make sure you always protect your skin from the sun with one of the many GlyMed Plus sunscreens. Using Pigment Brightening Serum twice a day will reduce the risk of this condition.

I am on my third week of using Pigment Brightening Serum and although I see a slight lightening, I had hoped to see a more significant result by now. Is this the wrong product for me?

Skin is a very complex and reactive organ. Every individual's genetics, age, lifestyle, health, etc. will have an impact on how skin reacts to certain ingredients. This fact, multiplied by the process of how pigmentation is developed and dispersed in the skin makes it impossible to promise any particular time frame for success. Remember, the damage you see today on your skin is not a result of something that happened yesterday. Rather, it is a process that has been manifesting under the skin for many years and even decades. In other words, you didn't acquire it overnight and it will not go away overnight. If you haven't already, try incorporating Accelerator Gel with 20% Alpha Hydroxy Acids or Resurfacing Night Cream with 15% Glycolic Acid to your routine.

Is this product safe for pregnant or breastfeeding moms?

Yes, this product contains natural ingredients for treating hyperpigmentation in the skin. During pregnancy our skin can be prone to pigmentation disorders due to hormones changes. Thorough treatments for correcting pigmentation should take place after breastfeeding is finished.

DIAMOND BRIGHT SKIN ILLUMINATOR

GM034R

1.0 fl. oz. | 30 mL

Diamond Bright Skin Illuminator reduces pigmentation and brightens the skin through cutting edge technology, evening out skin tone and dark spots for a younger and brighter-looking complexion. Hyperpigmentation is no match for this brightening serum, performing outstanding result while being safe enough for even expecting mothers.

RECOMMENDED FOR

All skin types. Great for severe pigmentation and sun damaged skin.

DIRECTIONS

After cleansing, apply to face, neck, and décolleté, followed by additional serums and moisturizers. Can be used morning and night.

SIYMED HARMOND BRIGHT SKIN ILLUMINATOR HARMOND CARRON 1.0 ft or | 30 mL O2 males

All Fitzpatrick

Hyperpigmentation

Tyrosinase Inhibitors

Evenina

INGREDIENTS

Agua (Water), Caprylic/Capric Triglyceride, Glycerin, Propanediol, Pentylene Glycol, Coco-Caprylate/ Caprate, Cetyl Alcohol, Stearic Acid, Dimethicone, Glyceryl Stearate, PEG-100 Stearate, Gamma Polyglutamic Acid, Palmitoyl Sh-Octapeptide-24 Amide, Palmitoyl Sh-Tripeptide-5 Norisoleucyl Sh-Nonapeptide-1, Oligopeptide-51, Panthenol (Vitamin B), Squalane, Lactic Acid. Lactic Acid/Glycolic Acid Copolymer, Polyvinyl Alcohol, Hydroxyethylcellulose, Undaria Pinnatifida (Algae) Extract, Morus Alba (Mulberry) Leaf Extract, Camellia Sinensis (Green Tea) Leaf Extract, Epilobium Angustifolium Flower/Leaf/Stem Extract, Glycyrrhiza Glabra (Licorice) Root Extract, Saccharum Officinarum (Sugarcane) Extract, Citrus Limon (Lemon) Fruit Extract, Citrus Aurantium Dulcis (Orange) Fruit Extract, Pyrus Malus (Apple) Fruit Extract, Tetrahexyldecyl Ascorbate (Vitamin C), Tocopherol (Vitamin E), Citrus Aurantium Dulcis (Orange) Peel Oil, Citrus Grandis (Grapefruit) Peel Oil, Xanthan Gum, Phenoxyethanol, Ethylhexylglycerin

KEY INGREDIENTS

Advanced Drone Technology: Specifically targets skin neurons to help temporarily inhibit muscle contractions, while boosting collagen production helping to smooth and soften expression lines.

Lightening Drone Technology: Specifically targets injured melanocytes to help reverse damage to lighten skin tone quickly.

Algae: A rich source of trace minerals and amino acids which moisturize and soothe skin.

Apple: Natural AHA gently exfoliates while offering soothing and anti-inflammatory properties.

Green Tea: Powerful antioxidant. Protects cells from free radicals and their associated damage An antibacterial, anti-inflammatory, and has the capabilities to extend the effects of SPF.

Mulberry: Slows down the aging process as it lightens pigmentation.

Can this be used on clients with skin of color?

Yes! The Lightening Drone Technology will only target the damaged melanocytes to lighten and brighten pigment spots without affecting the surrounding skin. This product is necessary before and after care from a chemical peel.

What is Lightening Drone Technology?

Lightening Drone Technology is formulated with peptides and other powerful ingredients to specifically target overactive melanocytes while reducing pigmentation.

Will this product cause sun sensitivity?

Yes, there are several citrus fruit extracts used in the product that can cause sun sensitivity. We recommend the use of a GlyMed Plus broad-spectrum sunscreen while using this product.

Is this product safe for pregnant or breastfeeding moms?

Yes, this product contains natural ingredients for treating hyperpigmentation in the skin. During pregnancy our skin can be prone to pigmentation disorders due to hormones changes. Thorough treatments for correcting pigmentation should take place after breastfeeding is finished.

PROFESSIONAL CBD BOOSTER

GM400R

1.0 fl. oz. | 30 mL

Professional CBD Booster is a vitamin-rich serum that can be paired with many of our products! This exciting serum is lightweight and perfect to use before non-acid based moisturizers.

RECOMMENDED FOR

All skin types. Great for photo-damage, fine lines & wrinkles, and acne.

DIRECTIONS

Add to any cleanser, masque, serum or moisturizer or professional solution. May be safely applied directly to the skin.

Facial Treatment

INGREDIENTS

Water, Glycerin, Polysorbate 20, Pentylene Glycol, Sodium Hyaluronate, Panthenol, Polysorbate 80, Hydroxyethylcellulose, Cannabi Sativa Extract, Tetrahexyldecyl Ascorbate, Tocopherol, Retinyl Palmitate, Phenoxyethanol, Ethylhexylglycerin

KEY INGREDIENTS

CBD: Grown in the USA, derived from HEMP and is considered one of the strongest antioxidants, even stronger than Vitamin C & E, and recognized for its incredible anti-aging effects on the skin. **Hyaluronic Acid:** Increases water content and helps assist against transepidermal water loss. It can hold up to 1,000 times its weight in water.

Vitamin C Oil Soluble: Powerful antioxidant used to fight free radicals and prevent premature aging caused by MMPs and UV exposure while also tightening the skin.

Vitamin E: Strong antioxidant with soothing agents that protect skin from the effects of pollutants and free radical damage. Also increases hydration in the skin by 25%.

Will CBD get you high?

No, CBD is a hemp-based ingredient that differs from strains of marijuana cultivated for their psychoactive drug use. Our CBD is derived from non-drug strains of cannabis and has NO psychoactive compounds. THC is the chemical compound that is responsible for psychoactive effects. Our CBD products are lab-certified to have less than 0.3% THC and in fact our products have been tested and have zero THC.

What is the difference between HEMP and Marijuana products?

In December of 2018, the Farm Act of 2018 was signed into law and this law included a revised definition of "marijuana products". Under the revised definition, products with low to no THC content (less than 0.3%) were excluded from the definition of marijuana products. There have been many studies and there are many more studies underway that are measuring the benefits of CBD and other hemp-related ingredients. Our CBD products have all been independently certified to be hemp-based products and NOT marijuana products.

Is this safe for pregnant and nursing mothers?

Please consult with your physician in regards to using CBD for expecting or nursing mothers.

CBD SOOTHING SERUM

with Micro-Silver

GM408R

1.0 fl. oz. | 30 mL

This combination of CBD, Micro Silver, and peptides is ideal for ultra-sensitive skin. Gentle but effective, Micro Silver helps reduce bacteria to support the skin's natural flora while delicate Peptides firm and tighten the skin.

RECOMMENDED FOR

Inflamed or compromised skin, including aging, acne, and rosacea.

DIRECTIONS

After cleansing, apply to face, neck, and décolleté, followed by additional serums and moisturizers. Can be used morning and night.

INGREDIENTS

Water, Glycerin, Pentylene Glycol, Propanediol, Cannabis Sativa Stem (CBD) Oil, Sodium Hyaluronate, Palmitoyl Tripeptide-5, Palmitoyl Dipeptide-5 Diaminobutyroyl Hydroxythreonine, Tetradecyl Aminobutyroylvalylaminobutyric Urea Trifluoroacetate, Niacinamide, Sodium Pca, Sodium Lactate, Sucrose Palmitate, Glyceryl Linoleate, Silver, Aloe Barbadensis Leaf Juice, Citrullus Lanatus (Watermelon) Fruit Extract, Lens Esculenta (Lentil) Fruit Extract, Pyrus Malus (Apple) Fruit Extract, Mangifera Indica (Mango) Citrus Fruit Extract Blend, Camellia Sinensis (Green Tea) Leaf Extract, Paullinia Cupana (Guarana) Extract, Epilobium Angustifolium Flower/leaf/stem Extract, Limnanthes Alba (Meadowfoam) Seed Oil. Brassica Campestris Seed Oil, Linum Usitatissimum Seed Oil, Tocopherol, Tocopheryl Acetate, Tetrahexyldecyl Ascorbate, Xanthan Gum, Carbomer, Phenoxyethanol, Ethylhexylglycerin, Sodium Hydroxide

KEY INGREDIENTS

CBD (Hemp): Grown in the USA, derived from HEMP and is considered one of the strongest antioxidants, even stronger than Vitamin C & E, and recognized for its incredible anti-aging effects in the skin.

Micro Silver: Medical grade ingredient used to supporthealing and aid in reducing bacteria on the surface of the skin to maintain a healthy flora and boosts the skin's natural barrier system.

Peptide Cocktail: Anti-aging peptide cocktail that stimulates the proteins of the Dermal-epidermal junction (DEJ) including laminin, collagen, integrin and provides strength.

Tetradecyl Aminobutyroylvalylaminobutyric Urea Trifluoroacetate: Increases hyaluronic acid synthesis while also strengthening collagen fibrils to increase firmness in the skin.

What is Micro Silver?

Our Micro Silver is medical grade and aids in reducing bacteria on the surface of the skin to help maintain a healthy flora and boosts the skin's natural barrier system. Micro-Silver has long-lasting antimicrobial properties, making it especially good for clients with acne or rosacea.

Will CBD get you high?

No, CBD is a hemp-based ingredient that differs from strains of marijuana cultivated for their psychoactive drug use. Our CBD is derived from non-drug strains of cannabis and has NO psychoactive compounds. THC is the chemical compound that is responsible for psychoactive effects. Our CBD products are lab-certified to have less than 0.3% THC and in fact our products have been tested and have zero THC.

Our CBD products have all been independently certified to be hemp-based products and NOT marijuana products.

Is this safe for pregnant and nursing mothers?

We always recommend your expecting\nursing clients consult with their physician regarding using CBD or other active ingredients.

CBD AGE DELAY DEW

glymed+

GM404R

1.69 fl. oz. | 50 mL

Nourish the skin with a premier blend of CBD, Vitamin B3, and peptides to instantly enhance the skin's natural glow. Vitamin B3 and super-peptides work to firm and tighten the skin to reduce the appearance of fine lines and wrinkles, while moisture-rich botanicals boost hydration.

RECOMMENDED FOR

All skin types. Great for photo-damage, fine lines and wrinkles, and acne.

DIRECTIONS

After cleansing, apply to face, neck, and décolleté, followed by additional serums and moisturizers. Can be used morning and night.

INGREDIENTS

Organic Aloe Barbadensis Leaf Juice, Glycerin, Polysorbate 20, Cannabis Sativa Stem (Cbd) Oil, Sodium Hyaluronate, Palmitoyl Tripeptide-5, Palmitoyl Dipeptide-5 Diaminobutyroyl Hydroxythreonine, Glycosaminoglycans, Tetradecyl Aminobutyroylvalylaminobutyric Urea Trifluoroacetate, Niacinamide, Propanediol, Polyglutamic Acid, Lycium Barbarum Fruit Extract, Coffea Arabica (Coffee) Seed Extract, Euterpe Oleracea Fruit Extract, Morinda Citrifolia Extract, Punica Granatum Fruit Extract, Camellia Sinensis Leaf Extract, Garcinia Mangostana Fruit Extract, Symphytum Officinale (Comfrey) Rhizome/-Root Extract, Citrus Aurantium Dulcis (Orange) Peel Oil, Tocopherol, Tetrahexyldecyl Ascorbate, Retinyl Palmitate, Xanthan Gum, Carbomer, Caprylyl Glycol, Hexylene Glycol, Phenoxyethanol, Ethylhexylglycerin, Sodium Hydroxide

Fine Lines + Wrinkles

Antioxidants

KEY INGREDIENTS

CBD (Hemp): Grown in the USA, derived from HEMP and is considered one of the strongest antioxidants, even stronger than Vitamin C & E, and recognized for its incredible anti-aging effects in the skin.

Niacinamide: A form of Vitamin B3, encourages cellular functions. Stimulates collagen synthesis, increases the production of ceramides, lipids and supports the integrity of the skin's barrier.

Palmitoyl Dipeptide-5 Diaminobutyroyl Hydroxythreonine: Anti-aging peptide cocktail that stimulates the proteins of the Dermal-epidermal junction (DEJ) including Imainin, collagen, integrin and provides strength.

I heard that Niacinamide (B3) can be very stimulating, can sensitive skin use this product?

Niacinamide is an amazing ingredient with many benefits for the skin, one benefit is increasing circulation to bring oxygen and nutrients to cells. For individuals who are more sensitive this can be too much stimulation. We recommend cocktailing it with our Restoring Fulvic Elixir to help with the activity if you are more sensitive. You can always try our CBD Skin Mist as an alternative, because it is a mist, it's not as active as a serum.

Will CBD get you high?

No, CBD is a hemp-based ingredient that differs from strains of marijuana cultivated for their psychoactive drug use. Our CBD is derived from non-drug strains of cannabis and has NO psychoactive compounds. THC is the chemical compound that is responsible for psychoactive effects. Our CBD products are lab-certified to have less than 0.3% THC and in fact our products have been tested and have zero THC.

What is the difference between HEMP and Marijuana products?

In December of 2018, the Farm Act of 2018 was signed into law and this law included a revised definition of "marijuana products." Under the revised definition, products with low to no THC content (less than 0.3%) were excluded from the definition of marijuana products. There have been many studies and there are many more studies underway that are measuring the benefits of CBD and other hemp-related ingredients. Is this safe for pregnant and breastfeeding mothers?

Please consult with your physician regarding using CBD for expecting or breastfeeding mothers.

CBD THERAPEUTIC BALM

glymed+

GM406R

1.0 fl. oz. | 30 mL

CBD Therapeutic Balm is excellent for use on dry and dehydrated skin. Infused with botanicals such as sunflower, grapeseed, and shea butter, these soothing oils act as a barrier to reduce irritation and calm the skin

RECOMMENDED FOR

All skin types. Great for aging, inflammation, prevention, and protection.

DTRFCTTONS

Apply topically as needed over skin irritation. Can be used on the face and body.

INGREDIENTS

Vitis Vinifera (Grape) Seed Oil, Beeswax, Cocos Nucifera (Coconut) Oil, Helianthus Annuus (Sunflower) Seed Oil, Jojoba Esters, Butyrospermum Parkii (Shea) Butter, Cannabis Sativa Stem (Cbd) Oil, Brassica Campestris Seed Oil, Linum Usitatissimum Seed Oil, Panthenol, Aloe Barbadensis Leaf Juice, Hippophae Rhamnoides (Seabuckthorn) Oil, Lavandula Angustifolia (Lavender) Oil, Citrus Aurantium Bergamia (Bergamot) Fruit Oil, Rosmarinus Officinalis (Rosemary) Leaf Oil, Anthemis Nobilis (Chamomile) Oil, Tocopherol

KEY INGREDIENTS

CBD (Hemp): Grown in the USA, derived from HEMP and is considered one of the strongest antioxidants, even stronger than Vitamin C & E, and recognized for its incredible anti-aging effects in the skin.

Sunflower Seed Oil: Great moisturizer, resistant to oxidation and rich in Vitamin E & oleic acids. Helps to repair and strengthen the skin's barrier by supplying fatty and amino acids in addition to protecting the skin from bacteria.

Aloe Vera: A potent healer, provides a protective layer that inhibits infection and soothes irritated skin.

Seabuckthorn Oil: Antioxidant rich oil that contains vitamins A, B1, B12, C, E, K, and P, lycopene and Omega 3 and 6. This oil helps to slow down aging and reduces oxidation.

Is Beeswax non-comedogenic?

Yes, Beeswax is safe to use on the face and body—in fact, Beeswax is abundant in Vitamin A, which is very beneficial for those with Acne-prone skin. It's important to remember that the quality of ingredients will always play a part in determining if a product or ingredient has the potential to clog pores.

Will CBD get you high?

No, CBD is a hemp-based ingredient that differs from strains of marijuana cultivated for their psychoactive drug use. Our CBD is derived from non-drug strains of cannabis and has NO psychoactive compounds. THC is the chemical compound that is responsible for psychoactive effects. Our CBD products are lab-certified to have less than 0.3% THC and in fact our products have been tested and have zero THC.

There have been many studies and there are many more studies underway that are measuring the benefits of CBD and other hemp-related ingredients. Our CBD products have all been independently certified to be hemp-based products and NOT marijuana products.

Is this safe for pregnant and nursing mothers?

No this product is not recommended for mothers who are expecting or nursing. Always recommend your expecting clients consult with their physician regarding using CBD or other active ingredients.

RESTORING FULVIC ELIXIR

GM032R

1.0 fl. oz. | 30 mL

Fulvic acid is a critical nutrient and one of the most powerful antioxidants for skin health. Known for its antibacterial, antifungal, antiviral, and anti-inflammatory properties, this serum is a must in every regimen. Easily absorbed into the skin, targeting the most challenging conditions such as aging skin, irritations, and acne while stimulating healing to restore a younger looking skin.

RECOMMENDED FOR

All skin types. Great for inflammation, acne, irritation, redness, sensitive skin, compromised, and post-procedure.

Sensitive

DIRECTIONS

Use after cleansing. Apply serum to the face, neck and décolleté. Finish with your GlyMed Plus moisturizer of choice. Can be used morning and night.

INGREDIENTS

Aqua (Water), Aloe Barbadensis (Aloe Vera) Leaf Juice, Glycerin, Fulvic Acid, Polysorbate 20, Pentylene Glycol, Propanediol, Hypnea Musciformis (Algae) Extract, Sodium Hyaluronate, Gamma Polyglutamic Acid, Glycerol, Allantoin, Panthenol (Vitamin B), Sorbitol, Lactose, Milk Protein, Hydroxyethylcellulose, Gellidiela Acerosa (Algae) Extract, Fucus Serratus (Algae) Extract, Sargassum Filipendula (Algae) Extract, Agastache Mexicana Flower/Leaf/Stem Extract, Symphytum Officinale (Comfrey) Rhizome/Root Extract, Ascophyllum Nodosum (Algae) Extract, Anthemis Nobilis (Chamomile) Flower Extract, Calendula Officinalis Flower Extract, Lavandula Agustifolia (Lavender) Extract, Tocopherol (Vitamin E), Citrus Grandis (Grapefruit) Peel Oil, Citrus Aurantium Bergamia (Bergamot) Fruit Oil, Citrus Aurantium Dulcis (Orange) Peel Oil, Xantham Gum, Phenoxyethanol, Caprylyl Glycol, Ethylhexylglycerin, Hexylene Glycol, Sodium Hydroxide

KEY INGREDIENTS

Fulvic Acid: Powerful antioxidant that absorbs deeply into the skin to assist in the transportation of nutrients to tissues and skin cells.

Agastache Mexicana Flower: Anti-inflammatory that blocks the effects of stress on the skin while reducing redness and irritation, and evening the overall skin tone.

Calendula: Cleansing and astringent properties that sooth, calm, and heal the skin.

Aloe Vera: Natural astringent, aids in healing and is very soothing and protective to the skin.

Grapefruit Peel: Antiseptic and anti-irritant.

Orange Peel: Helps detoxify skin and soothes dry, irritated skin and discourages the formation of fine lines and wrinkles.

What is Fulvic Acid?

Fulvic Acid is a "humic substance" meaning that it is a major component of organic matter. Fulvic Acid is considered one of the most powerful antioxidants as it prevents damage and fights oxidation of the skin, while stimulating healing. With its anti-mutigenic and anti-clastogenic effects. Fulvic acid helps to prevent genetic material from mutating within the skin.

What is a good use for this product?

Restoring Fulvic Elixir is extremely healing making it beneficial post procedure to rapidly heal, soothe and prevent scarring.

Is this product safe for pregnant or breastfeeding moms?

Yes, this product is safe to use during pregnancy.

ESSENTIAL SERUM

glymed+

with Amino Acids

GM11ER

1.69 fl. oz. I 50 mL

Clinically proven to reduce wrinkles and stimulate collagen production, this ultra-light serum is packed with healing, hydrating, and repairing ingredients for healthy skin. Packed with minerals for healing and luxurious Bulgarian rose oil for soothing any inflammation, this serum is an excellent choice in preventative and corrective skin care.

RECOMMENDED FOR

All skin types. Great for prevention and correction against aging, dehydration, photo-damage, and compromised skin.

DIRECTIONS

After cleansing, apply to face, neck, and décolleté, followed by additional serums and moisturizers. Can be used morning and night.

INGREDIENTS

Aqua (Water), PC10 Complex, Aloe Barbadesis (Aloe Vera), Echinacea Purpurea (Echinacea) Herb Extract, Equisetum Arvense (Horsetail) Extract, Olea Europaea (Olive) Leaf Extract, Spirulina Platensis (Algae) Extract, Hamamelis Virginiana (Witch Hazel), Glycerin, Helianthus Annuus (Sunflower) Oil, Pacific Algae (Seaweed) Extract, Xanthan Gum, Caprylic Acid, Glycine, Bulgarian Rosa Damascena (Rose) Oil, Iodopropynyl Butylcarbamate

Amino

KEY INGREDIENTS

PC10 Complex: GlyMed Plus' own PC10 Amino Acid Complex contains powerful amino acid complexes, natural antioxidants, and pharmaceutical grade botanicals to help correct the damage from free radical injury in addition to combating inflammation which is one of the major causes of skin aging.

Algae: An emollient that restores moisture content to skin with claims to antioxidant properties.

Echinacea: Used for healing and immune stimulation.

Horsetail: Used to heal wounds and to firm and tighten the skin.

Rose: Is found to help with inflammation, soothing rednesss, and increasing moisture retention abilities.

What is a peptide (PC10) complex?

Peptide complexes are compounds that are designed to make use of a chain amino acid to create and release protein to nourish the skin.

Can I use this after a chemical peel?

YES! This is a fantastic product to boost the results. It's powerful in reducing inflammation within the skin and increasing the cellular repair processes.

Is this product safe for pregnant or breastfeeding moms?

Yes. This product contains healing ingredients safe for pregnancy.

FIRMING SERUM

glymed+

with Phyto-Stem Cells

GM90ER

1.0 fl. oz. | 30 mL

This multi-tasking power serum helps to slow the aging process, lift, and firm sagging skin and brighten discoloration. Packed with anti-aging ingredients and plant stem cells to help stimulate younger acting skin while increasing collagen production.

RECOMMENDED FOR

All skin types. Great for aging and pigmentation.

DIRECTIONS

After cleansing, apply to face, neck, and décolleté, followed by additional serums and moisturizers. Can be used morning and night.

INGREDIENTS

Aqua (Water), Glycerin, Hydroxyethyl Acrylate/Sodium Acryloyldimethyl, Taurate Copolymer, Squalane, Polysorbate 20, Creatine, 1-Methylhydamtoin-2-Imide, Sodium Ascorbyl Phosphate, Sodium PCA, Malus Domestica (Uttwiler Spatlauber Apple) Fruit Cell Culture Extract, Myristoyl Pentapeptide-11, Myristoyl Pentapeptide-8, Palmitoyl Pentapeptide-4, Sodium Hyaluronate, Biosaccharide Gum-1, Dipeptide Diaminobutyroyl Benzylamide Diacetate, Folic Acid, Lecithin, Cyclopentasiloxane, Cyclohexasiloxane, Butylene Glycol, Chondrus Crispus (Carrageenan), Propylene Glycol, Citric Acid, Polysorbate 60, Phenoxyethanol, Xanthan Gum, Carbomer, Caprylyl Glycol, Ethylhexylglycerin, Hexylene Glycol, Disodium EDTA

All Skin Types

Fine Lines

Peptides

KEY INGREDIENTS

Uttwiler Spätlauber Apple: Helps protect skin stem cells, delays aging and has anti-wrinkle effects.

1-Methylhydantoin-2-Imide: Natural tyrosinase inhibitor.

Dipeptide Diaminobutyroyl Benzylamide Diacetate: An antiaging peptide complex which inhibits muscle contractions thereby actively reducing wrinkle depth.

Myristoyl Pentapeptide-11 and Pentapeptide-8: Potent biopeptides that stimulate collagen production.

Citric Acid: Acts like an antioxidant and assists in regeneration of skin tissue, as well as slowing down the aging process.

Squalane: Derived from olives and works as an antioxidant, promotes cell growth, moisturizes the skin, and has antibacterial properties.

Where are the stem cells derived from?

Firming Serum with Phyto-Stem Cells contains a clinically proven high-tech plant cell culture extracted from the stem cells of the Swiss Uttwiler Spätlauber apple. An anti-aging phenomenon, this rare apple is revered for its ability to last months without decay due to the extended longevity of the apples own stem cells.

How does Firming Serum with Phyto-Stem Cells mimic and extend the effects of cosmetic procedures?

Firming Serum with Phyto-Stem Cells provides an immediate tightening and lifting effect like those found in cosmetic procedures. Additionally, it has been noted by physicians that Firming Serum with Phyto-Stem Cells seems to extend the effects of Botox® cosmetic injections.

Is this product safe for pregnant or breastfeeding moms?

Yes, this product is safe to use during pregnancy/nursing.

MICRO LIFT SERUM

GM100B

4.0 fl. oz. | 118 mL

This lightweight serum contains hydrating and anti-aging ingredients that help to lift and firm for youthful looking skin. Part 1—Dual System with Part 2: Micro Renewal Smoothing Serum (GM101).

RECOMMENDED FOR

All skin types. Great for photo-damage, fine lines & wrinkles and acne.

DIRECTIONS

Dispense 1 tsp into dish and apply to skin to provide glide as you perform the Micro Needling Treatment re-apply throughout treatment as needed.

Pentide

Anti-Aging

TNGREDTENTS

Water, Glycerin, Polysorbate 20, Prunus Amygdalus Dulis (Sweet Almond) Seed Extract, Butylene Glycol, Sodium Hyaluronate, Acetyl Dipeptide-1 Cetyl Ester, Ceramide 3, Panthenol, Pentylene Glycol, Soluble Collagen, Hydroxyethylcellulose, Sorbitan Laurate, Paullinia Capana (Guarana) Extract, Leontopodium Alpinum Callus Culture Extract, Citrus Aurantium Dulcis (Orange) Peel Oil, Tetrahexyldecyl Ascorbate, Xanthan Gum, Phenoxyethanol, Ethylhexylglycerin

KFY TNGREDTENTS

Hyaluronic Acid: Increases water content and helps assist against transepidermal water loss. It can hold up to 1,000 times its weight in water.

Soluble Collagen: Formulated to penetrate deep into the skin to aid in tissue repair and healing.

Vitamin C: Oil soluble. Powerful antioxidant used to fight free radicals and prevent premature aging caused by MMPs and UV exposure. Actively lifts and firms.

Peptides: Chain of amino acids that repair, rebuild and strengthen the skin's structure.

Ceramide 3: Skin identical ceramides that improve intercellular lipids and play an important part in the regulation of water in the skin to keep the barrier intact.

Is this product safe for pregnant or breastfeeding moms?

Yes, this product contains ingredients safe for pregnant or breastfeeding mothers.

Why is Glycolic Facial Cleanser with 10% Glycolic Acid recommended as the first cleanse?

This treatment serum penetrates deep into the skin, especially if it's been properly prepped. By first utilizing these AHA cleansers it lowers the pH of the skin, thus creating greater efficacy.

Do I need to use both part for this product to work?

To ensure the BEST results we always recommend using both part in your treatment or home care. These products were made to work together to provide the skin with the optimum treatment.

MICRO RENEWAL **SMOOTHING SERUM**

GM101B

4.0 fl. oz. | 118 mL

This lightweight serum helps to regulate cell functions while removing dead skin build up for baby soft skin every time! Part 2—Dual system with Part 1: Micro Lift Serum (GM100).

RECOMMENDED FOR

All skin types. Great for photo-damage, fine lines & wrinkles and acne.

DIRECTIONS

Dispense and apply to skin after Micro Needling Treatment, follow with additional serums and moisturizer.

INGREDIENTS

Water, Mucor Miehei Extract, Glycerin, Citric Acid, Sodium Hvaluronate. Sodium Benzoate. Potassium Sorbate, Ascorbyl Glucoside, Zinc Pca, Dimethicone Peg-8 Meadowfoamate, Methyl Gluceth-20, Butylene Glycol, Mucor Miehei Extract, Olea Europaea (Olive) Leaf Extract, Hydroxyethyl Acrylate/Sodium Acryloyldimethyl, Taurate Copolymer, Xanthan Gum, Phenoxyethanol, Ethylhexylglycerin, Fragrance

Enzymes

KEY INGREDIENTS

Protease Enzyme: Natural enzyme that instantly mimics our skin's own natural exfoliation process to remove dead skin build up.

Vitamin C: Water soluble. A powerful antioxidant that boosts skin collagen and elastin, strengthens collagen tissue and provides anti-wrinkle effects while increasing luminosity in the skin.

Hyaluronic Acid: Increases water content and helps assist against transepidermal water loss. It can hold up to 1,000 times its weight in water.

Is this product safe for pregnant or breastfeeding moms?

Yes, this product contains ingredients safe for pregnant or breastfeeding mothers.

Why is this compared to a peel?

Although you will not see a visible flaking or peeling from this superior enzyme, you will benefit from the amazing results. It possesses the mechanical action of a peel without the wounding action of an AHA. It penetrates into the stratum spinosum releasing the desmosomes one at a time allowing for greater desquamation without the injury.

Do I need to use both part for this product to work?

To ensure the BEST results we always recommend using both part in your treatment or home care. These products were made to work together to provide the skin with the optimum treatment.

VITAMIN C SERUM

GM127R

0.3 fl. oz. | 10 mL

A highly concentrated serum designed to tighten, lift, and hydrate. Formulated with Vitamin C and ceramides to repair diminishing intercellular substances that lead to the loss of elasticity and tone.

RECOMMENDED FOR

All skin types and all skin conditions.

DIRECTIONS

After cleansing, apply to face, neck, and décolleté, followed by additional serums and moisturizers. Can be added to moisturizer for additional hydration. Can be used once a day, preferably at night.

Hyperpigmentation

INGREDIENTS

Aqua (Water), Propylene Glycol, Propylene Glycol Isoceteth-3 Acetate, Magnesium Ascorbyl Phosphate (Vitamin C), Magnesium Aluminum Silicate, Silica, Citrus Grandis (Grapefruit) Peel Oil, Prunus Amygdalus Amara (Bitter Almond) Kernel Oil, Ceramide 3, Citrus Aurantium Dulcis (Orange) Peel Oil, Xanthan Gum, Acrylates/C10-30 Alkyl Acrylate Crosspolymer, Triethanolamine, Methylchloroisothiazolinone, Yellow 5

KEY INGREDIENTS

Vitamin C: It helps to boost skin collagen synthesis and fights hyperpigmentation.

Ceramide 3: Skin-identical ceramide that replenishes intercellular lipids to increase hydration and moisture in the skin.

Grapefruit: Antiseptic and anti-irritant.

Orange: Anti-inflammatory that helps detoxify congested skin and soothes dry, irritated skin. Increases collagen discouraging the formation of fine lines and wrinkles. Reduces puffiness.

Bitter Almond: Emollient.

I have been using the Vitamin C Serum for six months. Now that it is starting to get colder, my skin feels drier. What do you suggest?

The Vitamin C Cream will be an incredible addition to your skin care routine as it will create a semi-occlusive, protective barrier on the skin preventing the natural loss of water that occurs with a damaged barrier.

I love the Vitamin C Cream and the Vitamin C Serum. Is it too much to use them both?

No, both products contain their own individual benefits to assist the skin in healing. Apply the serum first for more effective penetration following with the cream to create the essential skin barrier.

Is this product safe for pregnant or breastfeeding moms?

Yes, this product is safe to use during pregnancy and nursing.

ULTRA HYDRO GEL

glymed+

GM069R

1.69 fl. oz. | 50 mL

Replenish dehydrated, irritated, and aging skin with hyaluronic acid gel. Hyaluronic acid is found naturally in our bodies and is responsible for younger, healthier skin. This ultra-light formula melts into the skin leaving it revitalized and luminous!

RECOMMENDED FOR

All skin types. Great for oily and acne prone skin.

DIRECTIONS

After cleansing. Apply serum to face, neck and décolleté morning and night. Follow with GlyMed Plus Moisturizer and SPF.

INGREDIENTS

Water, Cyclopentasiloxane, Cyclopentacy-Ioxane, Polyacrylamide, C 13-14 isoparaffin, Sodium hyaluronate, Laureth-7, Dimethicone crosspolymer, Phenoxyethanol, Ethylhexyglucerin

Sensitive

Dehydrated Skin

KEY INGREDIENTS

Hyaluronic Acid: Superb at retaining water because it holds up to a thousand times its weight. Decreases TEWL.

Cyclomethicone & Dimethicone Crosspolymer: Gives product a smooth texture and consistency without blocking pores.

I understand Ultra Hydro Gel is highly recommended for acne skin. Can you tell me why?

Acne is a genetically predisposed disease of the skin that has the potential, if untreated, to lead to long term scars. Therefore, acne should be addressed as soon as it manifests. Effectively treating acne usually requires products with ingredients that can leave the skin feeling dry and irritated. At GlyMed Plus we know that skin will repair itself much more efficiently when it has sufficient water content. Ultra Hydro Gel has 10% hyaluronic acid that helps to draw water in and keep the skin hydrated to expedite the healing process and relieve any irritation from treatments.

I love my Ultra Hydro Gel and notice a big difference in my skin when I use it. There are some times when my skin still feels dry. What can I do?

Ultra Hydro Gel is a great hydrating product that draws moisture into the skin and plumps it up. However, ensuring the water remains in the skin is also a key component to keeping it healthy. Following Ultra Hydro Gel with a moisturizing cream will create a barrier on the skin surface that will prevent the trans epidermal water loss. Some excellent GlyMed Plus moisturizers include Vitamin E Cream, Daily Repair Cream, or Peptide Cream. If skin still feels dry, incorporate Cell Protection Balm for the most protective barrier.

Is Ultra Hydro Gel safe to use on my baby's rash?

Of course! Ultra Hydro Gel can be used on any age or skin condition.

Is this product safe for pregnant or breastfeeding moms?

Yes this product is safe to use while pregnant/breastfeeding.

BEAUTY OIL

GM031R

0.5 fl. oz. | 15 mL

Simple, pure, and natural, our Beauty Oil creates the ultimate balance for radiant, youthful skin. This lightweight, fast-acting oil is non-comedogenic and packed with age-fighting antioxidants to help reduce wrinkles and replenish critical moisture. Beauty Oil represents our commitment to the highest standard of powerful botanical ingredients.

RECOMMENDED FOR

All skin types and conditions. Great for dry, dehydrated, irritated, and sensitive skin.

DIRECTIONS

After cleansing, apply to face, neck, and décolleté, followed by additional serums and moisturizers. Can be used morning and night. Can be added to moisturizer for additional hydration.

INGREDIENTS

Caprylic/Capric Triglyceride, Avena Sativa (Oat) Kernel Oil, Coco-Caprylate/Caprate, Algae Extract, Lavendula Stoechas (Lavender) Extract, Fragrance

Compromised Skin

KEY INGREDIENTS

Caprylic/Capric Triglyceride: A lubricant, skin conditioner, and emollient derived from coconut.

Oat: Rich in free fatty acids and contains natural antioxidants to fight free radical damage while moisturizing the skin. Also contains powerful anti-irritant properties to combat redness and inflammation.

Algae: Has high antioxidant content. Increased hydration, normalization of the skin, anti-inflammatory, and detoxifying properties.

My esthetician told me I can cocktail my beauty oil with other products. Which ones can I mix?

The Glymed Plus Beauty Oil is great to cocktail with any moisturizer! By combining those products, you'll get the benefits of your moisturizer while creating a boost in hydration with the Beauty Oil.

Can I use the beauty oil on areas besides my face?

Absolutely! You can use it any place on the body where you experience dryness, including hands, arms, elbows, knees and scalp.

Is this a product that men can use?

Yes! This is a fantastic product for men. When men shave they remove a protective barrier and critical indigenous fluids that can cause razor burn. A twice-daily application is highly recommended to rebuild that barrier and reduce irritation and dryness in the skin.

Is this product safe for pregnant or breastfeeding moms?

Yes, this product is safe to use during pregnancy.

PEPTIDE SERUM

glymed+

GM40ER

1.0 fl. oz. I 30 mL

Activate the skin's self-defense system with this barrier repair formulation. This peptide serum reduces DNA oxidation, neutralizes free radicals, and increases antioxidants to fight against environmental and chronological aging.

RECOMMENDED FOR

All skin types. Sensitive, photo-damage and compromised skin.

DIRECTIONS

After cleansing, apply to face, neck, and décolleté, followed by additional serums and moisturizers. Can be used morning and night.

INGREDIENTS

Water, Glycerin, Pentylene Glycol, Polysorbate 20, Sodium Hyaluronate, Palmitoyl Tripeptide-1, Palmitoyl Tetrapeptide-7, Acetyl Sh-heptapeptide-1, Copper Tripeptide-1, Panthenol, Glycereth-26, Sorbitol, Butylene Glycol, Dimethyl Mea, Glycine, Hydrolyzed Soy Protein Hydrogenated Lecithin, Phenyl Alcohol, Propanediol, Rosa Centifolia (Cabbage Rose) Water, Malus Domestica Fruit Cell Culture Extract, Rosmarinus Officinalis (Rosemary) Leaf Extract, Camellia Sinensis (Green Tea) Leaf Extract, Hibiscus Abelmoschus Extract, Butyrospermum Parkii (Shea) Butter, Rosa Centifolia (Rose) Oil, Moringa Oleifera Seed Oil, Tetrahexyldecyl Ascorbate, Lecithin, Xanthan Gum, Carbomer, Caprylyl Glycol, Hexylene Glycol, Phenoxyethanol, Ethylhexylglycerin, Sodium Hydroxide

KEY INGREDIENTS

Palmitoyl Tripeptide-1: A peptide that initiates the stimulation of collagen and glycosaminoglycan (hyaluronic acid) production while also supporting connecting tissue to firm and tighten.

Palmitoyl Tetrapeptide-7: A peptide that initiates the stimulation of collagen and glycosaminoglycan (hyaluronic acid) production while also supporting connecting tissue to firm and tighten.

Acetyl SH-Heptapeptide-1: Protective peptide that prevents against DNA oxidations while also turning on the master switch to slow aging and neutralize free radical damage.

Copper Tripeptide-1: A wound healing peptide that delivers essential nutrients crucial for tissue regeneration.

Peptide Serum is highly recommended to be used during the summertime, why is that?

Peptide serum is particularly beneficial for use during the summer months since it provides protection against the damaging effects that the sun can have on the skin. During the summer you're more likely to be spending more hours outdoors which can lead to aging and damage to the skin. Peptide serum helps to safely protect the skin and cells from that damage.

What are peptides and how can they benefit my aging skin?

Peptides are amino acid chains that are also referred to as cellular communicators. They have the ability to initiate cellular activity to create some type of response. Peptides are classified in several groups including anti-inflammatories, collagen stimulators, neuro peptides, bio-active peptides, and more. Peptide science is very fast paced and new technology continues to find ways to utilize them in a variety of skin functions.

Is this product safe for pregnant or nursing mothers?

Yes, this product is safe to use during pregnancy/nursing.

BIO RENEWAL SERUM

glymed+

GM39ER

1.0 fl. oz. I 30 mL

This ultra-light facial gel contains a bio renewal peptide that reduces the signs of aging, refine skin's texture, and increase hydration for smooth, vibrant radiant skin.

RECOMMENDED FOR

All skin types. Texture, fine lines and hyperpigmentation.

DIRECTIONS

After cleansing, apply to face, neck, and décolleté, followed by additional serums and moisturizers. Can be used once a day preferably at night.

INGREDIENTS

Water, Acetyl Hexapeptide-8, Glycerin, Polysorbate 20, Pentylene Glycol, Sodium Hyaluronate, Palmitoyl Tripeptide-1, Palmitoyl Tetrapeptide-7, Copper Tripeptide-1, Hexanoyl Dipeptide-3 Norleucine Acetate, Panthenol, Glycine, Sorbitol, Dimethyl Mea, Hydrolyzed Soy Protein, Propanediol, Butylene Glycol, Mucor Miehei Extract, Camellia Sinensis (Green Tea) Leaf Extract, Vitis Vinifera (Grape) Seed Extract, Olea Europaea (Olive) Leaf Extract, Carica Papaya Fruit Extract, Citrus Limon (Lemon) Peel Oil, Moringa Oleifera Seed Oil, Vitis Vinifera (Grape) Seed Oil, Citrus Aurantifolia (Lime) Peel Oil, Tocopherol, Tetrahexyldecyl Ascorbate, Lecithin, Carbomer, Caprylyl Glycol, Hexylene Glycol, Phenoxyethanol, Ethylhexylglycerin, Sodium Hydroxide, Mica, Titanium Dioxide, Blue 1, Yellow 5

KEY INGREDIENTS

Hexanoyl Dipeptide-3 Norleucine Acetate:

Multi-functional peptide that helps to enhance the skins natural desquamation process in addition to removing damage protein to be replaced by stronger, dense protein.

Palmitoyl Tripeptide-1: A peptide that initiates the stimulation of collagen and glycosaminoglycan (hyaluronic acid) production while also supporting connecting tissue to firm and tighten.

Palmitoyl Tetrapeptide-7: A peptide that reduces inflammation that is responsible for weakening protein production. It also helps to influence healing and tissue regeneration.

Acetyl Hexapeptide-8: A neuro peptide that diminishes creases and wrinkles by preventing the signal protein, catecholamine, from connecting to the cell.

Copper Tripeptide-1: A wound healing peptide that delivers essential nutrients crucial for tissue regeneration.

What are peptides and how can they benefit my aging skin?

Peptides are amino acid chains that are also referred to as cellular communicators. They have the ability to initiate cellular activity to create some type of response. Peptides are classified in several groups including anti-inflammatories, collagen stimulators, neuro peptides, bio-active peptides, and more. Peptide science is very fast paced and new technology continues to find ways to utilize them in a variety of skin functions.

Is this product safe for pregnant or nursing mothers?

Yes, this product is safe to use during pregnancy/nursing.

Is this product safe for oncology skin?

GlyMed has many products that are oncology safe, however, since this product stimulates cellular turn over, we do not recommend it for Oncology skin. Please refer to our oncology safe product list for more information.

PROFESSIONAL OXYGEN BOOSTER

GM103R

1.0 fl. oz. | 30 mL

This oxygen powder can be added to any cleanser or masque to instantly deep clean pores, kill acne causing bacteria and prevent the oxidative stress that leads to premature aging in the skin. Customize any product to be an anti-aging and anti-acne treatment instantly.

RECOMMENDED FOR

Adding or boosting anti-aging properties for products or treatmetns.

DIRECTIONS

Dispense a small amount to cleansers, masques or any professional treatments incorporating additional powder as necessary. Blend well.

Facial

INGREDIENTS

Sodium Bicarbonate, Potassium Myristate, Sodium Sesquicarbonate, Zea Mays (Corn) Starch, Sodium Lauryl Sulfoacetate, Sodium Chloride, Sodium Sulfate, Isononyl Isononanoate, Decafluroropentant, Ethylhexyl Isononanoate, Decafluoropentant, Sodium Cocamidopropyl Pg-dimonium Chloride Phosphate, Polyhydroxystearic Acid. Saccharum Officinarum (Sugarcane) Extract, Pyrus Malus (Apple) Fruit Extract, Camellia Sinensis (Green Tea) Leaf Extract, Citrus Aurantium Dulcis (Orange) Fruit Extract, Citrus Limon (Lemon) Fruit Extract

KEY INGREDIENTS

Bio-Oxygen: Oxygen is essential for all cells in the body and helps to support and influence proper cellular functions. Biooxygen breathes life back into dull, tired cells that have been compromised by free radical damage and oxidative stressers that lead to premature aging in the skin. Oxygen is also responsible for creating energy to heal, cleanse, detoxify and restore and has become one of the most advanced treatments in skin care for aging, acne, pigmentation, rosacea and other skin conditions.

Apple: It contains soothing and anti-inflammatory properties and is beneficial for dry skin. In addition, apples contain malic acid and tartaric acid, natural AHAs, which can provide a degree of exfoliation.

Green Tea: A powerful antioxidant due to its catechin content, which protects cells from free radicals and their associated damage. It is also known to be antibacterial, anti-inflammatory, and to have the capabilities to extend SPF.

Orange: Known for its anti-inflammatory qualities, orange helps to detoxify congested skin and soothes dry, irritated skin, especially in cases of dermatitis and eczema. It increases collagen, which discourages the formation of fine lines and wrinkles. It also reduces puffiness.

What does oxygen do for the skin?

Oxygen breathes life back to cells that have been damaged by oxidative stressors that we are exposed to daily. Boosting the skin with antioxidants that help to fight free radical damage and prevent premature aging.

Is this powder good for Acne and Aging?

Yes! This unique powder has the ability to help with many concerns in the skin, especially aging and acne. Oxygen provides antibacterial properties to clogged pores helping to relieve the skin of breakouts. Clients who suffer from rosacea will also benefit from this amazing powder as it will help to control bacteria from a mite that lives on the surface of our skin.

Is this product safe for pregnant or breastfeeding moms?

Consult with your physician or doctor for recommended use.

PROFESSIONAL TIGHTENING PROTEIN BOOSTER

1.0 fl. oz. | 30 mL

See rapid tightening, lifting and firming results in the skin with the Professional Tightening Protein Booster. Protein, Hyaluronic Acid, and a Vitamin C complex revitalizes wrinkled, sagging and sun damaged skin.

RECOMMENDED FOR

For normal, oily, and combination skin. Rapidly lifts and tightens skin that is wrinkled or sagging.

Peptides

Face, Neck, + Décolleté

DIRECTIONS

Dispense 1/2–1 tsp of powder in a dish. Add choice of serum(s) to create a creamy consistency. Apply with a brush to skin beginning from the neck with upward strokes continuing to face ending at the forehead. Allow to dry completely until cracks begin to appear. Mist to release tightness and remove thoroughly with a damp facial cloth. Followed by additional serums and moisturizer.

INGREDIENTS

Zea Mays (corn) starch, Albmen, Acacia Senegal Gum, Allantoin, Hyaluronic Acid, Ascorbic Acid

KEY INGREDIENTS

Albumen: Albumen protein, rich in vitamins, amino acids, and minerals. Supports tissue repair, aids in lifting and firming and improving circulation.

Hyaluronic Acid: Superb at retaining water, capable of holding 1,000x its weight in water. Helps to plump the skin and reduce Trans Epidermal Water Loss (TEWL).

Ascorbic Acid: Water-soluble form of Vitamin C, incredible antioxidant and has the ability to stimulate collagen synthesis and prevent the deterioration of collagen in the skin.

What are the benefits of Albumen?

Albumen promotes elasticity of the skin, giving it a youthful look. It protects the skin from harmful free radical damage. It has excellent moisturizing properties.

Is this masque safe to use on the body?

Yes! It is a fantastic masque for the body. It promotes elasticity of the skin, protects from harmful free radicals and moisturizes dry/dehydrated skin.

Is this safe for pregnant and nursing mothers?

Yes. As always, we recommend your expecting clients consult with their physician regarding using active ingredients.

PROFESSIONAL **ENZYME BOOSTER**

GM1652

2.0 fl. oz. I 59 mL

This natural enzyme powder is the perfect solution for truly customizing or enhancing a client's treatment. Used to add or boost exfoliation in products or treatments.

RECOMMENDED FOR

Add or boost exfoliation for products or treatments.

DIRECTIONS

Dispense small amount to cleansers or masques incorporating additional powder as necessary. Blend well.

INGREDIENTS

Pancreatin Enzyme Powder

Enzymes

gm+

PROFESSIONAL USE ONLY

PROFESSIONAL KAOLIN CLAY BOOSTER

gly*med+* PROFESSIONAL KAOLIN CLAY BOOSTER

GM1653

2.0 fl. oz. | 59 mL

This natural clay powder helps to absorb and reduce excess oil in the skin while also lifting impurities form clogged pores. Reduce and manage oil production by adding powder to products or treatments.

RECOMMENDED FOR

Reducing and managing oil production for products or treatments.

DIRECTIONS

Add powder to cleansers, masques or moisturizers to reduce and manage oil production.

INGREDIENTS

Kaolin Clay Powder

PROFESSIONAL USE ONLY

PROFESSIONAL SULFUR BOOSTER

GM1654

This natural sulfur powder helps to kill bacteria and adds antiseptic benefits to treatments. Sulfur contains anti-microbial, anti-fungal properties to actively manage bacteria-related skin conditions like acne and rosacea.

RECOMMENDED FOR

Reducing and managing bacteria on the skin and in treatment.

DIRECTIONS

Add powder to cleansers, masques or moisturizers to reduce and manage acne breakouts or flare ups for rosacea.

INGREDIENTS

Sulfur Powder

PROFESSIONAL USE ONLY

RESURFACING NIGHT CREAM

with 15% Glycolic Acid

GM003R

1.69 fl. oz. | 50 mL

Resurfacing Night Cream is a fast acting, skin refining and wrinkle-reducing night cream. This product stimulates new collagen and elastin production below the skin's surface while helping to correct free radical damage and reduce fine lines and wrinkles.

RECOMMENDED FOR

All skin types. Great for aging, photodamage, and dryness.

DIRECTIONS

Apply to clean skin, after treatment serums. Gently massage onto face, neck, and décolleté until absorbed. Use only 3-4 times a week at night.

INGREDIENTS

Aqua (Water), Glycolic Acid, Isostearyl Stearoyl Stearate, Glycerin, Stearic Acid, Glyceryl Stearate, PEG-100 Stearate, Sorbitol, Cetyl Alcohol, Octyl Palmitate, Vitis Vinifera (Grape) Seed Oil, Hyaluronic Acid, Aloe Barbadensis (Aloe Vera) Leaf Extract, Cucumis Sativus (Cucumber) Fruit Extract, Epilobium Angustifolium Flower/Leaf/Stem Extract, Anthemis Nobilis (Chamomile) Flower Extract, Calendula Officinalis Flower Extract, Yeast Beta Glucan, Butyrospermum Parkii (Shea) Butter, Bisabolol, Prunus Amygdalus Dulcis (Sweet Almond) Oil, Persea Gratissima (Avocado) Oil, Carthamus Tinctorius (Safflower) Seed Oil, Oryza Sativa (Rice) Bran Oil, Tocopheryl Acetate (Vitamin E Acetate), Retinyl Palmitate (Vitamin A Ester), Squalane, Xanthan Gum, Sorbitan Stearate, Magnesium Aluminum Silicate, Polysorbate 80, Polyacrylamide, C13-14 Isoparaffin, Laureth-7, Pelargonium Graveolens (Geranium) Oil, Hydroxyethylcellulose, Dimethicone, Phenoxyethanol, Ethylhexylglycerin, Sodium Hydroxide

AHAs

Anti-Aging

Evenin

KEY INGREDIENTS

Glycolic Acid 15%: Visibly reduces the appearance of pores and wrinkles as it removes surface dryness and breaks up cellular cohesion.

Yeast Beta Glucan: Activates the langerhan cells (immune cells), which will then help heal the skin.

Grape Seed: Moisturizes the skin and containes antioxidant properties.

Squalene: Derived from olives and works as an antioxidant, promotes cell growth, moisturizes the skin, and has antibacterial properties.

Aloe Vera: A potent healer. Provides a protective layer that inhibits infection and soothes the skin, both hydrating and gentle.

Avocado: Strong Antioxidant rich in vitamins. Promotes skin rejuvenation and increases collagen production.

Will the Resurfacing Night Cream cause sun sensitivities?

With all products that contain active ingredients, it is always recommended to use at least an SPF of 15. GlyMed Plus offers sunscreens with both SPF of 15 and 30+.

When is the best time to use Resurfacing Night Cream?

Since our body works at night as we sleep to undergo cellular repair, Resurfacing Night Cream will be most effective as the last product applied at night.

Can my Resurfacing Night Cream also be my moisturizer?

Initially when you begin using glycolic acid in your home care regimen, you may experience some irritation, redness and dryness. This is part of the process of your skin adjusting to the active ingredient. You may find that you need more hydration during this time, but as the skin adjusts, many individuals find the Resurfacing Night Cream to be a great dual purpose product for the first two weeks to allow your skin to adjust. Remember to always wear your GlyMed Plus sunscreen when using alpha hydroxy acids.

Is this product safe for pregnant or breastfeeding moms?

Yes, however, your skin is more vulnerable to sun exposure during this time so make sure you are always wearing your GlyMed Plus sunscreen when outdoors.

AGE DELAY CREAM

glymed+

GM38ER

1.69 fl. oz. | 50 mL

Inspired by nature, backed by science, this innovative peptide mimics the royal jelly from majestic honeybees. Daily use stimulates detoxification, delays aging, and boosts skin's energy for a complexion that's smooth, radiant, and glowing.

RECOMMENDED FOR

All skin types. Mature, photo-damaged or lack luster skin.

DIRECTIONS

After cleansing, apply to face, neck, and décolleté, followed by additional serums and moisturizers. Can be used morning and night.

INGREDIENTS

Organic Aloe Barbadensis Leaf Juice, Glycerin, Stearic Acid, Squalane, Acetyl Hexapeptide-8, Pentylene Glycol, Cetyl Alcohol, Cetearyl Alcohol, Dimethicone, Maltodextrin, Sodium Hyaluronate, Palmitoyl Tripeptide-1, Palmitoyl Tetrapeptide-7, Pentapeptide-48, Copper Tripeptide-1, Panthenol, Glycine, Sorbitol, Hydrolyzed Soy Protein, Dimethyl Mea, Polysorbate 20, Butylene Glycol, Hydrogenated Lecithin, Phenethyl Alcohol, Maltodextrin, Succinic Acid, Hibiscus Abelmoschus Extract, Cucumis Sativus (Cucumber) Fruit Extract, Camellia Sinensis (Green Tea) Leaf Extract, Symphytum Officinale (Comfrey) Rhizome/root Extract, Echinacea Angustifolia Extract, Butyrospermum Parkii (Shea) Butter, Moringa Oleifera Oil, Vitis Vinifera (Grape) Seed Oil, Tetrahexyldecyl Ascorbate, Retinyl Palmitate, Tocopherol, Xanthan Gum, Carbomer, Caprylyl Glycol, Hexylene Glycol, Phenoxyethanol, Ethylhexylglycerin, Sodium Hydroxide, Silver

Compromised Skin

Peptides

KEY INGREDIENTS

Pentapeptide-48: This 5 amino acid peptide accelerates proliferation and migration of keratinocytes to encourage cellular turn over and regeneration.

Palmitoyl Tripeptide-1: A peptide that initiates the stimulation of collagen and glycosaminoglycan (hyaluronic acid) production while also supporting connecting tissue to firm and tighten.

Palmitoyl Tripeptide-7: A peptide that reduces inflammation that is responsible for weakening protein production. It also helps to influence healing and tissue regeneration.

Copper Tripeptide-1: A wound healing peptide that delivers essential nutrients crucial for tissue regeneration.

Silver: Medical grade, micro size ingredient used to support healing and aid in reducing bacteria on the surface of the skin to maintain a healthy flora and boosts the skin's natural barrier system.

What are peptides and how can they benefit my aging skin?

Peptides are amino acid chains that are also referred to as cellular communicators. They can initiate cellular activity to create some type of response. Peptides are classified in several groups including anti-inflammatories, collagen stimulators, neuro peptides, bio-active peptides, and more. Peptide science is very fast paced and new technology continues to find ways to utilize them in a variety of skin functions.

Is this product safe for pregnant or nursing mothers?

Yes, this product is safe to use during pregnancy/nursing.

Is this product safe for oncology skin?

GlyMed has many products that are oncology safe, however, since this product stimulates cellular turn over, we do not recommend it for Oncology skin. Please refer to our oncology safe product list for more information.

ATRAXI PEPTIDE

glymed+

GM41ER

4.0 fl. oz. | 118 mL

The ultimate age-defying moisturizer supports skin health with a concentrated royal peptide blend designed to slow down the aging process, normalize cell turnover, and brighten the skin's overall appearance. Nourish and promote regeneration within the skin for a vibrant complexion.

RECOMMENDED FOR

All skin types & All Fitzpatricks.

DIRECTIONS

Apply small amount to cleansed skin, after treatment serums. Gently massage onto face, neck, and décolleté until absorbed. Use both morning and night.

INGREDIENTS

Water, Acetyl Hexapeptide-8, Glycerin, Caprylic/capric Triglyceride, Butylene Glycol, Squalane, Propanediol, Cetyl Alcohol, Cococaprylate/caprate, Maltodextrin, Cetearyl Alcohol, Panthenol, Sodium Hyaluronate, Palmitoyl Tripeptide-1, Palmitoyl Tetrapeptide-7, Pentapeptide-48, Copper Tripeptide-1, Sorbitol, Niacinamide, Glycine, Hydrolyzed Soy Protein, Ceteareth-20, Cetearyl Olivate, Sorbitan Olivate, Phenethyl Alcohol, Maltodextrin, Hydrogenated Lecithin, Polysorbate 20, Succinic Acid, Ferulic Acid, Hibiscus Abelmoschus Extract, Butyrospermum Parkii (Shea) Butter, Tocopherol, Tetrahexyldecyl Ascorbate, Xanthan Gum, Carbomer, Phenoxyethanol, Ethylhexylglycerin, Fragrance, Sodium Hydroxide

Do I need to add a moisturizer on top of my Atraxi Peptide?

This product contains many great ingredients that add both anti-aging benefits as well as emollients to moisturize. Most individuals find this to be a great "multi-tasker" for softening lines and wrinkles as well as a daily moisturizer. If additional moisture is needed you may layer with another moisturizer, like the Vitamin E sensual cream.

Is this product safe for pregnant or breastfeeding moms?

Yes, this product is safe to use during pregnancy/nursing.

OXYGEN CREAM

GM029R

1.69 fl. oz. I 50 mL

This light and elegant soufflé is formulated with oxygen to detoxify and breathe life back into dull tired skin. The perfect solution to fight aging and acne, and leaves the skin incredibly soft, fresh, and luminous!

RECOMMENDED FOR

All skin types. Great for photo-aging, pigmentation, and clogged pores.

DIRECTIONS

Apply small amount to cleansed skin, after treatment serums. Gently massage onto face, neck, and décolleté until absorbed. Use both morning and night.

INGREDIENTS

Aqua (Water), Isodecyl Neopentanoate, Isononyl Isononanoate, Glycerin, Tropaeolum Majus (Nasturtium) Flower/Leaf/Stem Extract, Polyacrylate Crosspolymer-6, Hydroxystearyl Glucoside, Hydrolyzed Candida Saitoana Extract. Sorbitol. Lactobacillus/ Wasabia (Wasabi) Japonica Root Ferment Extract, Sake Extract, Tocopheryl Acetate (Vitamin E Acetate), Tetrahexyldecyl Ascorbate (Vitamin C), Hydroxystearyl Alcohol, Citrus Grandis (Grapefruit) Peel Oil, Sodium Phytate, Phenoxyethanol, Ethylhexylglycerin

KEY INGREDIENTS

Nasturtium: Promotes the oxygenation of skin cells and improves the skin's surface condition, giving it a healthy glow.

Candida: A powerful biological pathway for skin cell detoxification and longevity. Skin will appear smoother and more radiant with the diminished appearance of lines and wrinkles.

Tetrahexyldecyl Ascorbate: A stable, oil soluble form of Vitamin C that works as an MMP inhibitor, antioxidant, lightener, and brightener. Responsible for collagen protection and synthesis as well as DNA protection.

Grapefruit Peel: Skin conditioning agent that reduces existing comedones and prevents new ones from occurring.

Can I cocktail this product with other GlyMed Plus products?

Yes! For a boost of oxygen, mix equal parts Oxygen Cream and Oxygen Deep Pore Masque. Allow to remain in the skin. After 10 minutes or when the product is fully absorbed, perform a rinse.

If I have dry skin, can I layer a balance product on top?

Yes, any GlyMed Plus balance product should be used after application of the Oxygen Cream.

Do I have to use the Oxygen Deep Pore Masque before using this product?

You can use any GlyMed Plus cleanser or treatment product prior to application. For optimal oxygenation of the skin we recommend using the Oxygen Deep Pore Masque as directed by your esthetician.

Is this product safe for pregnant or breastfeeding moms?

Yes, this product does not contain active or irritating ingredients and is safe for use during pregnancy.

PROTECTIVE SKIN SERUM

with Ceramides

GM59ER

0.5 fl. oz. | 15 mL

Protective Skin Serum with Ceramides strengthens the skin and replenishes critical nutrients lost from daily exposure or aging. This ultra-light and nourishing formula drenches the skin in humectants, antioxidants, and vitamins to protect the cells against the harsh effects of aging.

RECOMMENDED FOR

All skin types. Great post-procedure or sensitive skin.

DIRECTIONS

After cleansing, apply to face, neck, and décolleté, followed by additional serums and moisturizers. Can be used morning and night.

INGREDIENTS

Water, Helianthus Annuus (Sunflower) Seed Oil, Cyclopentasiloxane, Simmondsia Chinensis (Jojoba) Seed Oil, Glycerin, Cetearyl Glucoside, Cetearyl Alcohol, Sodium Hyaluronate, Ceramide 3, Panthenol, Bisabolol, Yeast Beta, Glucan, Potassium Sorbate, Phytic Acid, Wheat Amino Acids, Thioctic Acid, Aloe Barbadensis Leaf Extract, Medicago Sativa (Alfalfa) Extract, Centella Asiatica (Gotu Kola) Extract, Saccharmyces Lysate Extract, Avena Sativa (Oat) Extract, Rosa Canina (Rosehip) Extract, Arctostaphylos Uva-ursi-leaf (Bearberry) Extract, Ascorbyl Palmitate, Retinyl Palmitate, Magnesium Ascorbyl Phosphate, Dimethicone Crosspolymer, Xanthan Gum, Phenoxyethanol, Ethylhexylglycerin, Fragrance

$glymed^*+$

Compromised Skin

Ceramides

KEY INGREDIENTS

Wheat Amino Acids: Hydrolized plant protein that assimilates the aminio acids into new tissue which heal, reconstruct, and rejuvenate the skin.

Ceramide 3: Skin-identical ceramides that improve intercellular lipids and play an important part in the regulation of skin/water barrier homeostasis and water-holding capacity.

Alfalfa: Contains highly active antioxidants that prevent DNA destruction and slow the aging process.

Yeast Beta Glucan: Activates the langerhan cells (immune cells), which will then help heal the skin.

Oat: Contains natural antioxidants to fight free radical damage while moisturizing skin. A powerful anti-irritant to combat redness and inflammation.

Aloe Vera: Natural astringent, aids in healing and is very soothing and protective to the skin.

This product was recommended for my acne, but I am hesitant to use it because I break out so easily. Why do I need it?

GlyMed Plus products are completely non-comedogenic meaning they will not create additional breakouts. Protective Skin Serum with Ceramides is a very light formulation. Your skin care professional recommended this product because it contains ceramides. Ceramides are a natural lipid that is natural lipid that is manufactured in your skin and ultimately leads to what is referred to as the "barrier repair function (BRF)". Many of the ingredients that are used to directly treat acne conditions can also lead to a breakdown of the BRF leaving the skin dry and irritated. Protective Skin Serum with Ceramides helps to repair that function. If your skin is still dry, we recommend incorporating Ultra Hydro Gel.

I noticed that my skin care professional always uses Protective Skin Serum with Ceramides after my treatments. Do I still need to use it at home?

Your Aesthetician or skin care professional has been trained to use the Protective Skin Serum with Ceramides after all clinical treatments to offset any damage that occurred during the treatment. GlyMed Plus incorporates a safe approach to clinical treatments by ensuring that all the necessary skin components that were removed from the skin are replaced. However, you will not reap the full benefit of this product by only using it once a week or month. Consistency with home care and clinical treatments are the key to your skin success.

What gives Protective Skin Serum with Ceramides its incredible aroma?

That great almond smell comes from Benzaldehyde, an extract of the bitter almond essential oil. GlyMed Plus uses only natural fragrances derived from plant extracts in all products.

Is this product safe for pregnant or breastfeeding moms?

Yes, this product is safe to use during pregnancy.

PEPTIDE CREAM

GM083R

1.0 fl. oz. | 30 mL

This moisturizer is packed with essential ingredients to actively repair, build, and strengthen skin's structure for more youthful-looking and acting skin. Clinically proven to target fine lines and wrinkles for a smooth, plump complexion.

RECOMMENDED FOR

All skin types. Great for wrinkles, fine lines, and aging skin.

DIRECTIONS

Apply to clean skin, after treatment serums. Gently massage onto face, neck, and décolleté until absorbed. Use both morning and night.

INGREDIENTS

Water (Aqua), C12-15 Alkyl Benzoate, Caprylic/Capric Triglyceride, Acetyl Hexapeptide-8, Glycerin, Cyclomethicone, Lavandula Angustifolia (Lavender) Extract, Glyceryl Stearate, PEG-100 Stearate, Palmitoyl Hexapeptide-12, Palmitoyl Tripeptide-1, Palmitoyl Tetrapeptide-7, Dipalmitoyl Hydroxyproline, Arctostaphylos Uva-Ursi (Bearberry) Leaf Extract, Sea Whip Extract. Centella Asiatica (Gotu Kola) Extract, Echinacea Purpurea Extract, Glycyrrhiza Glabra (Licorice) Root Extract, Camellia Sinensis (Green Tea) Leaf Extract, Phyllanthus Emblica (Amalaki) Fruit Extract, Hypnea Musciformis Extract, Gellidiela Acerosa Extract, Sargassum Filipendula Extract, Theobroma Cacao (Cocoa) Seed Butter, Butyrospermum Parkii (Shea) Butter, Prunus Amygdalus Dulcis (Sweet Almond) Oil, Corylus Avellana (Hazel) Seed Oil, Tocopheryl Acetate (Vitamin E Acetate), Retinyl Palmitate (Vitamin A Ester), Tetrahexyldecyl Ascorbate (Vitamin C), Tribehenin, Sorbitol, Xanthan Gum, Ceramide NG, PEG-10 Rapeseed Sterol, Stearic Acid, DEA-Cetyl Phosphate, BHT, Magnesium Ascorbyl Phosphate (Vitamin C), Polysorbate 20, Polyacrylamide, C13-14 Isoparaffin, Laureth-7, Lavandula Angustifolia (Lavender) Oil, Dimethicone, Butylene Glycol, Acrylates/C10-30 Alkyl Acrylate Crosspolymer, Carbomer, Tetrasodium EDTA, Phenoxyethanol, Ethylhexylglycerin, Triethanolamine

Compromised

KEY INGREDIENTS

Ceramide 2: Speeds healing and rejuvenates cells.

Palmitoyl Tetrapeptide-7: A peptide that mimics DHEA in the skin. It is a powerful anti-inflammatory that helps speed tissue regeneration, resulting in normalization of damaged skin.

Acetyl Hexapeptide-8: A neuro peptide that diminishes creases and wrinkles by preventing the signal protein, catecholamine, from connecting to the cell.

Sea Whip: Anti-inflammatory.

Shea Butter: Restores suppleness, increases moisture in the skin, and improves the appearance of dry, irritated skin.

Lavender: Promotes healing and balance to the skin. It is also an antiseptic, analgesic, and antidepressant.

What are peptides and how can they benefit my aging skin?

Peptides are amino acid chains that are also referred to as cellular communicators. They have the ability to initiate cellular activity to create some type of response. Peptides are classified in several groups including anti-inflammatories, collagen stimulators, neuro peptides, bio-active peptides, and more. Peptide science is very fast paced and new technology continues to find ways to utilize them in a variety of skin functions. Peptide Cream contains a variety of different peptides.

Do I need to add a moisturizer on top of my Peptide Cream?

This product contains many great ingredients that add both age management benefits as well as moisturizers. Most individuals find this to be a great "multi-tasker" for softening lines and wrinkles and daily moisturizing.

If this product is for refining skin and correcting aging concerns, why did my Aesthetician recommend it for my Rosacea?

As you have learned from your skin care professional, Rosacea is an inflammation of the skin that is progressive and has the potential to become permanent. Peptide Cream contains an ingredient (sea whip extract) that is a more powerful anti-inflammatory than hydrocortisone and without the side effects.

Is this product safe for pregnant or breastfeeding moms?

Yes, this product is safe to use during pregnancy/nursing.

ROSACEA RELIEF

GM068R

1.69 fl. oz. | 50 mL

Rosacea Relief naturally and effectively reduces the appearance of Rosacea and other skin conditions that causes redness, flushing, and blushing without prescription drugs. Fortified with aescin which helps to reduce inflammation and repairs vein walls to reduce flushing of the skin.

RECOMMENDED FOR

All skin types. Great for Rosacea, inflammation, distended capillaries, and dark circles.

DIRECTIONS

Apply to clean skin, after treatment serums. Gently massage onto face, neck, and décolleté until absorbed. Use both morning and night.

Compromised

INGREDIENTS

Aqua (Water), Helianthis Annuus (Sunflower) Seed Oil, Glyceryl Stearate, Cetearyl Alcohol, Cetearth-20, Aesculus Hippocastanum (Horse Chestnut) Bark Extract, Glycerin, Cetearyl Glucoside, Vitis Vinifera (Grape) Seed Oil, Cyclomethicone, Dimethicone, Caprylic Acid, Glycine, Cyclopentasiloxane. Dimethiconol. Xanthan Gum, Butyrospermum Parkii (Shea) Butter, Simmondsia Chinensis (Jojoba) Seed Oil, Potassium Sorbate (Vitamin C), Tocopherol (Vitamin E), Rosmarinus Officinalis (Rosemary) Leaf Oil, Lavandula Angustifolia (Lavender) Oil, Lecithin, Diazolidinyl Urea, Iodopropynyl Butylcarbamate

KEY INGREDIENTS

Horse Chestnut: Promotes blood circulation through the capillaries by strengthening the capilarry walls. Also has antiinflammatory effects helpful in treating edema caused by excess fluid.

Sunflower: Softens the skin and helps retain moisture. Forms a natural barrier over skin, protecting it from bacteria. Very nourishing and can regneerate dry, damaged, and sensitive skin.

Vitamin E: Protects the cells from the effects of free radicals. Anti-inflammatory that protects skin, speed wound healing, provide hydration, and prevent water loss. Counteracts damage to cell membranes, DNA, and skin proteins.

Shea Butter: Soothes damaged skin, promotes cell regeneration, and assists in circulation.

Jojoba: A moisturizing emollient that rapidly penetrates the skin to provide intense healing and moisture.

Can I use this product if I don't have Rosacea?

Yes! This product is great for all skin types. Rosacea Relief promotes skin elasticity and helps repair long-term damage caused by internal skin heat and irritation brought on by imbalance.

How and why would you use this for dark circles?

Dark circles brought on by lack of sleep or dehydration can benefit from Rosacea Relief. The ingredients that work to repair the veins in our skin help to prevent pooling and darkening under the eyes as well. Use morning and night as an eye cream.

Is this product safe for pregnant or breastfeeding moms?

Yes this product is safe to use while pregnant/breastfeeding.

DAILY REPAIR **CREAM**

glymed+

GM058R

1.69 fl. oz. | 50 mL

Our #1 Moisturizer! This lightweight but deeply hydrating cream repairs photodamaged and environmentally stressed skin while fighting against acne causing bacteria. Packed with healing and repairing botanicals to increase radiance and protect against dryness that causes premature aging.

RECOMMENDED FOR

All skin types. Great for mature, dehydrated, or environmentally challenged skin.

DIRECTIONS

Apply to clean skin, after treatment serums. Gently massage onto face, neck, and décolleté until absorbed. Use both morning and night.

Combination

INGREDIENTS

Agua (Water), Helianthus Annuus (Sunflower) Seed Oil, Vitis Vinifera (Grape) Seed Oil, Glyceryl Stearate, Cetearyl Glucoside, Butyrospermum Parkii (Shea) Butter, Glycerin, Simmondsia Chinensis (Jojoba) Seed Oil, Sorbitol, Calcium Ascorbate (Vitamin C), Potassium Sorbate (Vitamin C), Benzaldehyde, Xanthan Gum, Caprylic Acid, Glycine, Tocopherol (Vitamin E), Alpha Lipoic Acid, Lycopene, Super Oxide Dismutase, Oat Beta Glucan, Panthenol (Vitamin B), Bisabolol, Allium Cepa (Onion) Bulb Extract, Camellia Sinensis (Green Tea) Extract, Squalene, Allantoin, Diazolidinyl Urea, Iodopropynyl Butylcarbamate

KEY INGREDIENTS

Alpha Lipoic Acid: Potent antioxidant that is responsible for energy production in the cells.

Lycopene: Contains antioxidant properties and strengthens the cellular integrity and function.

Green Tea: High antioxidant and anti-inflammatory properties.

Shea Butter: Natural cellular renewal ingredient that has excellent moisturizing and nourishing abilities.

Jojoba: A moisturizing emollient that rapidly penetrates the stratum corneum to provide intense healing and moisture.

Onion Bulb: Antibacterial, antimicrobial, anti-inflammatory, with skin conditioning properties, and powerful antioxidant protection. Reduces scarring when used in higher concentrations.

My skin always feels dry, so I know I need a moisture cream. However, many moisture creams are too heavy for my skin. What can I use in the GlyMed Plus product line?

Daily Repair Cream is one of several creams in the GlyMed Plus line. Like you, everyone has specific preferences with respect to creams and this one is a lighter formula that will not feel heavy to you.

I stayed out in the sun too long and was burned. My Aesthetician told me to use my Daily Repair Cream. I usually just use it for moisturizing at night, what makes it a healing cream?

Like many GlyMed Plus Products, Daily Repair Cream has a multitude of benefits. There are several ingredients in this product that assist in the skin's ability to heal itself from sun exposure to post peeling. These ingredients include shea butter, vitamin E, lycopene, oat beta glucan, and onion bulb extract known to heal blisters and assist in the treatment of scar formation.

I absolutely love the benefits of Daily Repair Cream but sometimes it still feels a little heavy. Do you have any suggestions for making the formula lighter?

A great way to lighten any GlyMed Plus moisturizing cream is to mix it with Ultra Hydro Gel. Not only will Ultra Hydro Gel give it a more lightweight feel, but hyaluronic acid also helps to make the ingredients more effective in the skin.

Is this product safe for pregnant or breastfeeding moms?

Yes this product is safe to use during pregnancy.

VITAMIN C CREAM

GM125R

2.0 fl. oz. | 59 mL

Actively repair and prevent damage in the skin with Vitamin C! This amazing anti-aging cream contains ingredients that promote healing and flexibility, perfect for the dry winter months.

RECOMMENDED FOR

All skin types. Great pre and post-procedure.

DIRECTIONS

Apply to clean skin, after treatment serums. Gently massage onto face, neck, and décolleté until absorbed. Use both dmorning and night

Combination

Hyperpigmentation

INGREDIENTS

Water, Glycerin, Isostearyl Stearoyl Stearate, Isodecyl Neopentanoate, Cetearyl Alcohol, Magnesium Ascorbyl Phosphate, Dimethicone, Glyceryl Stearate, Peg-100 Stearate, C12-15 Alkyl Benzoate, Squalane, Sodium Hyaluronate, Panthenol, Allantoin, Sodium Pca, Yeast Beta Glucan, Super Oxide Dismutase, Ribonucleic Acid. Aloe Barbadensis Leaf Juice, Vitis Vinifera (Grape) Seed Extract, Alchemilla Vulgaris (Lady's Mantle) Extract, Citrus Grandis (Grapefruit) Peel Oil, Prunus Amygdalus Amara (Bitter Almond) Kernel Oil, Tocopheryl Acetate, Retinyl Palmitate, Ascorbic Acid, Phenoxyethanol, Ethylhexylglycerin, Tetrasodium Edta

KEY INGREDIENTS

Vitamin C: A powerful antioxidant and lightener that helps build new collagen fibers. It also boosts skin collagen synthesis and fights hyperpigmentation.

Squalane: Derived from olives, it boosts the skin's ability to retain moisture and promotes skin softening and smoothing.

Bitter Almond: Emollient.

Grapefruit: Antiseptic and anti-irritant.

Grape: Moisturizes the skin and contains antioxidant properties.

Vitamin A Ester: Free radical scavenger. Increases epidermal thickness.

Yeast Beta Glucan: Activates the langerhan cells (immune cells), which will then help heal the skin.

I just had a TCA peel and my skin is peeling excessively. My physician said to use Vitamin C Cream morning and night. Is it okay to increase it? My skin feels much less irritated after I apply it.

Vitamin C Cream is safe enough to use as much as necessary throughout the day to relieve your skin from the irritation, redness and residual heat that you may be experiencing from receiving a TCA peel.

My mother is undergoing cancer therapy and experiencing extreme discomfort in her skin. Is Vitamin C Cream safe for her to use?

Yes. Many cancer survivors and their physicians rave about the difference in traumatized skin after using the Vitamin C Cream.

Is this product safe for pregnant or breastfeeding moms?

Yes, this product is safe to use during pregnancy/breastfeeding.

VITAMIN E CREAM

GM079R

1.69 fl. oz. | 50 mL

Increase skin hydration by 25% with this ultra-nourishing and deeply hydrating cream. Vitamin E and repairing oils reverse the signs of aging while replenishing dry, irritated skin.

RECOMMENDED FOR

All skin types. Great for sun damaged and environmentally stressed skin.

DIRECTIONS

Apply small amount to cleansed skin, after treatment serums. Gently massage onto face, neck, and décolleté until absorbed. Use both morning and night.

INGREDIENTS

Agua (Water), Helianthus Annuus (Sunflower) Seed Oil, Vitis Vinifera (Grape) Seed Oil, Tocopherol (Vitamin E), Glyceryl Stearate, Butyrospermum Parkii (Shea) Butter, Cetearyl Glucoside, Simmondsia Chinensis (Jojoba) Seed Oil, Glycerin, Caprylic Acid, Glycine, Potassium Sorbate (Vitamin C), Rosmarinus Officinalis (Rosemary) Leaf Extract, Xanthan Gum, Diazolidinyl Urea, Iodopropynyl Butylcarbamate

KFY TNGREDTENTS

Vitamin E: Powerful antioxidant and soothing agent that protects skin from the effects of pollutants and free radicals.

Sunflower: Strengthens the skin's natural barrier and moisturizes the skin. It is also a great anti-inflammatory.

Jojoba: A moisturizer and emollient that contributes to the healing of the skin. It reduces trans epidermal water loss (TEWL) without completely blocking the transportation of water vapor and gases, providing the skin with the intercellular lipids to further reduce water loss.

Shea Butter: Natural cellular renewal ingredient that has excellent moisturizing and nourishing abilities.

Grape: Moisturizes the skin and contains antioxidant properties.

How does the product increase hydration by 25%?

Environmental exposure can lead to breakdowns in the skin's natural barriers leading to the potential of up to one pint of water evaporating per day. Vitamin E helps to prevent this breakdown by protecting the valuable lipids responsible for holding water in the skin.

I noticed this contains Sunflower Seed Oil which moisturizes acne-prone skin, will it make me break out?

No, essential oils like Sunflower Seed Oil, do not remain on or penetrate into the skin. They deliver their benefits to the skin and quickly dissipate leaving no residual film. All GlyMed Plus products are non-comedogenic.

I have heard that Vitamin E is helpful in reducing scars. Will it help reduce my stretch marks after having a baby?

Yes, it can. Vitamin E Cream contains many ingredients that will help insure the integrity of the skin after pregnancy or weight loss. Because it is safe for pregnant women, you can begin using it on troubled areas morning and night throughout the pregnancy or during weight loss.

Is this product safe for pregnant or breastfeeding moms?

Yes, this product is safe to use for pregnant/breastfeeding mothers.

BARRIER REPAIR CREAM

 $glymed^*+$

with Amino Acids

GM09ER

4.0 fl. oz. | 118 mL

Barrier Repair Cream with Amino Acids was formulated to mimic the natural barrier of the skin and is the perfect massage and finishing cream to any regimen. This elegant, rich formula infuses the skin with hydrating and moisturizing ingredients to provide a protective barrier from daily damage and seasonal changes.

RECOMMENDED FOR

Frail, thin, dry, menopausal and seasonally affected skin.

DIRECTIONS

Apply to clean skin, after treatment serums. Gently massage onto face, neck, and décolleté until absorbed. Use both morning and night.

INGREDIENTS

Aqua (Water), Echinacea Purpurea (Echinacea) Herb Extract, Equisetum Arvense (Horsetail) Extract, Olea Europaea (Olive) Leaf Extract, Spirulina Platensis (Algae) Extract, Helianthus Annuus (Sunflower) Oil, Vitis Vinifera (Grape) Seed Oil, Ceramide 1, Ceramide 3, Ceramide 6, Cholesterol, Phytosphingosine, Glyceryl Stearate, Butyrospermum Parkii (Shea) Butter, Cetearyl Glucoside, PC10 Complex, Olea Europaea (Olive) Oil, Simmondsia Chinensis (Jojoba) Oil, Squalene, Glycerin, Caprylic Acid, Glycine, Bulgarian Rosa Damascena (Rose) Oil, Xanthan Gum, Tocopherol (Vitamin E) lodopropynyl Butylcarbamate

Amino

Ceramides

KEY INGREDIENTS

PC10 Complex: GlyMed Plus' own PC10 Amino Acid Complex contains powerful amino acid complexes, natural antioxidants, and pharmaceutical grade botanicals to help correct the damage from free radical injury and combat inflammation.

lvmed-

Horsetail: Accelerates the healing process and is rich in silica and other minerals needed to rebuild tissues. Possesses antibacterial and anti-inflammatory properties.

Algae: Contains an abundance of minerals and proteins and has a high antioxidant content. Increases hydration and normalization of the skin, reduces inflammation, and increases detoxification.

Ceramides 1, 3, & 6: Skin identical ceramides that improve intercellular lipids and plays an important role in the regulation of skin-water barrier homeostasis and water-holding capacity. Topical application of ceramide 3 has been shown to significantly increase skin water content, reduce roughness, restore damaged skin, and protect healthy skin.

My skin gets so dry and itchy during the winter months. Can this help?

Yes, this semi-occlusive cream helps to protect and re-create the skin's natural barrier, reducing irritation, dryness, and itching. It will also add moisture to the skin reducing dry, dehydrated skin.

Can I use this during my post peel care?

Yes, in fact this is an excellent post procedural moisturizer and protector.

Is this product safe for pregnant or breastfeeding moms?

Yes. This product contains healing ingredients safe for pregnancy.

COMFORT CREAM

glymed+

with Aloe Vera

GM056R

2.0 fl. oz. | 59 mL

Comfort Cream immediately calms upset and irritated skin caused by waxing, permanent makeup, peels, extractions, facial steam, chemicals, medications, strong clinical products, sun exposure, insect bites and more. Fortified with pure concentrated aloe vera to hydrate, soothe, protect, and heal the skin.

RECOMMENDED FOR

All skin types. Great for skin irritation and rashes such as Eczema, Psoriasis, Dermatitis, bug bites, poison ivy, topical allergies, any itching of the skin.

Skin

Inflamed Skin

DIRECTIONS

Apply on any skin irritation or inflammation. Repeat as often as needed. Can be used daily.

INGREDIENTS

200% Aloe Barbadensis (Aloe Vera) Leaf Juice, Petrolatum, Squalane, Glycerin, Cetyl Alcohol, Glyceryl Stearate, PEG-100 Stearate, Hyaluronic Acid, Tetrahydrodiferuloylmethane, Arbutin, Glycyrrhiza Glabra (Licorice) Root Extract. Anthemis Nobilis (Chamomile) Flower Extract, Calendula Officinalis Flower Extract, Propyl Gallate, Gallyl Glucoside, Epigallocatechin Gallatyl Glucoside (Green Tea, Allantoin, Aqua (Water), Carbomer, Phenoxyethanol, Ethylhexylglycerin, Sodium Hydroxide

KEY INGREDIENTS

Aloe Vera: A potent healer. Provides a protective layer that inhibits infection and soothes the skin. Is both hydrating and gentle. Suitable for all skin types.

Squalane: Boosts skin's ability to retain moiture, which will enhance the skin's natural barrier function.

Chamomile: Anti-inflammatory and antibacterial.

Arbutin: Tyrosinase inhibitor to avoid post-inflammatory hyperpigmentation.

Hyaluronic Acid: Increases water content and helps assist against transepidermal water loss. It can hold up to 1000 times its weight in water.

Calendula: Cleansing and astringent properties that sooth, calm, and heal the skin.

My Aesthetician gave me Comfort Cream to use two to three days after waxing. Can this product replace my drugstore brand?

Of course! GlyMed Plus Comfort Cream should be part of any home first aid kit. It is appropriate for use on bites, sunburns, rashes, and more.

Comfort Cream contains 200% Aloe Vera, What does that mean?

GlyMed Plus Comfort Cream is a 2:1 concentration of Aloe Vera: Most skincare products contain a 1:1 concentration. This provides for a potent formulation of Aloe Vera that exceeds all other skin care products containing Aloe Vera.

I am African American and my Aesthetician strongly recommended Comfort Cream for me to use after hair removal. Why?

Comfort Cream is used by many skin care professionals after waxing to reduce the redness and discomfort of the procedure. Although many hair removal procedures may appear harmless, several of them incorporate methods that exfoliate the skin. Individuals with skin of color run a higher risk of hyperpigmenting (darkening) after the treatment. Comfort Cream also contains an ingredient, arbutin, which helps to reduce this risk as well as reduce the formation of 'liver spots', which tend to develop in aging skin. When used regularly it may even help to eliminate existing spots.

Is this product safe for pregnant or breastfeeding moms?

Yes this product is safe to use during pregnancy.

RECOVERY CREAM

glymed+

with Arnica

GM067R

2.0 fl. oz. I 59 mL

Enhance the skin's natural defense system against acne, inflammation, bruises and swelling with Arnica+ Healing Cream. This healing formula contains active Arnica Extract and nourishing shea butter to repair and protect skin.

RECOMMENDED FOR

All skin types. Great for chemical burns, inflammation, bruising, and swelling of the skin.

DIRECTIONS

Apply on any skin irritation or inflammation. Repeat as often as needed. Can be used daily.

INGREDIENTS

Agua (Water), Helianthus Annuus (Sunflower) Seed Oil, Arnica Montana Flower Extract, Glyceryl Stearate, Butyrospermum Parkii (Shea) Butter, Glycerin, Vitis Vinifera (Grape) Seed Oil, Cetearyl Glucoside, Tocopheryl (Vitamin E), Simmondsia Chinensis (Jojoba) Seed Oil, Malva Sylvestris (Mallow) Extract, Mentha Piperita (Peppermint) Leaf Extract, Oenothera Biennis (Evening Primrose) Flower Extract, Alchemilla Vulgaris (Lady's Mantle) Extract, Veronica Officinalis (Speedwell) Extract, Melissa Officinalis (Balm) Leaf Extract, Achillea Millefolium (Yarrow) Extract, Avena Sativa (Oat) Kernel Extract, Xanthan Gum, Borago Officinalis (Borage) Oil, Glycine, Retinyl Palmitate (Vitamin A Ester), Magnesium Ascorbyl Phosphate (Vitamin C), Cetearyl Alcohol, Phenoxyethanol, Caprylyl Glycol, Chlorphenesin

Compromised Skin

Arnica

KEY INGREDIENTS

Arnica Montana: It is antiseptic, astringent, antimicrobial, anti-inflammatory, anticoagulant, and it stimulates circulation and promotes healing.

Sunflower: Softens the skin and helps retain moisture. Easily penetrates the skin without leaving an oily film. Forms a natural barrier over the skin, protecting it form bacteria. Very hydrating and one of the least comedogenic oils.

Shea Butter: Protects the skin from dehydration and external aggressions due to harsh climate, and is attributed with anti-inflammatory activity. Restores suppleness and increases moisture in the skin.

Jojoba: An emollient that provides intense healing and moisture.

Vitamin A: Free radical scavenger. Increases epidermal thickness.

How soon can I use Recovery Cream with Arnica post surgery?

Arnica should not be applied directly on an open wound. Wait until the incision is closed to begin application.

Will Recovery Cream with Arnica help reduce bruising?

Yes. Bruises are a result of an injury that causes a break in tiny blood vessels in the skin. As the blood vessels or capillaries leak into the surrounding tissue and as red blood cells gather, a discoloration appears. Bruising may start as a red-purple injury and then become green or yellow as the body works to heal the area. Certain constituents in arnica decrease the permeability of the blood vessels and break up the coagulation.

Is Recovery Cream with Arnica safe for children?

Yes, Recovery Cream with Arnica can be used safely on all children.

Is this product safe for pregnant or breastfeeding moms?

No, Arnica should not be used by pregnant or breastfeeding mothers unelss directed by a physician.

CELL PROTECTION BALM

GM088R

2.0 fl. oz. | 59 mL

This all-purpose balm is the perfect skin shield for after procedures, as well as healing dry or itchy skin, chapped lips, or skin irritation (rashes, scrapes, insect bites, and small burns). Infused with soothing botanicals to speed healing of the skin.

RECOMMENDED FOR

All skin types. Great post-procedure, for extra dry, itchy skin, chapped lips, or skin irritations such as bug bites, rashes, scrapes, and small burns.

DIRECTIONS

Apply over serums and moisturizers. Can be used morning and night. Re-apply as needed.

INGREDIENTS

Petrolatum, Squalane, Saccharomyces Ferment Lysate Filtrate/ Extract. Butvrospermum Parkii (Shea) Butter, Retinyl Palmitate (Vitamin A Ester), Tocopheryl Acetate (Vitamin E Acetate), Panthenol (Vitamin B), Bisabolol, Yeast Beta Glucan, Citrus Grandis (Grapefruit) Peel Oil, Citrus Aurantium Dulcis (Orange) Peel Oil, Pelargonium Graveolens (Geranium) Oil, Rosmarinus Officinalis (Rosemary) Oil, Phenoxyethanol

KFY TNGREDTENTS

Bisabolol: Is a natural anti-inflammatory and antibacterial ingredient that is obtained from chamomile. Helps accelerate the healing process of the skin and can be used on sensitive skin.

Shea Butter: A skin conditioning ingredient that is well known for its moisturizing, protecting, and healing properties. Soothes damaged skin, promotes cell regeneration, and assists in circulation.

Vitamin B: This anti-inflammatory promotes wound healing and is a skin moisturizer.

Petrolatum: Helps prevent moisture loss and forms an occlusive barrier on the skin to assist in recovery from damage and reduce inflammation.

Yeast Beta Glucan: Moisturizing, nourishing, and healing.

Vitamin A Ester: Free radical scavenger. Increases epidermal thickness.

I noticed that the first ingredient in Cell Protection Balm is Petrolatum. Will it make me break out?

No, Petrolatum is a non comedogenic and biologically inert, meaning that it cannot harbor bacteria. In addition, GlyMed Plus always incorporates the highest grade of ingredients in all skin care products.

My skin care professional gave me Cell Protection Balm to use after a chemical peel, what is the benefit?

After an injury to your skin, including a chemical peel, the skin goes into a healing phase. Studies indicate that the skin will heal more efficiently and effectively when it is in an aqueous state. Cell Protection Balm creates a barrier on newly peeled skin, protecting and maintaining water levels within the skin to allow better healing.

Can Cell Protection Balm help my psoriasis?

Yes, first apply Cell Protection Balm to reintroduce essential skin lipids, then follow with Ultra Hydro Gel to restore water content and finish with Cell Protection Balm to seal the skin.

Is this product safe for pregnant or breastfeeding moms?

Yes this product is safe to use during pregnancy/nursing. In fact, this healing balm is preferred by nursing mothers to treat irritation brought on by breastfeeding and is safe for consumption.

EYE CALM

$glymed^*+$

GM065R

0.3 fl. oz. | 10 mL

Eye Calm contains a blend of natural botanicals with potent antioxidants that gently tighten and firm around the eyes. Copper peptides assist in the reduction of dark circles and promote the healing of this delicate area.

RECOMMENDED FOR

All skin types. Great for dark circles and puffiness around the eye area.

DIRECTIONS

Dispense a small amount and gently pat onto the entire eye area. Can be used morning and night.

glymed-

EYE CALM

- **⊕** ⊃eptides

Antioxidants

INGREDIENTS

Water, Glyceryl Stearate, Helianthus Annuus (Sunflower) Seed Oil, Cetearyl Glucoside, Cetearyl Alcohol, Simmondsia Chinensis (Jojoba) Seed Oil, Glycerin, Butyrospermum Parkii (Shea) Butter, Sodium Hyaluronate, Phospholipids, Caprylic/capric Triglyceride, Glycine, Potassium Sorbate, Thioctic Acid, Camellia Sinensis (Green Tea) Leaf Extract, Echinacea Angustifolia Extract, Vanilla Planifolia Fruit Extract, Tocopheryl Acetate, Retinyl Palmitate, Ascorbyl Palmitate, Xanthan Gum, Phenoxyethanol, Ethylhexylglycerin

KEY INGREDIENTS

Green Tea: Powerful antioxidant Protects cells from free radicals and their associated damage. An antibacterial, anti-inflammatory, and has the capabilities to extend the effects of SPF.

Hyaluronic Acid: Naturally occurring in our skin, it plays a critical role in controlling the physical and biochemical characteristics of epidermal cells. It regulates skin activity, including water content, elasticity, and the distribution of nutrients to the cells. It can hold 1000x its weight in water and similarly locks water in the skin.

Copper Peptide: A combination of copper and 3 amino acids that rejuvenates skin cells in aging tissue, boosting the production of collagen and elastin, and improves the skin's moisture-holding capacity.

Echinacea: Strong Antioxidant rich in vitamins. Promotes skin rejuvenation and increases collagen production.

Sunflower: Softens the skin and helps to retain moisture. Forms a natural barrier over skin, protecting it from bacteria. Very nourishing and can regenerate dry, damaged, and sensitive skin.

Will Eye Calm help to reduce my early morning puffiness?

Yes, Eye Calm contains anti inflammatory ingredients that reduce puffiness. For added relief, keep Eye Calm in the refrigerator and apply cold.

Can I safely use Eye Calm all around my eye area?

Yes, Eye Calm does not contain any ingredients that would jeopardize the thin area around the eyes. Eye Calm can also be applied to the eye lid.

Is this product safe for pregnant or breastfeeding moms?

Yes this product contains ingredients safe for pregnant/breastfeeding mothers.

CBD REGENERATIVE glymed+ EYE CREAM

GM401R

0.3 fl. oz. | 10 mL

This moisture-rich eye cream is the perfect touch to balance under the eyes. Its lightweight texture allows for fast absorption and sits beautifully under makeup.

RECOMMENDED FOR

All skin types. Preventative, wrinkles and fine lines, lift and firm, dryness and dark circles.

DIRECTIONS

Dispense a small amount and gently pat onto the entire eye area. Can be used morning and night.

INGREDIENTS

Water, Glycerin, caprylic/capric triglyceride, cetyl alcohol, stearic acid, cetearyl alcohol, coco-caprylate/caprate, Dimethicone, pentylene glycol, Propanediol, Ceteareth-20, sodium hyaluronate, palmitoyl tripeptide-5, palmitoyl dipeptide-5 diaminobutyroyl hydroxythreonine, Panthenol, Allantoin, soluble collagen, Xylitylglucoside, Squalane, Anhydroxylitol - fermented wheat, Xylitol, tetradecyl aminobutyroylvalylaminobutyric urea Trifluoroacetate, glycyrrhiza glabra (licorice) root extract, euphrasia officinalis (eyebright) extract, arctostaphylos uva-ursi-leaf (bearberry) extract, epilobium angustifolium flower/leaf/stem extract, paullinia cupana (guarana) extract, camellia sinensis (green tea) leaf extract, undaria pinnatifida extract, corallina officinalis extract, butyrospermum parkii (shea) butter, cannabis sativa seed (CBD) oil, brassica campestris seed oil, citrus aurantium dulcis (orange) peel oil, linum usitatissimum seed oil, Tocopherol, tetrahexyldecyl ascorbate, magnesium ascorbyl phosphate, xanthan gum, Carbomer, Phenoxyethanol, Ethylhexylglycerin, sodium hy-

KEY INGREDIENTS

CBD: Grown in the USA, Derived from HEMP and is considered one of the strongest antioxidants, even stronger than Vitamin C&E, and recognized for its incredible anti-aging effects in the skin.

Palmitoyl Dipeptide-5 Diaminobutyroyl Hydroxythreonine: Anti-aging peptide cocktail that stimulates the proteins of the Dermal-epidermal junction (DEJ) including laminin, collagen, integrin and provides strength.

Vitamin C: A powerful antioxidant used to fight free radicals and prevent premature aging caused by MMPs and UV exposure while also tightening the skin.

Licorice & Bearberry: Tyrosinase inhibitors that brighten and lighten the under eye.

Will CBD get you high?

No, CBD is a different strand from THC. THC is the chemical compound that is responsible for psychoactive effects. CBD is derived from HEMP and is an antioxidant that has NO Psychoactive compounds—it's strictly healing.

What is the difference between HEMP and Marijuana products?

In December of 2018, the Farm Act of 2018 was signed into law and this law included a revised definition of "marijuana products." Under the revised definition, products with low to no THC content (less than 0.3%) were excluded from the definition of marijuana products. There have been many studies and there are many more studies underway that are measuring the benefits of CBD and other hemp-related ingredients. Our CBD products have all been independently certified to be hemp-based products and NOT marijuana products.

Is this safe for pregnant and breastfeeding mothers?

Please consult with your physician regarding using CBD for expecting or breastfeeding mothers.

FIRMING EYE **CREAM**

glymed+

GM13ER

0.3 fl. oz. I 10 mL

An intensely hydrating, lifting, and firming eye treatment that delivers clinically proven, anti-aging results. Packed with protective botanicals, antioxidants, vitamins, and potent Ceramides to reduce the appearance of fine lines and wrinkles while firming the delicate skin around the eye.

RECOMMENDED FOR

All skin types. Especially great for dry/ dehydrated, fine lines/wrinkles, and sagging skin.

DIRECTIONS

Dispense a small amount and gently pat onto the entire eye area. Can be used morning and night.

INGREDIENTS

Aqua (Water), Acetyl Hexapeptide-6, Caprylic/Capric Triglyceride, Cetearyl Glucoside, Glyceryl Stearate, Cetearyl Alcohol, Cetearth-20, Dipalmitoyl Hydroxyproline, Ceramide 3, Ceramide 2, Ceramide 1, Phytosphingosine, Hydrolyzed Rice Protein, Glycine Soja (Soybean) Protein, Serine, Proline, Spirulina Platensis (Algae) Extract, Butyrospermum Parkii (Shea) Butter, Simmondsia Chinensis (Jojoba) Oil, Tetrahexyldecyl Ascorbate (Vitamin C), Xanthan Gum, Tocopherol (Vitamin E), Sodium Hyaluronate, Malva Sylvestris (Mallow) Extract, Mentha Piperita (Peppermint) Leaf Extract, Primula Veris (Primrose) Extract, Alchemilla Vulgaris (Lady's Mantle) Extract, Veronica Officinalis (Speedwell) Extract, Melissa Officinalis (Balm) Leaf Extract, Achillea Millefolium (Yarrow) Extract, Caprylic Acid, Camellia Sinensis (Green Tea) Leaf Extract, Retinyl Palmitate (Vitamin A Ester), Rosa Damascena (Rose) Oil, Olea Europaea (Olive) Polyphenols, Red Wine Polyphenols, Glycine, Potassium Sorbate (Vitamin C)

Fine Lines

Peptides

KEY INGREDIENTS

Aceytl Hexapeptide-6: Powerful neuro-peptide that works to reduce the intensity of facial expressions, thus lessening wrinkle depth.

Ceramides 1, 2, & 3: Improve intercellular lipids and play an important part in the regulation of skin water barrier homeostasis and water-holding-capacity. Plays a key role in the establishment of the stratum corneum barrier function, preventing TEWL.

Vitamins A, C, & E: Incredibly healing and hydrating. Fights free radical damage and pigmentation.

Jojoba: An emollient that provides intense healing and moisture.

Primrose: Reduces inflammation and has natural skin lightening properties.

Green Tea: High in antioxidants, effective antibacterial and anti-inflammatory agent.

Shea Butter: Excellent moisturizing and nourishing abilities.

Will this help with dark circles and puffy eyes?

Although this amazing eye cream will decrease puffiness via its firming properties, its focus is to provide potent peptides and ceramides to reduce the appearance of fine lines and wrinkles.

Can I apply this cream on my eyelids?

This eye cream can be safely applied all the way around the delicate eye area. However, it is never recommended to apply any cosmetic preparations to the lower eye lid.

Is this product safe for pregnant or breastfeeding moms?

Yes, this product is safe for pregnant or breastfeeding moms.

LIP ENHANCER

glymed+

with Warming Actives

GM82ER

0.3 fl. oz. | 10 mL

This lip treatment is packed with moisturizing emollients and powerful peptides to diminish fine lines to support a youthful and smooth lip line border. Natural and safe plumping ingredients give the lips a fuller appearance instantly.

RECOMMENDED FOR

All skin types. Great for rosacea, inflammation, distended capillaries, and dark circles.

DIRECTIONS

Apply a small amount to the lips and lip contour area with light massaging motions. Use daily or as needed.

Peptides

INGREDIENTS

Aqua (Water), Helianthus Annuus (Sunflower) Seed Oil, Xylitol, Glycerin, Glyceryl Stearate, Vitis Vinifera (Grape) Seed Oil, Theobroma Cacao (Cocoa) Seed Butter, Cetearyl Glucoside, Acetyl Hexapeptide-3 Caprylic Acid, Glycine, Butyrospermum Parkii (Shea) Butter, Hydroxyproline, Tocopherol (Vitamin E), Xanthan Gum, Mentha Piperita (Peppermint) Leaf Oil, Methyl Nicotinate

KEY INGREDIENTS

Methyl Nicotinate: A potent vasodilator. It is used to stimulate the lips to produce the plumping effect.

Acetyl Hexapeptide-3: A naturally derived peptide with wrinkle relaxing abilities. Temporarily limits the overproduction and release of neurotransmitters that initiate and control the intensity of facial muscle contractions.

Peppermint: A natural plant oil that cools, invigorates, and stimulates the skin.

Shea Butter: Soothes damaged skin, promotes cell regeneration, and assists in circulation.

Cocoa Butter: Abundant in Vitamins E and B. It contains glycerides that deliver moisturizing lipids and fats which plump and firm, help soothe sensitivities, and protect skin from environmental damage.

Vitamin E: Powerful antioxidant and soothing agent that protects skin from the effects of pollutants and free radicals.

I feel tingling on my lips when I apply this product. Does that mean I am sensitive to it?

No, that tingling you feel comes from stimulating peppermint and methyl nicotinate, the ingredient responsible for the plumping activity.

My skin care professional offered me a "lip plumping" treatment incorporating her DermaSound Elite for an event I was attending. How long does this treatment last?

It is great that your Aesthetician is offering this non-invasive treatment as an add on option. By incorporating the ultrasonic technology with the Lip Enhancer with Warming Actives, you will have a greater penetration of the product. In addition, by incorporating micro-current with Ultra Hydro Gel you will receive the benefit of topical hyaluronic acid, a common ingredient in many surgical fillers. This treatment usually lasts two to three days.

I love the Lip Enhancer with Warming Actives to use during the day to keep my lips plumped, does GlyMed Plus have a product that I can use to keep them moist during the night?

We recommend Cell Protection Balm to apply at night or anytime your lips are feeling chapped or dry.

Is this product safe for pregnant or breastfeeding moms?

Yes, this product is safe for pregnant/breastfeeding mothers.

HYDRATING LIP BALM

GM035R

0.5 fl. oz. | 15 mL

This incredibly moisturizing and healing lip balm is the perfect weapon against dry, cracked lips! Calm and soothe dry, irritated lips with healing botanicals while peppermint and spearmint leave you feeling cool and minty fresh. Hydrating Lip Balm glides on smoothly for the perfect soothing and anti-aging lip solution to keep lips plump and youthful.

All skin types and all skin conditions.

DIRECTIONS

Apply lip balm as often as needed to heal, hydrate, and sooth dry cracked lips. The perfect little weapon to keep in your purse to use throughout the day.

INGREDIENTS

Petrolatum, Hydrogenated Polyisobutene, Jojoba Esters, Beeswax. Helianthus Annuus (Sunflower) Seed Oil, Butyrospermum Parkii (Shea) Butter, Mentha Piperita (Peppermint) Oil, Olea Europaea (Olive) Fruit Oil, Vitis Vinifera (Grape) Seed Oil, Persea Gratissima (Avocado) Oil, Mentha Viridis (Spearmint) Leaf Oil, Tocopheryl Acetate (Vitamin E Acetate), Ethylene/Propylene/ Styrene Copolymer, Butylene/ Ethylene/Styrene Copolymer

KEY INGREDIENTS

Jojoba: A moisturizing emollient that rapidly penetrates the stratum corneum to provide intense healing and moisture.

Sunflower: High in linoleic acid which softens the skin and helps to retain moisture.

Avocado: A strong antioxidant that is rich in vitamins A, B1, B2, D, and E to promote skin rejuvenation and increase collagen production.

Shea Butter: Restores suppleness, increases moisture in the skin, and improves the appearance of dry, irritated skin.

Spearmint: Skin conditioner.

Grape: A natural plant oil that cools, invigorates, and stimulates the skin.

Can you use Hydrating Lip Balm on lips that are very chapped and cracked?

Yes, that is what it is designed for. It has been formulated to not only moisturize the lips but to also help heal and sooth the lips.

Does this Lip Balm plump the lips?

Yes, it contains Peppermint oil which will give the lips a slight plump effect.

Are there any restrictions on who can use Hydrating Lip Balm?

No, absolutely everyone can use the lip balm. It is soothing and hydrating and will help everyone's lips to feel and look their best.

Is this product safe for pregnant or breastfeeding moms?

Yes, this product is safe to use during pregnancy.

HYDRATING PROTECTION GEL

with SPF 15

GM123R

4.0 fl. oz. | 118 mL

Protect and moisturize your skin with this FDA tested and approved, ultra-light, water-based UVA/UVB broad-spectrum formula. This SPF 15 integrates the power of professional-grade ingredients to immediately deliver antioxidants, providing anti-aging benefits to protect skin from free radical damage.

RECOMMENDED FOR

All skin types and all skin conditions.

DIRECTIONS

Dispense and apply to face, neck, décolleté and any other areas exposed to UV rays. Reapply every two hours as needed for maximum protection.

INGREDIENTS

Active Ingredients:

Octinoxate 7.5% Oxybenzone 2.0% Titanium Dioxide 1.0%

Inactive Ingredients: Aqua (Water), C13-14 Isoparaffin, Calendula Officinalis Flower Extract, Camellia Oleifera (Green Tea) Leaf Extract, Caprylyl Glycol, Carbomer, Chamomilla Recutita (Chamomile) Flower Extract, Chlorphenesin, Cyanocobalamin, Cyclohexasiloxane, Cyclopentasiloxane, Fragrance, Glycerin, Glyceryl Stearate, Laureth-7, Lecithin, PEG-100 Stearate, Phenoxyethanol, Polyacrylamide, Sodium Hydroxide, Stearyl Triethoxysilane, Xanthan Gum

Sensitive

Chemical + Physical Protectors

Anti Agin

KEY INGREDIENTS

Octinoxate: UVB Blocker.

Oxybenzone: Absorbs UVB and UVA rays.

Titanium Dioxide: A physical blocker that helps block both UVA and UVB wavelengths of light.

Green Tea: Powerful antioxidant. Protects cells from free radicals and their associated damage. Also an antibacterial, anti-inflammatory.

Chamomile: Contains 30 different active compounds that have anti-inflammatory properties. Capable of inducing collagen synthesis.

Is this product safe for babies and children?

Yes, Hydrating Protection Gel with SPF 15 can be used safely on all skin. It is a great way to prevent vulnerable skin from sunburns.

How often I should apply my sunscreen throughout the day?

SPF (Sun Protection Factor) should be applied at least every 2 hours when spending time outside. It's recommended that you apply SPF 20 minutes before going outside.

I don't use sunscreen because they feel too heavy on my skin and I am prone to breakouts. Can this product help me?

Hydrating Protection Gel with SPF 15 is a top selling GlyMed Plus product because it is lightweight and does not leave a heavy feeling on the skin. Since it was originally developed for individuals with acne, it is the best choice for acne/oily prone skin.

Is this product safe for pregnant or breastfeeding moms?

Yes, during pregnancy your skin will be more susceptible to hyperpigmentation. A professional grade SPF is highly recommended.

HYDRATING PROTECTION GEL

with SPF 30 / PA+

GM122R

4.0 fl. oz. | 118 mL

Protect and moisturize your skin with this FDA tested and approved, ultra-light, water-based UVA/UVB broad-spectrum formula. This SPF 30 integrates the power of professional-grade ingredients to immediately deliver antioxidants, providing anti-aging benefits to protect skin from free radical damage.

RECOMMENDED FOR

All skin types and all skin conditions.

DIRECTIONS

Final Step in regimen. Apply to the face, neck, décolleté and any other areas exposed to UV Rays. Reapply every two hours as needed for maximum protection.

Sensitive

+ Physical Protectors

INGREDIENTS

Active Ingredients:

Octinoxate 7.5% Octisalate 5.0% Octocrylene 5.0% Titanium Dioxide 2.0% Oxybenzone 1.0%

Inactive Ingredients: Aqua (Water), Glycerin, Potassium Cetyl Phosphate, Polyacrylamide, Aluminum Starch Octenylsuccinate, Phenoxyethanol, PEG-40 Hydrogenated Castor Oil, Fragrance, Cyclopentasiloxane, Cyanocobalamin, C13-14 Isoparaffin, Cyclohexasiloxane, Caprylyl Glycol, Carbomer, Chlorphenesin, Laureth-7, Camellia Sinensis (Green Tea) Leaf Extract, Kaempferia Galanga (Ginger) Root Extract, Sodium Hydroxide, Stearyl Triethoxysilane

KEY INGREDIENTS

Octinoxate: One of the most frequently used chemical UV filters worldwide.

Oxybenzone: A topical sunscreen that absorbs both UVA and UVB radiation.

Titanium Dioxide: Naturally occurring mineral used in sunscreens as a physical blocker.

Octisalate: Organic compound used as an ingredient in sunscreens and cosmetics to absorb the full range of UV radiation.

Octocrylene: Organic compound and ester used in sunscreens because of its ability to absorb UVb and short-wave UVA rays and to protect the skin from direct DNA damage.

Is this product safe for babies and children?

Yes, Hydrating Protection Gel with SPF 30 can be used safely on all skin. It is a great way to prevent vulnerable skin from sunburns.

How often I should apply my sunscreen throughout the day?

MOISTURIZING PROTECTION CREAM

with SPF 15

GM005R

2.0 fl. oz. | 59 mL

An anti-aging moisturizer that incorporates FDA-approved broad-spectrum SPF and hydrating skin protectants. This amazing multitasker is a sunscreen and moisturizer, making it the perfect cream for those who demand simplicity and results without the fuss.

RECOMMENDED FOR

All skin types and all skin conditions.

DIRECTIONS

Dispense and apply to face, neck, décolleté and any other areas exposed to UV rays. Reapply every two hours as needed for maximum protection.

INGREDIENTS

Active Ingredients:

Octinoxate 7.5% Oxvbenzone 4.0% Avobenzone 1.5%

Inactive Ingredients: Aqua (Water), Butyloctyl Salicylate, Glycerin, Glyceryl Stearate, Isodecyl Neopentanoate, Cetyl Alcohol, Dimethicone, Isostearyl Stearoyl Stearate, Potassium Cetyl Phosphate, Caprylyl Glycol, Phenoxyethanol, Squalane, Stearic Acid, Carbomer, Ethylhexylglycerin, Farnesyl Acetate, Tetrasodium EDTA, Tocopheryl Acetate (Vitamin E Acetate), Farnesol, Sodium Hydroxide, Panthenyl Triacetate (Vitamin B), Sodium Hyaluronate, BHT, Retinyl Palmitate (Vitamin A Ester)

KEY INGREDIENTS

Avobenzone: Chemical protectant because it absorbs UV rays over a wide wavelength and then corrects them to less damaging infared radiation.

Octinoxate: Frequently used as a chemical UV filter.

Oxybenzone: A topical sunscreen that absorbs both UVA and UVb radiation.

Squalane: Derived from olives and works as an antioxidant, promotes cell growth, moisturizes the skin, and has antibacterial properties.

Vitamin B: This anti-inflammatory promotes wound healing and is a skin moisturizer.

I never seem to have enough time to complete my recommended morning skin care routine. Any suggestions?

Continuing your skin care at home is the most important way for you to attain the skin you want. GlyMed Plus home care regimens are based on working in unity with the skin cells. Night time products focus on treatment and repair while daytime is about hydration and protection. Moisturizing Protection Cream with SPF 15 can play a dual role of both a moisturizer and sunscreen.

How often should I apply my sunscreen throughout the day?

Sunscreen should be applied 20 minutes before UV exposure and reapplied every 2 hours if spending time outside.

Is this product safe for pregnant or breastfeeding moms?

Yes this product is safe to use during pregnancy.

MOISTURIZING PROTECTION CREAM

with SPF 30

GM138R

2.0 fl. oz. | 59 mL

An anti-aging moisturizer that incorporates FDA-approved broad-spectrum SPF and hydrating skin protectants. This amazing multitasker is a sunscreen and moisturizer, making it the perfect cream for those who demand simplicity and results without the fuss.

RECOMMENDED FOR

All skin types. Great pre and post procedure, dry, dehydrated, photo-aged, and damaged skin.

DIRECTIONS

Dispense and apply to face, neck, décolleté and any other areas exposed to UV rays. Reapply every two hours as needed for maximum protection.

INGREDIENTS

Active Ingredients:

Octinoxate 7.5% Titanium Dioxide 6.0% Octisalate 5.0% Octocrylene 1.5% Oxvbenzone 1.0%

Inactive Ingredients: Aqua (Water), Cyclopentasiloxane, Glycerin, Cetyl Alcohol, C12-15 Alkyl Benzoate, Potassium Cetyl Phosphate, Stearic Acid, Dimethicone, Cetyl Dimethicone, Caprylyl Methicone, Alumina, Aluminum Starch Octenylsuccinate, Glyceryl Stearate, PEG-100 Stearate, VP/Eicosene Copolymer, Hydrogenated Vegetable Oil, Triethoxysilylethyl Polydimethylsiloxyethyl Hexyl Dimethicone, PEG-40 Hydrogenated Castor Oil, Lauryl PEG-9 Polydimethylsiloxyethyl Dimethicone, Boron Nitride, Caprylyl Glycol, Lecithin, Phenoxyethanol, Squalane, Carbomer, Polyhydroxystearic Acid, Chlorphenesin, Citrus Aurantium Dulcis (Orange) Peel Oil, Carrageenan (Irish Moss), Hexylene Glycol, Sodium Hydroxide, Carica Papaya (Papaya) Fruit Extract, Disodium EDTA, Tocopheryl Acetate (Vitamin E Acetate), Vitis Vinifera (Grape) Seed Extract, Sodium Hyaluronate, Ceramide NG, Camellia Sinensis (Green Tea) Leaf Extract, Retinyl Palmitate (Vitamin A Ester), Ascorbyl Palmitate (Vitamin C Ester)

Compromised

Chemical + Physical Protectors

KEY INGREDIENTS

Titanium Dioxide: Physical UV blocker, helps block both UVA and UVB wavelengths of light.

Sodium Hyaluronate: A highly effective moisturizer that can hold more than 1000x its own weight in water.

Ceramide 2: Ceramides are a family of lipid compounds that occur naturally in skin cells and are therefore natural components of human skin. Ceramides are a very important part of a healthy skin barrier which reduces infrction and helps to lock in vital nutrients. Reduction in the amount of ceramides may result in dry skin, dermatitis or wrinkles. Ceramide 2 has a substantial water-binding capacity and therefore helps to maintain moisture levels in the skin.

My skin looks white when I first apply this product, is there something wrong?

No, Moisturizing Protection Cream with SPF 30 contains titanium dioxide, a physical sun protection ingredient. Titanium dioxide leaves a temporary whiteness on the skin that will quickly dissipate as it warms to body temperature. The good news is that you will know where you applied and did not apply the product. This will help ensure you have covered all exposed areas.

Does SPF 30+ mean I don't have to reapply?

No, SPF factors are based on individual genetic background meaning lighter skin applies more frequently than dark skin. Higher SPF (Sun Protection Factor) means you can extend your exposure time before reapplication.

Can I also use Moisturizing Protection Cream with SPF 30 as my moisturizer?

Many individuals love the fact that they can save a step with this product. In addition to the sun protection ingredients, it includes many hydrating ingredients, making it a very luxurious daytime moisturizer.

How often I should apply sunscreen throughout the day?

Sunscreen should be applied 20 minutes before UV exposure and reapplied every 2 hours if spending time outside.

REFINING BODY **SCRUB**

glymed+

with Alpha Hydroxy Acids

GM087R

8.0 fl. oz. | 236 mL

This exfoliating scrub is excellent for dry and rough skin around the elbows, knees, legs, and feet. A tingling blend of natural essential oils and botanicals produces a visible and textural change after one use! Perfect for prepping the skin for a spray tan or body treatment.

RECOMMENDED FOR

All skin types and all skin conditions.

DIRECTIONS

Dispense and emulsify with water to create foam. Apply to body using circular motions. Can be used in the shower or as a dry rub before body treatments. Can be used daily or as needed.

INGREDIENTS

Aqua (Water), Ammonium Laureth Sulfate, Cocamidopropyl Betaine, Polylactic Acid, Polysorbate 80, Jojoba Esters, Prunus Armeniaca (Apricot) Seed Powder, Luffa Cylindrica Fruit, Lactic Acid, Aloe Barbadensis (Aloe Vera) Leaf Juice, Anthemis Nobilis (Chamomile) Flower Extract, Glycolic Acid, Malic Acid, Mentha Viridis (Spearmint) Leaf Oil, Mentha Piperita (Peppermint) Leaf Oil, Eugenia Caryophyllus (Clove) Flower Oil, Zingiber Officinale (Ginger) Root Oil, Prunus Amygdalus Dulcis (Sweet Almond) Oil, Salix Alba (Willow) Bark Extract, Pentylene Glycol, Acrylates/C10-30 Alkyl Acrylate Crosspolymer, Sodium Hydroxide, Potassium Sorbate (Vitamin C), Phenoxyethanol, Caprylyl Glycol

KEY INGREDIENTS

Apricot: Exfoliating agent.

Lactic Acid 10%: Diminishes the cohesion of the surface skin cells.

Glycolic Acid 10%: It visibly reduces teh appearance of pores and wrinkles as it removes surface dryness and breaks up cellular cohesion.

Malic Acid: Diminishes the cohesion of the surface skin cells.

Aloe Vera: A potent healer. Provides a protective layer that inhibits infection and soothes the skin. It is both hydrating and gentle.

Spearmint: Skin conditioner.

Jojoba: A moisturizing emollient that rapidly penetrates the skin to provide intense healing and moisture.

I know many ingredients used for exfoliating can be too abrasive. What is the source in this body scrub?

The exfoliation properties in this stimulating body wash come from ultra fine jojoba beads. These beads are not overly abrasive and break down as they are worked leaving the skin smoother and softer.

What an exhilarating experience in the morning shower. Can you tell me what ingredients give this product its invigorating scent?

Refining Body Scrub has many natural botanicals but the ones that give it that stimulating fragrance include Spearmint, Peppermint, Clove and Ginger extracts.

Is this product safe for pregnant or breastfeeding moms?

Yes, this product is safe to use during pregnancy/breastfeeding.

HYDRATING HAND & BODY LOTION

GM063R

6.75 fl. oz. | 200 mL

Hydrating Hand & Body Lotion makes skin feel young and radiant all over. Tropical butters smooth, soothe, and soften while healing botanicals reach deep inside to activate the skin's natural suppleness and beauty.

RECOMMENDED FOR

All skin types and all skin conditions. Do not use on the face.

DIRECTIONS

Apply to hands and body daily or as needed. Do not use on the face.

Antioxidants

INGREDIENTS

Aqua (Water), Helianthus Annuus (Sunflower) Seed Oil, Glyceryl Stearate, Glycerin, Cetearyl Alcohol, Cetearth-20, Butyrospermum Parkii (Shea) Butter, Mangifera Indica (Mango) Seed Butter, Theobroma Cacao (Cocoa) Seed Butter, Persea Gratissima (Avocado) Oil, Xanthan Gum, Tocopherol (Vitamin E), Caprylic Acid, Glycine, Lecithin, Fragrance, Diazolidinyl Urea, Iodopropynyl Butylcarbamate

KEY INGREDIENTS

Shea Butter: Restores suppleness, increases moisture in the skin, and improves the appearance of dry, irritated skin.

Mango Butter: Abundance of emollient properties, as well as the ability to aid in wound healing.

Cocoa Butter: Contains ultimate moisturizing qualities as well as a large number of antioxidants to fight free radicals.

Avocado: Strong Antioxidant rich in vitamins. Promotes skin rejuvenation and increases collagen production.

Sunflower: Softens the skin and helps to retain moisture. Forms a natural barrier over skin, protecting it from bacteria. Very nourishing and can regenerate dry, damaged, and sensitive skin.

Does Hydrating Hand & Body Lotion contain artificial fragrance?

GlyMed Plus only utilizes the aromatic blends of nature in their products. All fragrances are proprietary combinations of several essential oils.

How does Hydrating Hand & Body Lotion deliver such immediate relief to my dry hands?

GlyMed Plus uses a combination of the most luxurious oils and butters in this product giving it not only the ability to add moisture but its occlusive nature allows it to seal the skin and prevent important water from evaporating from the skin.

Why does my skin feel drier in the colder months?

There are many factors that play a role in skin's winter wear and tear. First, when the temperatures drop, the skin becomes more brittle which allows small gaps to occur allowing more natural water loss. This, along with the use of heaters, fireplaces, electric blankets can make for extremely dry, itchy skin throughout the winter months. Remember, like the rest of our body, skin responds to light, temperature and climate.

Is this product safe for pregnant or breastfeeding moms?

Yes this product contains ingredients safe for pregnant/breastfeeding mothers.

REFINING HAND & BODY LOTION

with Alpha Hydroxy Acids

GM076R

4.0 fl. oz. | 118 mL

Refining Hand & Body Lotion is a super smoothing lotion that uses a mild exfoliating action to slough away dry skin as it nourishes and moisturizes. Work beyond the surface to reduce fine lines and wrinkles, diminish age spots and hyperpigmentation.

RECOMMENDED FOR

All skin types and conditions. Do not use on the face.

gly*med*+

DIRECTIONS

Apply to hands and body daily or as needed. Do not use on the face.

INGREDIENTS

Aqua (Water), Butylene Glycol, Isopropyl Palmitate, Squalane, Cetyl Alcohol, Glyceryl Stearate, PEG-100 Stearate, Magnesium Aluminum Silicate, Lactic Acid, Malic Acid, Glycolic Acid, Stearic Acid, Aloe Barbadensis (Aloe Vera) Leaf Juice, Anthemis Nobilis (Chamomile) Flower Extract, Saponaria Officinalis (Soapwort) Extract, Citrus Limon (Lemon) Fruit Extract, Panthenol (Vitamin B). Dimethicone. PEG-40 Stearate. Disodium EDTA, Hydroxyethylcellulose, Phenoxyethanol, Ethylhexylglycerin, Sodium Hydroxide, Fragrance

KEY INGREDIENTS

Glycolic Acid 10%: It visibly reduces the appearance of pores and wrinkles as it removes surface dryness and breaks up cellular cohesion.

Lactic Acid 10%: Diminishes the cohesion of the surface skin cells.

Malic Acid 10%: Diminishes the cohesion of the surface skin cells.

Chamomile: It has clinically proven anti-inflammatory and reparative properties and is antibacterial, anti-itch, soothing, and purifying. It also serves as an antiseptic and has the ability to neutralize irritants.

Why does my skin seem to be so much drier in the winter months?

Cold weather wreaks havoc on our skin on its own. When you consider all of the other sources including heaters, electric blankets, fireplaces, etc it is no surprise that your skin tends to become extremely dry. It was moving to the desert climate that motivated Christine Heathman, product developer and CEO of GlyMed Plus, to create a hand and body lotion that could improve dry skin quickly and dramatically.

I have read that alpha hydroxy acids can create photo sensitivities. Is it safe to use Refining Hand & Body Lotion?

Yes, but GlyMed Plus always advocates the use of sunscreen on any exposed areas. Our favorite for the body is Hydrating Protection Gel SPF 15 or 30+.

Is this product safe for pregnant or breastfeeding moms?

Yes, this product is safe to use while pregnant/breastfeeding.

CBD MASSAGE **CREAM**

glymed+

GM405R

3.38 fl. oz. | 100 mL

Indulge the face and body with this therapeutic combination of CBD and natural botanicals. This multi-action cream contains Arnica and Capsaicin to soothe inflammation, reduce soreness, and improve the overall firmness of the skin.

RECOMMENDED FOR

All skin types. Great for photo-damage, fine lines and wrinkles, and cellulite.

DIRECTIONS

For Body: Apply liberal amounts to areas of concern and massage thoroughly into the skin. Warming and cooling of the skin is to be expected.

Inflamed

For Face: Apply a small amount to face, neck, and décolleté and massage thoroughly with fingertips. Warming and cooling of the skin is to be expected. Do not use more than twice a week.

INGREDIENTS

Organic Aloe Barbadensis Leaf Juice, Isopropyl Palmitate, Dimethicone, Caprylic Capric Triglyceride, Cetyl Alcohol, Stearyl Alcohol, Cannabis Sativa Stem (CBD) Oil, Glycerin, Menthol, Panthenol, Allantoin, Capsaicin Frutescens Oleoresin, Cetearyl Alcohol, Ceteareth-20, Arnica Montana Flower Extract, Symphytum Officinale (Comfrey) Rhizome/Root Extract, Butyrospermum Parkii (Shea) Butter, Helianthus Annuus (Sunflower) Seed Oil, Cymbopogon Schoenanthus (Lemongrass) Oil, Tocopherol, Carbomer, Camphor, Phen-oxyethanol, Ethylhexylglycerin, Sodium Hydroxide

KEY INGREDIENTS

CBD (Hemp): Grown in the USA, derived from HEMP and is considered one of the strongest antioxidants, even stronger than Vitamin C & E, and recognized for its incredible anti-aging effects in the skin.

Arnica: Provides antiseptic, astringent, anti-inflammatory and antimicrobial properties in the skin. Arnica promotes healing in the skin while also encouraging circulation.

Capsaicin: Derived from chili peppers, this ingredient improves microcirculation to help relieve pain and reduce inflammation. Creates a warming effect on the skin.

Camphor: Provides analgesic properties to the skin, helps relieve aches, pain and itchiness. Increases circulation and provides antibacterial benefits.

Will Arnica help reduce bruising?

Yes. Bruises are a result of an injury that causes a break in tiny blood vessels in the skin. The blood vessels or capillaries leak into the surrounding tissue, red blood cells gather, and a discoloration appears. Bruising may start as a red-purple injury and then become green or yellow as the body works to heal the area. Certain constituents in arnica decrease the permeability of the blood vessels and break up the coagulation.

Will CBD get you high?

No, CBD is a hemp-based ingredient that differs from strains of marijuana cultivated for their psychoactive drug use. Our CBD is derived from non-drug strains of cannabis and has NO psychoactive compounds. THC is the chemical compound that is responsible for psychoactive effects. Our CBD products are lab-certified to have less than 0.3% THC and in fact our products have been tested and have zero THC.

What is the difference between HEMP and Marijuana products?

In December of 2018, the Farm Act of 2018 was signed into law and this law included a revised definition of "marijuana products." Under the revised definition, products with low to no THC content (less than 0.3%) were excluded from the definition of marijuana products. There have been many studies and there are many more studies underway that are measuring the benefits of CBD and other hemp-related ingredients. Our CBD products have all been independently certified to be hemp-based products and NOT marijuana products.

Is this safe for pregnant and nursing mothers?

No this product is not recommended for mothers who are expecting or nursing. Always recommend your expecting clients consult with their physician regarding using CBD or other active ingredients.

CELLULITE CORRECTOR CREAM

with Warming Actives

GM085R

6.5 fl. oz. | 192 mL

Cellulite Corrector Cream provides rich hydration that leaves skin nourished, invigorated and smooth instantly. Essential oils and nutrients stimulate blood circulation to eliminate the pollutants that cause water to be trapped in skin tissues and cause a 'rippled' appearance. The result is visibly toned, smoother, younger looking skin.

RECOMMENDED FOR

All skin types. Only use for cellulite on the body.

CELLULITE CORRECTOR CREAM With Warming Actives Cenna Correctors and colunita sux Active Schemical Controller Corn Actives & Coloriamento con Colori

Cellulite Reducing

DIRECTIONS

Apply a liberal amount to the area to be treated. Work into the skin concentrating on rippled areas thoroughly. Can be used twice daily. Redness will occur.

INGREDIENTS

Agua (Water), Helianthus Annuus (Sunflower) Seed Oil, Vitis Vinifera (Grape) Seed Oil, Prunus Amygdalus Du-Icis (Sweet Almond) Oil, Cocos Nucifera (Coconut) Oil, Behentrimonium Methosulfate, Glycerin, Caffeine, Butyrospermum Parkii (Shea) Butter, Glycine Soja (Soybean) Oil, Simmondsia Chinensis (Jojoba) Seed Oil, Cetearyl Alcohol, Ceteareth-20, Arctium Majus (Burdock) Root Extract, Aloe Barbadensis (Aloe Vera) Leaf Juice, Foeniculum Vulgare (Fennel) Fruit Extract, Camellia Sinensis (Green Tea) Leaf Extract, Juniperus Communis (Juniper) Fruit Extract, Panax Ginseng Root Extract, Mentha Viridis (Spearmint) Leaf Oil, Mentha Piperita (Peppermint) Leaf Oil, Eugenia Caryophyllus (Clove) Flower Oil, Maltodextrin, Paullinia Cupana (Guarana) Seed Extract, Carnatine, Microcrystalline Cellulose, Cysteic Acid, Pantetheine Sulfonate, Tocopherol (Vitamin E), Rosmarinus Officinalis (Rosemary) Leaf Oil, Methyl Nicotinate, Retinyl Palmitate (Vitamin A Ester), Ascorbyl Palmitate (Vitamin C Ester). Potassium Sorbate (Vitamin C), Diazolidinyl Urea, Phenoxyethanol

KEY INGREDIENTS

Caffeine: Antioxidant that assists in absorption of other ingredients.

Peppermint: A natural plant oil that cools, invigorates, and stimulates the skin.

Methyl Nicotinate: Dilates capillaries and increases blood circulation.

Vitamin E: Powerful antioxidant and soothing agent that protects skin from the effects of pollutants and free radicals.

Vitamin A: Free radical scavenger. Increases epidermal thickness.

Vitamin C: A powerful antioxidant that helps build new collagen fibers.

I have tried cellulite creams in the past with no success. What makes this product different?

In order for a cellulite cream to be effective, it actually has to heat the adipose (fat) layer. Cellulite Corrector Cream has been professionally tested to warm this layer to a level that creates efficacy.

How often can I apply Cellulite Corrector Cream?

We recommend a daily application for the first two to four weeks, decreasing to every other day after a month.

I get very red when I use this. Am I allergic?

No, this is due to the increased circulation as well as the detoxifying effects. The more red you are the more toxins that are being removed. You will notice the redness will be much less as you are using more frequently.

Is this product safe for pregnant or breastfeeding moms?

Please consult your doctor before using this product.

BODY MASSAGE OIL

GM084B

4.0 fl. oz. | 118 mL

Body Massage Oil is a weightless 'super oil' that boosts the body's own moisture to help strengthen and firm skin. Packed with certified essential oils including sunflower, grape and sweet almond to balance and re-energize tired, dry skin.

RECOMMENDED FOR

All skin types. For use on the body only.

DTRECTTONS

Apply to the skin to provide hydration and slip during body massage or to boost other hydrating lotions.

Natural

TNGREDTENTS

Helianthus Annuus (Sunflower) Seed Oil, Vitis Vinifera (Grape) Seed Oil, Prunus Amygdalus Dulcis (Sweet Almond) Oil, Mentha Viridis (Spearmint) Leaf Oil, Zingiber Officinale (Ginger) Root Oil, Mentha Piperita (Peppermint) Leaf Oil, Eugenia Caryophyllus (Clove) Flower Oil, Tocopherol (Vitamin E), Lecithin, Rosmarinus Officinalis (Rosemary) Leaf Extract

KFY TNGREDTENTS

Sunflower: Softens the skin and helps retain moisture; it is one of the least comedogenic oils.

Grape: A natural plant oil that cools, invigorates, and stimulates the skin.

Spearmint: Skin conditioner.

Peppermint: A natural plant oil that cools, invigorates, and stimulates the skin.

Vitamin E: Powerful antioxidant and soothing agent that protects skin from the effects of pollutants and free radicals.

Can I use this product on my face?

We do not recommend using Body Massage Oil on the face.

Is this product safe for pregnant or breastfeeding moms?

Yes, this product contains ingredients safe to use during pregnancy/breastfeeding.

LACTIC ASTRINGENT glymed+ PREPPING AGENT

GM119R

4.0 fl. oz. | 118 mL

Lactic Astringent Prepping Agent is an important step in achieving optimal peeling results for very superficial to superficial chemical exfoliation. It removes oil, cleanser, and debris from the skin for a more uniform peel, while providing the skin with healing aloe vera.

RECOMMENDED FOR

CLINICAL USE ONLY. All skin types and skin conditions about to undergo a clinical procedure.

DIRECTIONS

After cleansing, dispense 1 tsp to a cotton round or gauze. Apply evenly over area to be treated and allow to dry for 1 minute. Continue with GlyMed Professional Chemical Solution.

All Fitzpatricks

AHAs

INGREDIENTS

Water, Isopropyl Alcohol, Aloe Barbadensis Leaf Extract, Propylene Glycol, Lactic Acid, Hamamelis Virginiana (Witch Hazel) Water, Salicylic Acid, Phenoxyethanol, Ethylhexylglycerin, Sodium Hydroxide

KEY INGREDIENTS

Lactic Acid: Diminishes the cohesion of the surface skin cells.

Witch Hazel Extract: Removes excess surface skin oils.

Aloe Vera: A potent healer. Provides a protective layer that inhibits infection and soothes the skin. It is both hydrating and gentle.

Salicylic Acid: Used as an exfoliant. Reduces oiliness, acne, and photo-aging. Helps slow down the shedding of the cells inside the follicles to prevent clogging. Also helps break down blackheads and whiteheads.

How do I determine which GlyMed Plus Astringent Prepping Agent to use with my peel?

Both GlyMed Plus Astringent Prepping Agents are equally effective in preparing the skin for any professional protocols.

I have cleansed the skin sufficiently; can I bypass the Astringent Prepping Agent?

No, nothing replaces the all-important pre-treatment step in a procedure. GlyMed Plus Astringent Prepping Agents contain ingredients that break down the barrier in the skin for more even application. Cleansing alone cannot replace this step.

I noticed all GlyMed Plus protocols offer the option of using either cotton or gauze. How do I decide which one to use?

Cotton is much softer and will be less aggressive. Gauze, on the other hand, creates a more abrasive result and will increase the bioavailability of the peel.

Is this product safe for pregnant or breastfeeding moms?

AHA ASTRINGENT PREPPING AGENT

GM115R

8.0 fl. oz. | 236 mL

AHA Astringent Prepping Agnet is the first important step in your AHA peeling procedures. Acting as a deep pore cleansing agent and de-fatting solvent, this formula thoroughly prepares and conditions skin for superficial to medium depth chemical exfoliation while providing it with healing botanicals and natural tyrosinase inhibitors.

RECOMMENDED FOR

CLINICAL USE ONLY. All skin types and skin conditions about to undergo a clinical procedure.

All Fitzpatricks

Organic Acids

DIRECTIONS

After cleansing. Apply 1 tsp to a cotton round or swab. Apply evenly over area to be treated and allow to dry for 1 minute. Follow with a GlyMed Plus Exfoliant or Peel.

INGREDIENTS

Aloe Barbadensis (Aloe Vera) Leaf Juice, Glycolic Acid, SD Alcohol 40-B, Hamamelis Virginiana (Witch Hazel) Water, Sodium Hydroxide, Polysorbate 20, Chamomilla Recutita (Chamomile) Flower Extract, Eucalyptus Globulus Leaf Oil, Melaleuca Alternifolia (Tea Tree) Leaf Oil, Camphor, Salicylic Acid, Glycerin, Phenoxyethanol, Potassium Sorbate (Vitamin C)

KEY INGREDIENTS

Glycolic Acid: It visiblly reduces the appearance of pores and wrinkles as it removes surface dryness and breaks up cellular cohesion.

Salicylic Acid: Used as an exfoliant. Reduces oiliness, acne, and photo-aging. Helps slow down the shedding of the cells inside the follicles to prevent clogging. Also helps break down blackheads and whiteheads.

Aloe Vera: A potent healer. Provides a protective layer that inhibits infection and soothes the skin. It is both hydrating and gentle.

Witch Hazel: An extract derived from the bark and dried leaves of the shrub with astringent properties; helps to remove excess surface skin oils.

Tea Tree: Antiseptic and healing to the skin.

How do I determine which GlyMed Plus Astringent Prepping Agent to use with my peel?

Both GlyMed Plus Astringent Prepping Agents are equally effective in preparing the skin for any professional protocols.

I have cleansed the skin sufficiently, can I bypass the Astringent Prepping Agent?

No, nothing replaces the all-important pre-treatment step in a procedure. GlyMed Plus Astringent Prepping Agents contain ingredients that break down the barrier in the skin for more even application. Cleansing alone cannot replace this step.

I noticed all GlyMed Plus protocols offer the option of using either cotton or gauze. How do I decide which one to use?

Cotton is much softer and will be less aggressive. Gauze, on the other hand, creates a more abrasive result and will increase the bio-availablity of the peel.

Is this product safe for pregnant or breastfeeding moms?

PROFESSIONAL OXYGEN REGENERATIVE SOLUTION

GM102R

3.38 fl. oz. | 100 mL

Cutaneous skin cells rely on oxygen diffusion. This unique one of a kind oxygenating peel formulation releases bio-oxygen power aiding inner-cellular diffusion and the benefits of lactic acid for cell regeneration revealing baby smooth, youthful looking skin. Professional Oxygen Regenerative Solution breathes back a youthful life to hypoxic, dull, tired, damaged skin cells. Rich in arabinogalactans derived from botanical plants, skin will brighten, firm, tone and immediately glow with health.

RECOMMENDED FOR

All skin types. Great for photo-damage, fine lines & wrinkles and acne.

Chemical Treatment

DIRECTIONS

Dispense approximately 1 tsp. into a small dish. Saturate either cotton pad or gauze in product. Apply product across the forehead, down the sides of the face, over chin, upper lip, nose and finish over cheeks.

Layered Peel: Each layer must sit for 1–2 minutes to neutralize. Continue with post treatment products.

INGREDIENTS

Water, Lactic Acid, Decafluoropentant, Butylene Glycol, Glycerin, Polysorbate 20, Saccharum Officinarum (Sugarcane) Extract, Isononyl Isononanoate, Ethylhexyl Isononanoate, Sodium Cocamidopropyl Pg-dimonium Chloride Phosphate, Polyhydroxystearic Acid, Aloe Barbadensis Leaf Juice, Citrus Aurantium Dulcis (Orange) Fruit Extract, Citrus Limon (Lemon) Fruit Extract, Pyrus Malus (Apple) Fruit Extract, Camellia Sinensis (Green Tea) Leaf Extract, Phenoxyethanol, Ethylhexylglycerin, Sodium Hydroxide

KEY INGREDIENTS

Oxygen: Promotes oxygenation to cells to boost circulation and cell functions.

Lactic Acid: Diminishes dead skin build up, increasing hydration and brightens skin tone.

Aloe Vera: Potent healer, provides a protective layer that inhibits infection and soothes skin.

Green Tea: High antioxidant with antiinflammatory properties.

I have heard this product referred to as the "walk in welcome" peel. Why is that?

Due to the nature of chemical peels, GlyMed Plus procedures require that clients are on approximately 4 weeks of home care before their first clinical treatment. This helps the esthetician evaluate and determine any potential sensitivities that can be avoided. However, we also understand how clients can be anxious to begin their clinical treatments. Professional Oxygen Regenerative Solution is safe enough to introduce to clients on the first visit prior to their recommended home care providing that the Skin Care Questionnaire is obtained and evaluated and caution is taken regarding the length of initial treatment.

I read that Professional Oxygen Regenerative Solution is recommended for mature aging skin. Can my acne clients benefit?

Yes! Professional Oxygen Regenerative Solution contains the power of oxygen and AHAs to remove surface buildup and breathing life back into dull, tired cells. For more precise extractions, apply this treatment for three to five minutes before extractions to break down the corneocyte cohesion that makes extractions more difficult.

I have had many clients notice an immediate brightening to their skin after this procedure. Can you help me explain why this occurs?

There are several ingredients in the Professional Oxygen Regenerative Solution uses that contribute to its success. First, the oxygenation to our skin helps to increase circulation and cell activity, helping to instantly transport nutrients to cells. In addition, it contains 5% lactic acid to give the skin that instant "glow."

Is this product safe for pregnant or breastfeeding moms?

PROFESSIONAL PUMPKIN **EXFOLIATOR**

4.0 fl. oz. | 118 mL

This pumpkin and papain enzyme exfoliator contains 5% lactic acid to provide a gentle but accelerated exfoliation. This antioxidant-packed formula is also enhanced with an active collagen-inducing peptide to keep skin active. Ideal for restoring skin hydration. tone, and firmness.

RECOMMENDED FOR

CLINICAL USE ONLY. All skin types. Great for mature, aging, and environmentally damaged skin.

Enzymes

DIRECTIONS

Dispense approximately 1 tsp. into a small dish. Saturate either cotton pad or gauze in product. Apply product across the forehead, down the sides of the face, over chin, upper lip, nose and finish over cheeks. Allow to sit for 5–15 minutes. Remove with cool towels and continue with post treatment products.

INGREDIENTS

Aqua (Water), Lactic Acid, Palmitoyl Tripeptide-5, Glycerin, 1-Methylhydantoin-2-Imide, Lactobacillus Punica Granatum (Pomegranate) Fruit Ferment Extract. Leuconostoc/ Radish Root Ferment Filtrate. Lactobacillus/Pumpkin Ferment Extract, Papain, Galactoarabinan, Cyclopentasiloxane, Dimethiconol, Phospholipids, Glycine Soja (Soybean) Oil, Glycolipids, Glycine Soja (Soybean) Sterols, Retinol (Vitamin A), Carbomer, Allantoin, Fragrance, Sodium Hydroxide, Hydroxyethylcellulose, Methylchloroisothiazolinone, Methylisothiazolinone, FD & C Yellow #6. Red 33

KEY INGREDIENTS

Lactic Acid 5%: Diminishes the cohesion of the surface skin cells.

Pomegranate Enzyme: Provides cell regeneration and proliferation. Antioxidant and skin brightener.

Pumpkin Enzyme: Powerful antioxidant that dissolves dead skin cells.

Palmitovl Tripeptide-5: Peptide that stimulates collagen synthesis and helps reduce the appearance of wrinkles.

Papain: From the papaya fruit, this enzyme hydrolyzes and digests proteins.

I have heard this product referred to as the "walk in welcome" peel. Why is that?

Due to the nature of chemical peels, GlyMed Plus procedures require that clients are on approximately 4 weeks of home care before their first clinical treatment. This helps the esthetician evaluate and determine any potential sensitivities that can be avoided. However, we also understand how clients can be anxious to begin their clinical treatments. Professional Pumpkin Exfoliator is safe enough to introduce to clients on the first visit prior to their recommended home care providing that the Skin Care Questionnaire is obtained and evaluated and caution is taken regarding the length of initial treatment.

I read that Professional Pumpkin Exfoliator is recommended for mature aging skin. Can my acne clients benefit?

Yes! Professional Pumpkin Exfoliator contains the powerful enzyme action of pumpkin and papaya. For more precise extractions, apply this treatment for three to five minutes before extractions to break down the cornecyte cohesion that makes extractions more difficult.

I have had many clients notice an immediate brightening to their skin after this procedure. Can you help me explain why this occurs?

There are several ingredients in the Professional Pumpkin Exfoliator that contribute to its success. First, the combined enzymatic activity of pumpkin and papaya gently lift away dead, superficial skin cells that create a dull skin tone. In addition, it contains the lightening properties of lactic acid, pomegranate enzyme, and methylhydantoin-2-amide to give the skin that instant "glow."

Is this product safe for pregnant or breastfeeding moms?

PROFESSIONAL PEPTIDE PERFECTION EXFOLIATOR

GM113R

2.0 fl. oz. | 59 mL

Activate protein turnover through proteasome stimulation to help maintain the regeneration, proliferation, and migration of skin. An advanced peptide formula that helps prevent DNA oxidation and fights environmental aging.

RECOMMENDED FOR

All skin types.

DIRECTIONS

Dispense approximately 1 tsp. into a small dish. Saturate either cotton pad or gauze in product. Apply product across the forehead, down the sides of the face, over chin, upper lip, nose and finish over cheeks. Allow to sit for 5-15 minutes. Remove with cool towels and continue with post treatment products.

Chemical

INGREDIENTS

Water, Sd Alcohol 40-b, Pentylene Glycol, Mandelic Acid, Malic Acid, Lactic Acid, Glycerin, Polysorbate 20, Propanediol, Sodium Hydroxide, Hydroxyethylcellulose, Palmitoyl Tripeptide-1, Palmitoyl Tetrapeptide-7, Acetyl Sh-heptapeptide-1, Acetyl Hexapeptide-8, Copper Tripeptide-1, Panthenol, Sorbitol, Glycine, Hydrolyzed Soy Protein, Butylene Glycol, Hydrogenated Lecithin, Phenyl Alcohol, Mucor Miehei Extract, Butyrospermum Parkii (Shea) Butter, Carbomer, Caprylyl Glycol, Hexylene Glycol, Phenoxyethanol, Ethylhexylglycerin, Sodium Hydroxide, Silver

KEY INGREDIENTS

Mandelic Acid: Derived from almonds, this larger AHA gently helps to diminish surface cellsto reduce build up.

Malic Acid: Derived from apples, this larger AHA gently helps to diminish surface cells to reduce build up, in addition to providing antibacterial properties.

Lactic Acid: Derived from tomatoes and/or sour milk, this small AHA increases water content, gently exfoliates, and brightens superficial hyperpigmentation.

Palmitoyl Tripeptide-1: A peptide that initiates the stimulation of collagen and glycosaminoglycan (hyaluronic acid) production while also supporting connecting tissue to firm and tighten.

Palmitoyl Tripeptide-7: A peptide that reduces inflammation that is responsible for weakening protein production. It also helps to influence healing and tissue regeneration.

Acetyl SH-Heptapeptide-1: Protective peptide that prevents against DNA oxidations while also turning on the master switch to slow aging and neutralize free radical damage.

Acetyl Hexapeptide-8: A neuro peptide that diminishes creases and wrinkles by preventing the signal protein, catecholamine, from connecting to the cell.

Copper Tripeptide-1: A wound healing peptide that delivers essential nutrients crucial for tissue regeneration.

I have heard this product referred to as the "walk in welcome" peel. Why is that?

Due to the nature of chemical peels, GlyMed Plus procedures require that clients are on approximately 4 weeks of home care before their first clinical treatment. This helps the esthetician evaluate and determine any potential sensitivities that can be avoided. However, we also understand how clients can be anxious to begin their clinical treatments. Professional Peptide Perfection Exfoliator is safe enough to introduce to clients on the first visit prior to their recommended home care providing that the Skin Care Questionnaire is obtained and evaluated, and caution is taken regarding the length of initial treatment.

I read that Professional Peptide Perfection Exfoliator is recommended for mature aging skin. Can my acne clients benefit?

Yes! Not only is this peel great for mature skin, but it's also safe to use for preventative and or acne prone skin. Peptides help to build dense collagen network while the AHA blend helps to remove dead skin build up, cleaning out the pores and preventing future breakouts.

Most of my clients don't notice any peeling with this product. Am I applying it correctly?

Due to the nature of AHAs, most of the activity is taking place within the skin. Therefore, although there is repair going on, it is not always visible on the surface. Depending on the skin and the need for exfoliation some clients may experience peeling, and some may not. The peel is still working on a cellular level to encourage positive changes whether peeling occurs or not.

PROFESSIONAL **EXFOLIATOR**

with 30% Lactic Acid

GM120R

4.0 fl. oz. | 118 mL

Professional Exfoliator combines the exfoliation and skin brightening power of 30% lactic acid with active tyrosinase inhibitors and skin calming herbal extracts. Provides excellent exfoliating action while moisturizing, healing, and protecting the skin. This compound is not only a superior exfoliant but also one of the best treatments for hyperpigmentation and is a preferred peel for skin of color.

RECOMMENDED FOR

CLINICAL USE ONLY. Do not use with Accutane or if you are undergoing cancer treatments. Great for dry, dehydrated, dull, and pigmented skin.

Chemical

Organic

DIRECTIONS

Dispense approximately 1 tsp. into a small dish. Saturate either cotton pad or gauze in product. Apply product across the forehead, down the sides of the face, over chin, upper lip, nose and finish over cheeks. Allow to sit for 5-15 minutes. Remove with cool towels and continue with post treatment products.

INGREDIENTS

Water, Lactic Acid, Hydroxyethylcellulose, Annatto, Butylene Glycol. Propylene Glycol. Aloe Barbadensis Leaf Juice, Chamomilla Recutita (Matricaria) Flower Extract. Rosmarinus Officinalis (Rosemary) Leaf Extract, Cananga Odorata (Ylang Ylang) Flower Extract, Arctostaphylos Uva Ursi Leaf Extract, Phenoxyethanol, Ethylhexylglycerin, Sodium Hydroxide

KEY INGREDIENTS

30% Lactic Acid: Diminishes the cohesion of the surface skin cells. Brightens pigmentation and increases hydration.

Aloe Vera: A potent healer. Provides a protective layer that inhibits infection and soothes the skin. It is both hydrating and gentle.

Chamomile: It contains 30 different active compounds that have anti-inflammatory properties and it is capable of inducing collagen synthesis.

Ylang Ylang: Cleansing, it refines and soothes inflamed skin while warming and moisturizing.

Bearberry: Natural tyrosinase inhibitor, protects the melanocyte and prevents hyperpigmentation.

How do I determine which GlyMed Plus Prepping Agent to use with my peel?

Start with the 30% for more sensitive, first-time clients and skin of color. If procedure goes well, it is okay to move up to the 50% formulation.

Most of my clients don't notice any peeling with this product. Am I applying it correctly?

Due to the nature of AHAs, most of the activity is taking place within the skin. Therefore, although there is repair going on, it is not visible on the surface. Teach your client not to associate visible peeling with actual results.

Are 30% and 50% Lactic Acid safe for pregnant clients?

Although many studies validate the safety of AHAs for pregnant clients, it is important to remember that their skin is much more sensitive to sun damage during pregnancy. Therefore, it is critical to their success and to prevent the onset of melasma to ensure that pregnant clients use sufficient sunscreen every day and reapply as necessary during prolonged sun exposure.

Is this product safe for pregnant or breastfeeding moms?

PROFESSIONAL **EXFOLIATOR**

with 50% Lactic Acid

GM055R

4.0 fl. oz. | 118 mL

Professional Exfoliator with 50% Lactic Acid combines the exfoliation and skin brightening power of 50% lactic acid with active tyrosinase inhibitors and skin calming herbal extracts. Provides excellent exfoliating action while moisturizing, healing, and protecting the skin. This exfoliator is colorblind and is excellent for treating skin of color.

CLINICAL USE ONLY. Do not use with Accutane or if you are undergoing cancer treatments. Great for dry, dehydrated, dull, and pigmented skin.

Organic Acids

DIRECTIONS

Dispense approximately 1 tsp. into a small dish. Saturate either cotton pad or gauze in product. Apply product across the forehead, down the sides of the face, over chin, upper lip, nose and finish over cheeks. Allow to sit for 5-15 minutes. Remove with cool towels and continue with post treatment products.

INGREDIENTS

Lactic Acid (50%), Agua (Water), Aloe Barbadensis (Aloe Vera) Leaf Juice, Chamomilla Recutita (Chamomile) Flower Extract, Arctostaphylos Uva-Ursi (Bearberry) Leaf Extract, Rosmarinus Officinalis (Rosemary) Leaf Extract, Hydroxyethylcellulose, Propylene Glycol, Diazolidinyl Urea, Methylparaben, Propylparaben, Sodium Hydroxide, Tetrasodium EDTA

KEY INGREDIENTS

Lactic Acid 50%: Diminishes the cohesion of the surface skin cells. Brightens pigmentation and increases hydration.

Aloe Vera: A potent healer. Provides a protective layer that inhibits infection and soothes the skin. It is both hydrating and gentle.

Chamomile: It contains 30 different active compounds that have anti-inflammatory properties and it is capable of inducing collagen synthesis.

Bearberry: Natural tyrosinase inhibitor, protects the melanocyte to prevent hyperpigmentation.

How do I choose between the 30% Lactic Acid and 50% Lactic Acid?

Start with the 30% for more sensitive, first time clients and skin of color. If procedure goes well, it is okay to move up to the 50% formulation.

Most of my clients don't notice any peeling with this product. Am I applying it correctly?

Due to the nature of AHAs, most of the activity is taking place within the skin. Therefore, although there is repair going on, it is not visible on the surface. Teach your client not to associate visible peeling with actual results.

Are 30% and 50% Lactic Acid safe for pregnant clients?

Although many studies validate the safety of AHAs for pregnant clients, it is important to remember that their skin is much more sensitive to sun damage during pregnancy. Therefore, it is critical to their success and to prevent the onset of melasma to ensure that pregnant clients use sufficient sunscreen every day and reapply as necessary during prolonged sun exposure.

PROFESSIONAL SOLUTION

with 20% Salicylic Acid

GM143R

4.0 fl. oz. | 118 mL

Provides strong exfoliation and increased cellular turnover for stubborn conditions such as acne. 20% Salicylic acid enhances the penetration of treatments while oxygenation and detoxifying congested skin. Perfect for resistive, thick, and oily skin.

RECOMMENDED FOR

CLINICAL USE ONLY. Fitzpatrick types 1–3 only. Do not use with Accutane, if you are undergoing cancer treatments, if you are pregnant or nursing, or if you have heart or kidney problems. Great for oily and acne prone skin.

Oily

Chemical Treatment

Layered

BHAs

DTRECTTONS

Dispense approximately 1 tsp. into a small dish. Saturate either cotton pad or gauze in product. Apply product across the forehead, down the sides of the face, over chin, upper lip, nose and finish over cheeks.

Layered Peel: Each layer must sit for 3-4 minutes to neutralize. Continue with post treatment products.

INGREDIENTS

SD Alcohol 40-B, Salicylic Acid, Aqua (Water), Butylene Glycol, Sodium Hydroxide

KEY INGREDIENTS

Salicylic Acid 20%: Derived from windergreen leaves and sweet birch, and used as an exfoliant. Reduces oiliness, acne, and photo-aging. Helps slow down the shedding of the cells inside the follicles to prevent clogging. Also helps break down blackheads and whiteheads.

Why do I not remove the Professional Solution with 20% Salicylic Acid?

Professional Solution with 20% Salicylic Acid is one of the GlyMed Plus peels that is self-neutralizing, meaning it will stop working within a specific time frame.

I read that GlyMed Plus recommends advising the client to drink 6-8 glasses of water after the treatment. Why?

Because Professional Solution with 20% Salicylic Acid can get into the bloodstream, it is possible if the client is ill, tired, hungry, etc., that they may get lightheaded from the treatment. Drinking lots of water helps flush the products out of the system more quickly, eliminating this effect.

I have an acne client with Asian skin which I understand is sensitive to salicylic acid. I am concerned about using the Professional Solution with 20% Salicylic Acid on her skin. Do you have any suggestions?

To reduce the risk of being too aggressive on clients with sensitive skin or younger acne clients, you can substitute the Astringent No. 5 or Astringent No. 10 for the Professional Solution with 20% Salicylic Acid for the first one or two treatments. This will allow you to gain the benefits of salicylic acid without the risk.

Is this product safe for pregnant or breastfeeding moms?

PROFESSIONAL SOLUTION

with 30% Salicylic Acid

GM43ER

4.0 fl. oz. | 118 mL

This salicylic acid peel provides strong exfoliation and stimulates desquamation resulting in increased cellular turnover and superior all-around peeling for conditions such as acne and surface pigmentation. Contains a 30% concentration of salicylic acid. Salicylic acid is one of the most effective ways to control acne and oily skin.

RECOMMENDED FOR

Dispense approximately 1 tsp. into a small dish. Saturate either cotton pad or gauze in product. Apply product across the forehead, down the sides of the face, over chin, upper lip, nose and finish over cheeks.

PROFESSIONAL JESSNER SOLUTION

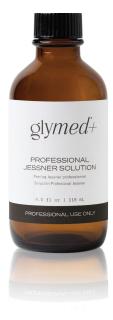

GM030R

4.0 fl. oz. | 118 mL

Produce effective yet predictable peeling with 14% Salicylic acid, 14% Lactic acid and 14% Resorcinol. This advanced solution helps to oxygenate and detoxify congested skin while providing antibacterial, antiseptic, and astringent properties while reducing oil production.

RECOMMENDED FOR

CLINICAL USE ONLY. Fitzpatrick types 1–3 only. Do not use with Accutane, if you are undergoing cancer treatments, if you are pregnant or nursing, or if you have heart or kidney problems. Great for oily, acne, and pigmented skin.

Layered Peel: Each layer must sit for 3–4 minutes to neutralize. Continue with post treatment products.

INGREDIENTS

SD Alcohol 40-B, Lactic Acid, Salicylic Acid, Resorcinol

KEY INGREDIENTS

Salicylic Acid 14%: Used as an exfoliant. Reduces oiliness, acne, and photo-aging. Helps slow down the shedding of the cells inside the follicles to prevent clogging. Also helps break down blackheads and whiteheads.

Lactic Acid 14%: Diminishes the cohesion of the surface skin cells.

Resorcinol 14%: Keratolytic agent useful in treating acne, oil, pigmentation, and more. It improves skin clarity by breaking down the upper epidermal layers.

Why do I not remove the Professional Jessner Solution?

Professional Jessner Solution is one of the GlyMed Plus peels that is self-neutralizing, meaning it will stop working within a specific time frame.

I read that GlyMed Plus recommends advising the client to drink 6-8 glasses of water after the treatment. Why?

Because Professional Jessner Solution can get into the bloodstream, it is possible if the client is ill, tired, hungry, and etc. that they may get lightheaded from the treatment. Drinking lots of water helps flush the products out of the system more quickly, eliminating this effect.

I have seen other Jessner formulas on the market that are called "modified" or "non-resorcinol." What is the difference?

GlyMed Plus incorporates the formula originally developed by Dr. Max Jessner, which incorporates 14% salicylic acid, 14% lactic acid, and 14% resorcinol. Some companies have chosen to change the formula either by reducing the percentages of ingredients or taking out significant ingredients.

Is this product safe for pregnant or breastfeeding moms?

PROFESSIONAL 5 BERRY SOLUTION

with 7% TCA

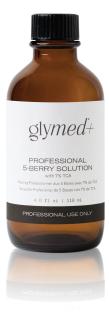

GM098R

4.0 fl. oz. | 118 mL

This potent TCA and antioxidant peel is the perfect solution for photo-aging, wrinkles, hyperpigmentation, and acne. Professional 5 Berry Solution combines 7% TCA and the reparative, protective, and anti-aging benefits of 5 natural berries: cranberry, raspberry, blueberry, blackberry, and bearberry. Colorblind making it safe for all Fitzpatrick skin types.

RECOMMENDED FOR

CLINICAL USE ONLY. All skin types. Do not use with Accutane or if you are undergoing cancer treatments. Great for pigmentation, environmentally damaged skin, aging, and acne prone skin.

Chemical

Aromatic Acids

DIRECTIONS

Dispense approximately 1 tsp. into a small dish. Saturate either cotton pad or gauze in product. Apply product across the forehead, down the sides of the face, over chin, upper lip, nose and finish over cheeks.

Layered Peel: Each layer must sit for 3-4 minutes to neutralize. Continue with post treatment products.

INGREDIENTS

Aqua (Water), Alcohol Denat., Trichloroacetic Acid (TCA), Glycerin, Citric Acid, Glycyrrhiza Glabra (Licorice) Root Extract, Arctostaphylos Uva-Ursi (Bearberry) Leaf Extract, Camellia Oleifera (Green Tea) Leaf Extract, Hamamelis Virginiana (Witch Hazel) Water, Phytic Acid, Ethylhexylglycerin, Vitis Vinifera (Grape) Seed Extract, Caramel, Ascorbic Acid (L) (Vitamin C), Hydrolyzed Cranberry Fruit/Leaf Extract, Tocopheryl Acetate (Vitamin E Acetate), Retinyl Palmitate (Vitamin A Ester), Helianthus Annuus (Sunflower) Seed Oil, Rubus Idaeus (Raspberry) Fruit Extract, Rubus Villosus (Blackberry) Fruit Extract, Vaccinium Angustifolium (Blueberry) Fruit Extract, Hydrolyzed Yeast Protein, Glycine Soja (Soybean) Oil, Xanthan Gum, Alcohol, Yellow 10, Blue 1, Phenoxyethanol

KEY INGREDIENTS

Trichloracetic Acid (TCA) 7%: Provides an aggressive, medium chemical exfoliation to reduce melasma, PIH, sun damage, superficial blemishes, and post-acne scars.

5 Berries | Blueberry, Bearberry, Blackberry, Cranberry, Raspberry: Natural antiinflammatory, antioxidant, and tyrosinase inhibitors.

Licorice: Lightener, antioxidant, antiinflammatory, and hydrator.

Witch Hazel: Removes excess surface skin oils.

Grape: A natural plant oil that cools, invigorates, and stimulates the skin.

Can this peel be used to boost or enhance other peels?

Professional 5 Berry Solution with 7% TCA can either be used alone, applied in layers or it can be used to "boost" other peels during the treatment. However, when first using the Professional 5 Berry Solution, it is not recommended to use additional AHA peels with it. After assessing the client's skin and tolerance, multiple peels may be used during future appointments.

How much visible peeling will my client see with 7% TCA?

Professional 5 Berry Solution contains 7% TCA and was not intended to achieve the medium depth peel available with 15%. However, for clients who are not prepared for the "down time" that accompanies this aggressive treatment, Professional 5 Berry Solution will provide a more manageable result.

Why is this treatment called "Pigment Control"?

First, the five berries included in this treatment are natural anti-inflammatories and are abundant with arbutin. In addition, the licorice root extract has been shown to be a more potent lightener than kojic acid. Finally, the 7% TCA in this treatment will provide some subtle exfoliation of topical, transient hyperpigmentation.

Is this product safe for pregnant or breastfeeding moms?

PROFESSIONAL VITAMIN A SOLUTION

with 10% TCA

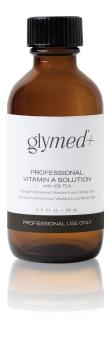

GM099R

2.0 fl. oz. | 59 mL

Safe for Fitzpatrick skin types 1–6. Achieve strong exfoliation and resurfacing with 10% TCA, 10% Glycolic and 5% Retinol. This formula is excellent for improving fine lines, wrinkles, and lifting hyperpigmentation. Boost collagen and elastin while fighting MMPs (destroy collagen and elastin) for brighter, tighter skin.

RECOMMENDED FOR

CLINICAL USE ONLY. All skin types. Do not use if pregnant or nursing, or if you have Rosacea. Great for pigmentation, photo-damaged skin, environmentally damaged, aging, and acne prone skin.

Chemical Treatment

Aromatic Acids

DIRECTIONS

Dispense approximately 1 tsp. into a small dish. Saturate either cotton pad or gauze in product. Apply product across the forehead, down the sides of the face, over chin, upper lip, nose and finish over cheeks.

Layered Peel: Each layer must sit for 3-4 minutes to neutralize. Continue with post treatment products.

INGREDIENTS

Aqua (Water), Alcohol Denat., Trichloroacetic Acid (TCA), Glycolic Acid, Glycerin, Polysorbate 20, Retinol (Vitamin A), Camellia Oleifera (Green Tea) Leaf Extract, Arctostaphylos Uva-Ursi (Bearberry) Leaf Extract, Glycyrrhiza Glabra (Licorice) Root Extract. Malic Acid (L)m Lactobacillus/ Pumpkin Fruit Ferment Filtrate, Ethylhexylglycerin, Ascorbic Acid (L) (Vitamin C), Hydrolyzed Cranberry Fruit/Leaf Extract, Lactic Acid (L), Xanthan Gum, Hydrolyzed Yeast Protein, Phenoxyethanol

KEY INGREDIENTS

Trichloracetic Acid (TCA) 10%: Provides an aggressive, medium chemical exfoliation to reduce melasma, PIH, sun damage, superficial blemishes, and post-acne scars.

Glycolic Acid 10%: It visibly reduces the appearance of pores and wrinkles as it removes surface dryness and breaks up cellular cohesion.

Retinol 5%: Protects the skin and Langerhans cells and controls the activation of MMPs. Protects the skin from sun-induced aging and stimulates skin cell renewal. Acts as a natural humectant.

My client is experiencing extreme peeling. What can I recommend to help reduce this?

Utilizing either the Skin Clarifying Masque or the Hydrating Masque with Enzymes on day 3 or 4 will help to gently remove the peeling skin. If you have the DermaSound Elite™ schedule your client for a treatment that will first help to gently peel away the skin with cavitation followed by Sonophoresis with antioxidants and anti-inflammatories to assist in the wound repair.

Can Professional Vitamin A Solution with 10% TCA be used on the neck and chest?

Yes, you can perform very effective treatments on other parts of the body. Retinol can be used to topically remove age spots anywhere they appear.

Should Professional Vitamin A Solution with 10% TCA be used before or after extractions?

Prior to extractions, we recommend using the Professional Pumpkin Exfoliator with active enzymes to 'un-roof' the pustules making the extractions easier. Following extractions with Professional Vitamin A Solution with 10% TCA will clean any debris left in the follicles helping to prevent more buildup.

PROFESSIONAL PIGMENT LIFT SOLUTION

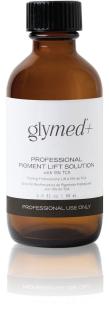

gly*med+*

with 15% TCA

GM096R

2.0 fl. oz. | 59 mL

The Gold Standard of Peeling! This 15% solution of trichloroacetic acid (TCA) and powerful natural tyrosinase inhibitors is renowned for its results in treating, correcting, and controlling pigmentation, wrinkles, and acne. The potent antioxidants vitamin E and retinyl palmitate, in combination with TCA, provide unparalleled results in safe and controlled skin Peeling. Colorblind making it safe for all Fitzpatrick skin types.

Chemical

Aromatic Acids

RECOMMENDED FOR

All skin types. Especially great for pigmentation, scarring, photo-aged/damaged skin.

DIRECTIONS

Dispense approximately 1 tsp. into a small dish. Saturate either cotton pad or gauze in product. Apply product across the forehead, down the sides of the face, over chin, upper lip, nose and finish over cheeks.

Layered Peel: Each layer must sit for 3-4 minutes to neutralize. Continue with post treatment products.

INGREDIENTS

Aqua (Water), Alcohol Denat., Trichloroacetic Acid (TCA), Gly-cerin, Magnesium Ascorbyl Pho-sphate (Vitamin C), Polysorbate 20, Kojic Acid, Phytic Acid, Glycyrrhiza Glabra (Licorice) Root Extract, Arctostaphylos Uva-Ursi (Bearberry) Leaf Extract, Camellia Oleifera (Green Tea) Leaf Ex-tract, Hydroxyethylcellulose, Ethylhexylglycerin, Tocopheryl Acetate (Vitamin E Acetate), Retinyl Palmitate (Vitamin A Ester), Helianthus Annuus (Sun-flower) Seed Oil, Hydrolyzed Yeast Protein, Glycine Soja (Soy-bean) Oil, Xanthan Gum, Fra-grance, Phenoxyethanol

KFY TNGREDTENTS

Trichloroacetic Acid (TCA) 15%: Provides an aggresive, medium chemical exfoliation to reduce melasma, PIH, sun damage, superficial blemishes, and post-acne scars.

Bearberry: Natural tyrosinase inhibitor and skin brightener.

Licorice: Natural skin brightener.

Green Tea: High in antioxidants, effective antibacterial and anti-inflammatory agent.

Vitamin A Ester: A skin conditional with antioxidant, free radical scavenging, and cell renewal properties. It increases epidermal thickness, stimulates the production of epidermal protein and increases skin elasticity.

How many layers of Professional Pigment Lift Solution with 15% TCA can I use on my client?

This exclusive 15% TCA formula is based not on the number of layers but on the level of frost that occurs. The goal is a full frost to obtain the ultimate result. This is indicated by a solid white with no pink showing. Sometimes this can be obtained with three layers and others more. The key is the wetness of the application tool. The cotton or gauze should be wet enough that product can be wrung out but not so much that it is dripping.

My client is experiencing extreme peeling. What can I recommend to help reduce this?

Utilizing either Skin Clarifying Masque or Hydrating Masque with Enzymes on day 3 or 4 will help to gently remove the peeling skin. If you have the DermaSound Elite™ schedule your client for a treatment that will first help to gently peel away the skin with cavitation followed by sonophoresis with antioxidants and anti-inflammatories to assist in the wound repair.

Many companies instructions include not using any products post-peel. Can you tell me why GlyMed Plus uses a different approach?

GlyMed Plus has always incorporated a moist wound healing process that allows the esthetician to put back in the skin the essential components it needs through the healing process. Having your client continue this care throughout the healing phase will result in less irritation, erythema, and risk of post-peel complications.

Is this product safe for pregnant or breastfeeding moms?

ONCOLOGY SAFE PRODUCTS

Resources + Guides

Chemotherapy and radiation may cause a number of skin-related changes, some of which are negative. It is imperative to provide products that are both safe and can help restore the skin's integrity to withstand Oncology treatments. We recommend checking out our Oncology Ebook for more info.
